

*****ATTENTION--FRAUD ALERT*****

The Highland Police Department has received several phone complaints in reference to citizens being contacted by an individual claiming to be with the Department of the Treasury or with no identification at all. The individual advises that if the citizen does not call the number provided back they will be in trouble. The same contact number is being left and is 347-418-0586. This is a scam and you should not call this number, or any other, back or provide any personal information to the caller at any time. The IRS or Dept. of Treasury will contact individuals via US mail and never via the telephone. If you have given personal information out over the phone, please come into the department lobby to make a report to protect yourself from possible identity theft.
