BE ADVISED this is a public meeting conducted in accordance with Illinois state law and may be recorded for audio and video content. City reserves the right to broadcast or re-broadcast the content of this meeting at City's sole discretion. City is not responsible for the content, video quality, or audio quality of any City meeting broadcast or re-broadcast.

Directions for Public Monitoring of Highland City Council Meetings:

In an effort to protect as many individuals as possible, including the leaders of our communities statewide, Governor J.B. Pritzker has issued a number of directives, one of which was to suspend the provisions of the Illinois Open Meetings Act (5 ILCS 120), requiring or relating to in-person attendance by members of a public body. Specifically, (1) the requirement in 5 ILCS 120/2.01 that "members of a public body must be physically present;" and (2) the conditions in 5 ILCS 120/7 limiting when remote participation is permitted, are suspended. Public bodies are encouraged to postpone consideration of public business where possible. When a meeting is necessary, public bodies are encouraged to provide video, audio, and/or telephonic access to their meetings to ensure members of the public may monitor the meeting, and to update their websites and social media feeds to keep the public fully apprised of any modifications to their meeting schedules or the format of their meetings due to COVID-19, as well as their activities relating to COVID-19.

In following this directive, the City of Highland is providing the following phone number for use by citizens to call in just before the start of this meeting:

618-882-5625

Once connected, you will be prompted to enter a conference ID number.

Conference ID #: 867900

This will allow a member of the public to hear the city council meeting. **Note:** This is for audio monitoring of the meeting, only. Participants will not be able make comments.

Anyone wishing to address the city council on any subject during the Public Forum portion of the meeting may submit their questions/comments in advance via email to lhediger@highlandil.gov or, by using the citizens' portal on the city's website found here: https://www.highlandil.gov/citizen request center app/index.php.

Any comments received prior to the end of the "Public Forum" portion of the meeting, will be read into the record.

PUBLIC NOTICE

CITY OF HIGHLAND INTENDS TO SELL REAL PROPERTY IDENTIFIED AS 1808 OLIVE STREET

ORDINANCE NO. 3121

AN ORDINANCE AUTHORIZING 1808 OLIVE STREET, HIGHLAND, ILLINOIS, TO BE DECLARED SURPLUS ACCORDING TO 65 ILCS 5/11-76-1

WHEREAS, the City of Highland, Madison County, Illinois (hereinafter "City"), is a non-home rule municipality duly established, existing and operating in accordance with the provisions of the Illinois Municipal Code (Section 5/1-1-1 et seq. of Chapter 65 of the Illinois Compiled Statutes); and

WHEREAS, City has determined it has the authority to declare real estate surplus according to 65 ILCS 5/11-76-1; and

WHEREAS, City owns property located at 1808 Olive Street, Highland, Illinois, Permanent Parcel No.: 01-2-24-05-16-403-028 (hereinafter "1808 Olive Street"); and

WHEREAS, City has determined 1808 Olive Street is residential in nature and adjacent to residential real estate; and

WHEREAS, City has determined 1808 Olive Street is no longer necessary, appropriate, required for the use of, profitable to, or for the best interest of the City; and

WHEREAS, City has determined it would be in the best interests of public health, safety, general welfare, and economic welfare to declare 1808 Olive Street surplus pursuant to 65 ILCS 5/11-76-1; and

WHEREAS, City authorizes the City Manager and/or Mayor to execute any documents necessary to declare 1808 Olive Street surplus.

NOW THEREFORE BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF HIGHLAND, ILLINOIS AS FOLLOWS:

- Section 1. The foregoing recitals be and are hereby incorporated in this Ordinance.
- Section 2. City owns real estate described above and herein, 1808 Olive Street, that is no longer necessary, appropriate, required for the use of, profitable to, or for the best interest of the City.
- Section 3. Because the real estate described above and herein, 1808 Olive Street, is no longer necessary, appropriate, required for the use of, profitable to, or for the best interest of the City, City wishes to surplus said real estate pursuant to 65 ILCS 5/11-76-1.

Section 4. That this Ordinance shall be known as Ordinance No. <u>3121</u> and shall be in full force and effect from and after is passage.

Passed by the City Council of the City of Highland, Illinois, and deposited and filed in the Office of the City Clerk, on the 19th day of July, 2021, the vote being taken by ayes and noes, and entered upon the legislative records, as follows:

AYES: Sloan, Frey, Bellm, Hemann

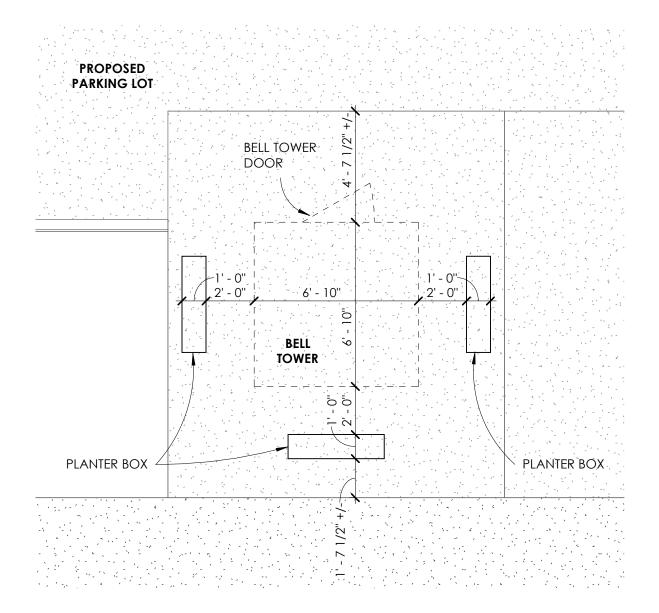

NOES: None

ABSENT: Hipskind

APPROVED: Kevin B. Hemann, Mayor

ATTEST: Barbara Bellm, City Clerk

Terms of Sale: Sealed bids for sale of the property will be accepted at Highland City Hall up to and including August 16, 2021, at 3:00 PM. If City receives a sealed bid in the amount of at least 80% of the appraised value, the property may be sold to the highest bidder.

1	I like the location it is at, but it does pose quite a few problems, so I hope people will understand this and talk it out about what the best location for a new pool would be.	7/27/2020 7:38 AM
2	The current location has served its purpose and now it is time for Highland to plan for the future.	7/27/2020 7:15 AM
3	I am so happy the City of Highland is undertaking this overdue project :) Pool activities promote good health.	7/25/2020 3:39 PM
4	I think the community pool is important. From a workforce perspective, it makes most sense to have at the current KRC property. I do understand that it may limit access to kids that ride bikes from the other side of town, but I think that is manageable.	7/25/2020 1:53 PM

9	a year round pool that can be used in the winter for swim team is a must to justify this level of investment	7/24/2020 12:32 PM
10	I like the park setting and the ease of children being able to ride bike etc. Going out to Korte Rec area or by new P/D prohibits kids from getting there safely on their own.	7/24/2020 12:25 PM
11	I do like the location of the pool in the center of a residential area.	7/24/2020 11:49 AM
12	It needs to stay where it is. Centrally located. How many kids will be able to walk or ride there bike to the rec center. That why the rec. center doesn't do well now.	7/24/2020 11:40 AM
13	Please do not put it out by the Hospital, kids will not be able to ride their bikes to the pool.	7/24/2020 10:43 AM
14	None of these locations lends itself to children riding their bikes or walking to the pool. Trails/sidewalks and major roadway crossings would need to be included in the plan.	7/24/2020 10:31 AM
15	Bad idea to be near public safety facility as sex offenders come to register and criminals get released there	7/24/2020 9:54 AM
16	Splash Pad	7/24/2020 9:30 AM
17	Should not be in the urban parts of town	7/24/2020 9:19 AM
18	A community pool isnt optional, its required for residents, present and prospective residents. If yr round, would b great, especially for schools to use. My family swam at the pool, enjoyed being with friends, in general it was always a fun activity.	7/24/2020 8:40 AM

22	Dream big!	7/24/2020 12:45 AM
23	It will be very unsafe to have a new pool by the Korte rec center or the hospital. Kids cannot get there by bike or even walking. Way to unsafe.	7/23/2020 9:43 PM
24	Many kids will not be able to access the pool if it is moved to a new location in higher traffic areas. Being by the school is a great location for many children and their families	7/23/2020 4:21 PM

29	The new pool needs to be more easily accessible to people with disabilities and the elderly. Its hard getting down to the existing pool. A splash pad would be fantastic. Yearly fees should be based on income. Everyone should be able to use this. Low income families and those on a fixed income need to be able to afford thisieincome based yearly fee with a reasonable cap.	7/23/2020 11:06 AM
30	I do not want to see a new pool build out by the hospital or the Korte Rec Center. There is no easy way for children to walk to the pool with their friends let alone some of the daycares that take the children there.	7/23/2020 10:28 AM
31	Near the hospital would be a GREAT locale, like Mt. Vernon. It would be easily seen by a LOT of people on a busy road. I feel the other locations are too hidden/not easily seen by people happening by on the daily.	7/23/2020 10:21 AM
32	I feel Spindler would be an excellent choice. If we build a pool at Korte or Rinderer, a huge population of highlands children would not be able to get to the pool. It would be a total disservice to our children	7/23/2020 10:17 AM
33	Year round accessibility would be great, especially for Highland Splash swimmers.	7/23/2020 9:28 AM
34	Again, leave the pool it is. If Yeats round qimming is needed, use the Rec Center pool and all of its "fun" additions. The outdoor pool doesn't need all of those things.	7/23/2020 9:09 AM
35	No	7/23/2020 8:58 AM

38	This area could benefit from adding fun features to the new pool. Water slides, multi level play area, lazy pool, splash pad. With reasonable entrance fees.	7/23/2020 8:11 AM
39	The proposed locations are not conveniently located for kids and families to walk/ride bikes to the pool.	7/23/2020 8:00 AM
40	No need for a large new pool at tax payers expense.	7/23/2020 7:58 AM

Price options including for families of 3. Larger families always get the best discounts, not right. Discount for students with good grades! Passes for 30 day period, not just daily or seasonal passes. Make it affordable for all families in Highland, not just the wealthy who can afford their own backyard pools. Family access not just in the afternoon or evenings. Prefer open swim times in the morning when it's not as hot & humid during weekdays & weekends. Year round pool! 91	Leaving it in the same spot is not the solution. 1. Not city owned 2. No pool for an entire year 3. Would still have to contend for parking during events/festivals 4. 108	The current location is perfect for a pool. I find it absurd people are advocating to move because of ownership but in the same breath saying a splash pad will be placed at the site. The Sharpshooters will always work with the city and it is not costing anything. The current location allows kids to bike to the pool every other location does not. On that side of town the playgrounds are in disrepair so if the pool is removed there will be nothing for that side of town. More people will be upset if the pool is moved than if it is not. While I understand the reasons for moving I am not convinced it is the best idea. It is remninescent of closing the street for SuperValu. Before building a new pool why can we not fix the playgrounds and other parts of the parks department. (has the slide been fixed at the rec center?) The last time I was in the rec center a new fresh coat is definitely needed and it feels as if we let things break then demand a shiny new building. 119	Please don't move the pool from being "in town". Please keep it close to its current location. Kids are currently able to walk there from the "Sun Streets" and from all over downtown. All of the places you are considering moving it to are "out of town" where kids cannot walk or bike there. One of the reasons we moved "in town" and were willing to pay higher property taxes was so that amenities like the pool and library would be in walking distance for our kids. Our children use the pool virtually every day in the summer. They walk there and bike there daily. Last year, when covid-19 wasn't an issue, they met up there with all of their friends everyday. They will be unable to do that if the pool is moved. Surely there are other locations "in town" that would be available to move the pool to. The rec center is very nice, but is "out of town" so	7/21/2020 8:57 AM

	my children rarely go there. The cost of pool passes is also a concern. Currently the rate for a pool pass is reasonable for a family. If a new pool is built with all of the extra bells and whistles that are mentioned in this survey, pass prices are likely to go up drastically. Moving the prices up so drastically takes it out of reach of many families in Highland. The family pass price to the Korte Rec is quite expensive. This is another reason that we do not go there very often. People already come from all over to use the outdoor pool. I have family and friends from Troy, Marine, and St. Jacob that come to our pool for swimming lessons and recreational swimming at least once a week. The pool, as we have it, already meets the needs of our community. While it would be neat to have a pool with all the extra features, I am deeply concerned about moving the pool from "in town" and the cost that would be passed onto the families that use it on an everyday basis. Please keep out pool "in town".	
120	Please keep in mind the large amount of children who ride bikes to the pool. This is why Rec Center location should not be considered. Many of our lower income citizens use the pool throughout the summer and this location would involve crossing major state routes to reach.	7/21/2020 8:50 AM

Subject: Outdoor Pool Report

At the request of the City Council, I am submitting a brief report of the current status of the Outdoor Pool. It should be noted that the pool celebrated its 40th anniversary this year, exceeding its useful life by 15 years.

Although the pool did have a successful year regarding operations, the items indicated by the FGM report have not changed. In general, accessibility remains a problem, the wading/baby pool is not operational, restrooms/bath house is substandard, and the annual uncertainty of start-up are all concerns. Attached are photos of the condition of the deck as well an example of how we secure drains.

Below are highlights of the 2021 season:

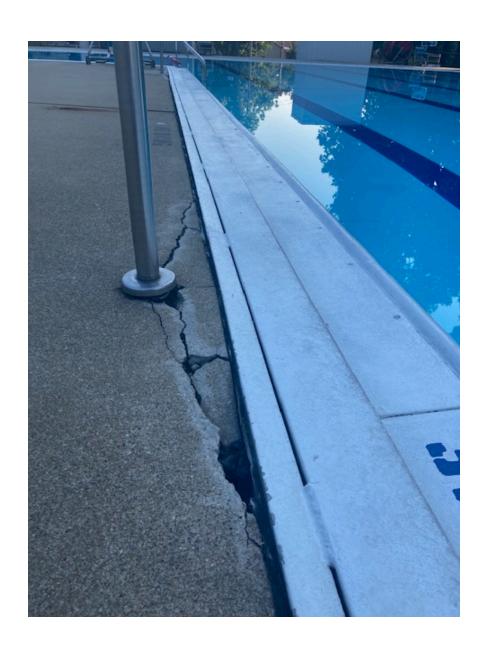

- ➤ 24 after-hour rentals
- ➤ Paid daily users as of 8/11/2021 4,383
- \triangleright Season Pass users as of $8/11/2021 2{,}132$
- ➤ End of July \$38,339 in expenses
- For the six (6) weeks including swim lesson staff, a conservative total hours worked each pay period; 510 staff hours X \$10.50 (average of hourly wage with under 18 aged staff) is \$5355/pay period.
- Without swim lessons, it's roughly \$3,560/pay period.
- ➤ 615 total hours that were not staffed or covered by Aquatics Manager, Laura Wilken.

U.S. DEPARTMENT OF THE TREASURY CORONAVIRUS LOCAL FISCAL RECOVERY FUND AWARD TERMS AND CONDITIONS

1. Use of Funds.

- a. Recipient understands and agrees that the funds disbursed under this award may only be used in compliance with section 603(c) of the Social Security Act (the Act), Treasury's regulations implementing that section, and guidance issued by Treasury regarding the foregoing.
- b. Recipient will determine prior to engaging in any project using this assistance that it has the institutional, managerial, and financial capability to ensure proper planning, management, and completion of such project.
- 2. <u>Period of Performance</u>. The period of performance for this award begins on the date hereof and ends on December 31, 2026. As set forth in Treasury's implementing regulations, Recipient may use award funds to cover eligible costs incurred during the period that begins on March 3, 2021, and ends on December 31, 2024.
- 3. <u>Reporting</u>. Recipient agrees to comply with any reporting obligations established by Treasury as they relate to this award.

4. Maintenance of and Access to Records

- a. Recipient shall maintain records and financial documents sufficient to evidence compliance with section 603(c) of the Act, Treasury's regulations implementing that section, and guidance issued by Treasury regarding the foregoing.
- b. The Treasury Office of Inspector General and the Government Accountability Office, or their authorized representatives, shall have the right of access to records (electronic and otherwise) of Recipient in order to conduct audits or other investigations.
- c. Records shall be maintained by Recipient for a period of five (5) years after all funds have been expended or returned to Treasury, whichever is later.
- 5. <u>Pre-award Costs.</u> Pre-award costs, as defined in 2 C.F.R. § 200.458, may not be paid with funding from this award.
- 6. <u>Administrative Costs.</u> Recipient may use funds provided under this award to cover both direct and indirect costs.
- 7. Cost Sharing. Cost sharing or matching funds are not required to be provided by Recipient.
- 8. <u>Conflicts of Interest</u>. Recipient understands and agrees it must maintain a conflict of interest policy consistent with 2 C.F.R. § 200.318(c) and that such conflict of interest policy is applicable to each activity funded under this award. Recipient and subrecipients must disclose in writing to Treasury or the pass-through entity, as appropriate, any potential conflict of interest affecting the awarded funds in accordance with 2 C.F.R. § 200.112.

- 9. Compliance with Applicable Law and Regulations.
 - a. Recipient agrees to comply with the requirements of section 603 of the Act, regulations adopted by Treasury pursuant to section 603(f) of the Act, and guidance issued by Treasury regarding the foregoing. Recipient also agrees to comply with all other applicable federal statutes, regulations, and executive orders, and Recipient shall provide for such compliance by other parties in any agreements it enters into with other parties relating to this award.
 - b. Federal regulations applicable to this award include, without limitation, the following:
 - Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, 2 C.F.R. Part 200, other than such provisions as Treasury may determine are inapplicable to this Award and subject to such exceptions as may be otherwise provided by Treasury. Subpart F – Audit Requirements of the Uniform Guidance, implementing the Single Audit Act, shall apply to this award.
 - ii. Universal Identifier and System for Award Management (SAM), 2 C.F.R. Part 25, pursuant to which the award term set forth in Appendix A to 2 C.F.R. Part 25 is hereby incorporated by reference.
 - iii. Reporting Subaward and Executive Compensation Information, 2 C.F.R. Part 170, pursuant to which the award term set forth in Appendix A to 2 C.F.R. Part 170 is hereby incorporated by reference.
 - iv. OMB Guidelines to Agencies on Governmentwide Debarment and Suspension (Nonprocurement), 2 C.F.R. Part 180, including the requirement to include a term or condition in all lower tier covered transactions (contracts and subcontracts described in 2 C.F.R. Part 180, subpart B) that the award is subject to 2 C.F.R. Part 180 and Treasury's implementing regulation at 31 C.F.R. Part 19.
 - v. Recipient Integrity and Performance Matters, pursuant to which the award term set forth in 2 C.F.R. Part 200, Appendix XII to Part 200 is hereby incorporated by reference.
 - vi. Governmentwide Requirements for Drug-Free Workplace, 31 C.F.R. Part 20.
 - vii. New Restrictions on Lobbying, 31 C.F.R. Part 21.
 - viii. Uniform Relocation Assistance and Real Property Acquisitions Act of 1970 (42 U.S.C. §§ 4601-4655) and implementing regulations.
 - ix. Generally applicable federal environmental laws and regulations.
 - c. Statutes and regulations prohibiting discrimination applicable to this award include, without limitation, the following:
 - i. Title VI of the Civil Rights Act of 1964 (42 U.S.C. §§ 2000d et seq.) and Treasury's implementing regulations at 31 C.F.R. Part 22, which prohibit discrimination on the basis of race, color, or national origin under programs or activities receiving federal financial assistance;

- ii. The Fair Housing Act, Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§ 3601 et seq.), which prohibits discrimination in housing on the basis of race, color, religion, national origin, sex, familial status, or disability;
- iii. Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794), which prohibits discrimination on the basis of disability under any program or activity receiving federal financial assistance;
- iv. The Age Discrimination Act of 1975, as amended (42 U.S.C. §§ 6101 et seq.), and Treasury's implementing regulations at 31 C.F.R. Part 23, which prohibit discrimination on the basis of age in programs or activities receiving federal financial assistance; and
- v. Title II of the Americans with Disabilities Act of 1990, as amended (42 U.S.C. §§ 12101 et seq.), which prohibits discrimination on the basis of disability under programs, activities, and services provided or made available by state and local governments or instrumentalities or agencies thereto.
- 10. Remedial Actions. In the event of Recipient's noncompliance with section 603 of the Act, other applicable laws, Treasury's implementing regulations, guidance, or any reporting or other program requirements, Treasury may impose additional conditions on the receipt of a subsequent tranche of future award funds, if any, or take other available remedies as set forth in 2 C.F.R. § 200.339. In the case of a violation of section 603(c) of the Act regarding the use of funds, previous payments shall be subject to recoupment as provided in section 603(e) of the Act.
- 11. <u>Hatch Act.</u> Recipient agrees to comply, as applicable, with requirements of the Hatch Act (5 U.S.C. §§ 1501-1508 and 7324-7328), which limit certain political activities of State or local government employees whose principal employment is in connection with an activity financed in whole or in part by this federal assistance.
- 12. <u>False Statements</u>. Recipient understands that making false statements or claims in connection with this award is a violation of federal law and may result in criminal, civil, or administrative sanctions, including fines, imprisonment, civil damages and penalties, debarment from participating in federal awards or contracts, and/or any other remedy available by law.
- 13. <u>Publications</u>. Any publications produced with funds from this award must display the following language: "This project [is being] [was] supported, in whole or in part, by federal award number [enter project FAIN] awarded to [name of Recipient] by the U.S. Department of the Treasury."

14. Debts Owed the Federal Government.

- a. Any funds paid to Recipient (1) in excess of the amount to which Recipient is finally determined to be authorized to retain under the terms of this award; (2) that are determined by the Treasury Office of Inspector General to have been misused; or (3) that are determined by Treasury to be subject to a repayment obligation pursuant to section 603(e) of the Act and have not been repaid by Recipient shall constitute a debt to the federal government.
- b. Any debts determined to be owed the federal government must be paid promptly by

Recipient. A debt is delinquent if it has not been paid by the date specified in Treasury's initial written demand for payment, unless other satisfactory arrangements have been made or if the Recipient knowingly or improperly retains funds that are a debt as defined in paragraph 14(a). Treasury will take any actions available to it to collect such a debt.

15. Disclaimer.

- a. The United States expressly disclaims any and all responsibility or liability to Recipient or third persons for the actions of Recipient or third persons resulting in death, bodily injury, property damages, or any other losses resulting in any way from the performance of this award or any other losses resulting in any way from the performance of this award or any contract, or subcontract under this award.
- b. The acceptance of this award by Recipient does not in any way establish an agency relationship between the United States and Recipient.

16. Protections for Whistleblowers.

- a. In accordance with 41 U.S.C. § 4712, Recipient may not discharge, demote, or otherwise discriminate against an employee in reprisal for disclosing to any of the list of persons or entities provided below, information that the employee reasonably believes is evidence of gross mismanagement of a federal contract or grant, a gross waste of federal funds, an abuse of authority relating to a federal contract or grant, a substantial and specific danger to public health or safety, or a violation of law, rule, or regulation related to a federal contract (including the competition for or negotiation of a contract) or grant.
- b. The list of persons and entities referenced in the paragraph above includes the following:
 - i. A member of Congress or a representative of a committee of Congress;
 - ii. An Inspector General:
 - iii. The Government Accountability Office;
 - iv. A Treasury employee responsible for contract or grant oversight or management;
 - v. An authorized official of the Department of Justice or other law enforcement agency;
 - vi. A court or grand jury; or
 - vii. A management official or other employee of Recipient, contractor, or subcontractor who has the responsibility to investigate, discover, or address misconduct.
- c. Recipient shall inform its employees in writing of the rights and remedies provided under this section, in the predominant native language of the workforce.
- 17. <u>Increasing Seat Belt Use in the United States</u>. Pursuant to Executive Order 13043, 62 FR 19217 (Apr. 18, 1997), Recipient should encourage its contractors to adopt and enforce on-the-job seat belt policies and programs for their employees when operating company-owned, rented or personally owned vehicles.
- 18. Reducing Text Messaging While Driving. Pursuant to Executive Order 13513, 74 FR 51225 (Oct. 6, 2009), Recipient should encourage its employees, subrecipients, and contractors to adopt and enforce policies that ban text messaging while driving, and Recipient should establish workplace safety policies to decrease accidents caused by distracted drivers.

ASSURANCES OF COMPLIANCE WITH CIVIL RIGHTS REQUIREMENTS

ASSURANCES OF COMPLIANCE WITH TITLE VI OF THE CIVIL RIGHTS ACT OF 1964

As a condition of receipt of federal financial assistance from the Department of the Treasury, the recipient named below (hereinafter referred to as the "Recipient") provides the assurances stated herein. The federal financial assistance may include federal grants, loans and contracts to provide assistance to the Recipient's beneficiaries, the use or rent of Federal land or property at below market value, Federal training, a loan of Federal personnel, subsidies, and other arrangements with the intention of providing assistance. Federal financial assistance does not encompass contracts of guarantee or insurance, regulated programs, licenses, procurement contracts by the Federal government at market value, or programs that provide direct benefits.

The assurances apply to all federal financial assistance from or funds made available through the Department of the Treasury, including any assistance that the Recipient may request in the future.

The Civil Rights Restoration Act of 1987 provides that the provisions of the assurances apply to all of the operations of the Recipient's program(s) and activity(ies), so long as any portion of the Recipient's program(s) or activity(ies) is federally assisted in the manner prescribed above.

- 1. Recipient ensures its current and future compliance with Title VI of the Civil Rights Act of 1964, as amended, which prohibits exclusion from participation, denial of the benefits of, or subjection to discrimination under programs and activities receiving federal financial assistance, of any person in the United States on the ground of race, color, or national origin (42 U.S.C. § 2000d *et seq.*), as implemented by the Department of the Treasury Title VI regulations at 31 CFR Part 22 and other pertinent executive orders such as Executive Order 13166, directives, circulars, policies, memoranda, and/or guidance documents.
- 2. Recipient acknowledges that Executive Order 13166, "Improving Access to Services for Persons with Limited English Proficiency," seeks to improve access to federally assisted programs and activities for individuals who, because of national origin, have Limited English proficiency (LEP). Recipient understands that denying a person access to its programs, services, and activities because of LEP is a form of national origin discrimination prohibited under Title VI of the Civil Rights Act of 1964 and the Department of the Treasury's implementing regulations. Accordingly, Recipient shall initiate reasonable steps, or comply with the Department of the Treasury's directives, to ensure that LEP persons have meaningful access to its programs, services, and activities. Recipient understands and agrees that meaningful access may entail providing language assistance services, including oral interpretation and written translation where necessary, to ensure effective communication in the Recipient's programs, services, and activities.
- 3. Recipient agrees to consider the need for language services for LEP persons when Recipient develops applicable budgets and conducts programs, services, and activities. As a resource, the Department of the Treasury has published its LEP guidance at 70 FR 6067. For more information on taking reasonable steps to provide meaningful access for LEP persons, please visit http://www.lep.gov.

4. Recipient acknowledges and agrees that compliance with the assurances constitutes a condition of continued receipt of federal financial assistance and is binding upon Recipient and Recipient's successors, transferees, and assignees for the period in which such assistance is provided.

5. Recipient acknowledges and agrees that it must require any sub-grantees, contractors, subcontractors, successors, transferees, and assignees to comply with assurances 1-4 above, and agrees to incorporate the following language in every contract or agreement subject to Title VI and its regulations between the Recipient and the Recipient's sub-grantees, contractors, subcontractors, successors, transferees, and assignees:

The sub-grantee, contractor, subcontractor, successor, transferee, and assignee shall comply with Title VI of the Civil Rights Act of 1964, which prohibits recipients of federal financial assistance from excluding from a program or activity, denying benefits of, or otherwise discriminating against a person on the basis of race, color, or national origin (42 U.S.C. § 2000d et seq.), as implemented by the Department of the Treasury's Title VI regulations, 31 CFR Part 22, which are herein incorporated by reference and made a part of this contract (or agreement). Title VI also includes protection to persons with "Limited English Proficiency" in any program or activity receiving federal financial assistance, 42 U.S.C. § 2000d et seq., as implemented by the Department of the Treasury's Title VI regulations, 31 CFR Part 22, and herein incorporated by reference and made a part of this contract or agreement.

- 6. Recipient understands and agrees that if any real property or structure is provided or improved with the aid of federal financial assistance by the Department of the Treasury, this assurance obligates the Recipient, or in the case of a subsequent transfer, the transferee, for the period during which the real property or structure is used for a purpose for which the federal financial assistance is extended or for another purpose involving the provision of similar services or benefits. If any personal property is provided, this assurance obligates the Recipient for the period during which it retains ownership or possession of the property.
- 7. Recipient shall cooperate in any enforcement or compliance review activities by the Department of the Treasury of the aforementioned obligations. Enforcement may include investigation, arbitration, mediation, litigation, and monitoring of any settlement agreements that may result from these actions. The Recipient shall comply with information requests, on-site compliance reviews and reporting requirements.
- 8. Recipient shall maintain a complaint log and inform the Department of the Treasury of any complaints of discrimination on the grounds of race, color, or national origin, and limited English proficiency covered by Title VI of the Civil Rights Act of 1964 and implementing regulations and provide, upon request, a list of all such reviews or proceedings based on the complaint, pending or completed, including outcome. Recipient also must inform the Department of the Treasury if Recipient has received no complaints under Title VI.
- 9. Recipient must provide documentation of an administrative agency's or court's findings of non-compliance of Title VI and efforts to address the non-compliance, including any voluntary compliance or other

agreements between the Recipient and the administrative agency that made the finding. If the Recipient settles a case or matter alleging such discrimination, the Recipient must provide documentation of the settlement. If Recipient has not been the subject of any court or administrative agency finding of discrimination, please so state.

10. If the Recipient makes sub-awards to other agencies or other entities, the Recipient is responsible for ensuring that sub-recipients also comply with Title VI and other applicable authorities covered in this document State agencies that make sub-awards must have in place standard grant assurances and review procedures to demonstrate that that they are effectively monitoring the civil rights compliance of sub-recipients.

The United States of America has the right to seek judicial enforcement of the terms of this assurances document and nothing in this document alters or limits the federal enforcement measures that the United States may take in order to address violations of this document or applicable federal law.

Under penalty of perjury, the undersigned official(s) certifies that official(s) has read and understood the Recipient's obligations as herein described, that any information submitted in conjunction with this assurances document is accurate and complete, and that the Recipient is in compliance with the aforementioned nondiscrimination requirements.

City of Highland 1115 Broadway, PO Box 218 Highland, IL 62249

To: Honorable Mayor Hemann and City Council

From: Chris Conrad- City Manager

Date: July 29, 2021

Re: American Rescue Plan Act Funds

We are recommending the City Council authorize city staff to apply for funds allocated to the City of Highland as a non-home rule community under the Federal American Rescue Plan Act.

Discussion: The Federal government in March of 2021 passed the American Rescue Plan Act which allocated funding to local municipalities for specifically authorized projects and programs.

Guidance on the authorized uses of funds under this Act have been slow to come out, but final (or near final) guidance was received by the City of Highland on July 16th as issued from the Department of Treasury, who is administering the program. Expenses allowed under the Act are specific to containing and mitigating the spread of COVID; providing mental health services; payroll and benefits of public safety employees (in certain circumstances); direct economic aid; replacing lost revenue; providing premium pay to essential workers; investments in water/sewer infrastructure; and investing in broadband infrastructure.

As a non-home rule community, we are served by other agencies for several of the more directed and specific allowable programs for assistance, and those agencies are also eligible to request funds to provide many of the direct assistance programs. As such we are proposing to use funds allocated to the City of Highland to make investments in infrastructure projects that will benefit all our citizens. We are examining several potential projects that staff feel would be beneficial to the community as a whole including but not limited to: completing construction in HCS for the last 3

neighborhoods (expansion of broadband); specific emergency response equipment in the EMS department (capital equipment expense to meet operational needs during the pandemic); cybersecurity infrastructure to protect our networked water distribution and sanitary sewer collection systems; and water and sanitary sewer main replacement and repair programs. Obviously we are not exclusively limited to these suggestions, but these do address needs in our community that would benefit all citizens rather than specific individuals who are or could be served by other government entities or non-profit services (townships, social service agencies, etc.)

SUBJECT:

Re-Appointments to Combined Planning & Zoning Board and

Appointment of New Chairman

DATE:

August 13, 2021

The current terms of Mr. Brad Korte and Mr. Bob Vance of the Combined Planning and Zoning Board will expire on August 31. Each of them has proven to be an asset on the board. Mr. Vance and Mr. Korte have kindly agreed to serve another term but Mr. Korte has asked to step down as Chairman. Anthony Walker has agreed to take on the position of Chairman.

I am therefore asking that you approve the appointment of Anthony Walker as Chairman and re-appointments of Brad Korte and Bob Vance to the Combined Planning and Zoning Board each for an additional five-year term which will expire August 31, 2026.

If you have any questions regarding these reappointments, please contact me prior to the council meeting.

RECOMMENDATION

I recommend that you request council approval to advertise for the above referenced NOML. The estimated construction cost of this project is \$160,000. The proposed bidding documents are attached.

DISCUSSION

We recently demolished the house and garage located at the northeast corner of Broadway and Zschokke streets with the intention of constructing a new public parking lot. The design provides 11 spaces and 1 handicap space. The surface will be concrete except for the parking spaces. The parking spaces will be porous brick pavers used as part of the underground storm water detention to maximize the layout and conform to our storm water codes.

FISCAL IMPACT

The project is shared between Street and Alley and Business Tax funds.

CONTRACTOR CERTIFICATIONS

The certifications hereinafter made by the bidder are each a material representation of fact upon which reliance is placed should the Department enter into the contract with the bidder.

- 1. **Debt Delinquency.** The bidder or contractor or subcontractor, respectively, certifies that it is not delinquent in the payment of any tax administered by the Department of Revenue unless the individual or other entity is contesting, in accordance with the procedure established by the appropriate Revenue Act, its liability for the tax or the amount of the tax. Making a false statement voids the contract and allows the Department to recover all amounts paid to the individual or entity under the contract in a civil action.
- 2. **Bid-Rigging or Bid Rotating**. The bidder or contractor or subcontractor, respectively, certifies that it is not barred from contracting with the Department by reason of a violation of either 720 ILCS 5/33E-3 or 720 ILCS 5/33E-4.

A violation of section 33E-3 would be represented by a conviction of the crime of bid-rigging which, in addition to Class 3 felony sentencing, provides that any person convicted of this offense, or any similar offense of any state or the United States which contains the same elements as this offense shall be barred for 5 years from the date of conviction from contracting with any unit of State or local government. No corporation shall be barred from contracting with any unit of State or local government as a result of a conviction under this Section of any employee or agent of such corporation if the employee so convicted is no longer employed by the corporation: (1) it has been finally adjudicated not guilty or (2) if it demonstrates to the governmental entity with which it seeks to contract that entity finds that the commission of the offense was neither authorized, requested, commanded, nor performed by a director, officer or a high managerial agent on behalf of the corporation.

A violation of Section 33E-4 would be represented by a conviction of the crime of bid-rotating which, in addition to Class 2 felony sentencing, provides that any person convicted of this offense or any similar offense of any state or the United States which contains the same elements as this offense shall be permanently barred from contracting with any unit of State of Local government. No corporation shall be barred from contracting with any unit of State or Local government as a result of a conviction under this Section of any employee or agent of such corporation if the employee so convicted is no longer employed by the corporation and: (1) it has been finally adjudicated not guilty or (2) if it demonstrates to the governmental entity with which it seeks to contract and that entity finds that the commission of the offense was neither authorized, requested, commanded, nor performed by a director, officer or a high managerial agent on behalf of the corporation.

- 3. **Bribery.** The bidder or contractor or subcontractor, respectively, certifies that, it has not been convicted of bribery or attempting to bribe an officer or employee of the State of Illinois or any unit of local government, nor has the firm made an admission of guilt of such conduct which is a matter or record, nor has an official, agent, or employee of the firm committed bribery or attempted bribery on behalf of the firm and pursuant to the direction or authorization of a responsible official of the firm.
- 4. **Interim Suspension or Suspension.** The bidder or contractor or subcontractor, respectively, certifies that it is not currently under a suspension as defined in Subpart I of Title 44 Subtitle A Chapter III Part 6 of the Illinois Administrative code. Furthermore, if suspended prior to completion of this work, the contract or contracts executed for the completion of this work may be canceled.

RE: Certificate of Non-Delinquency of Tax

As a result of a recent amendment to the Illinois Municipal Code (Adding Section 11-42.1-1), the City of Highland is prohibited from entering into a contract with any individual or anyone else that is delinquent in the payment of any tax administered by the Illinois Department of Revenue, unless that party is contesting the tax in accordance with procedure established by the particular taxing act.

Further, before awarding a contract, the City of Highland is required to obtain a statement under oath from the party with whom it's contracting that no such taxes are delinquent. If a false statement is made, it voids the contract and allows the City to recover all amounts paid to the individual in a civil action.

CERTIFICATE OF NON-DELINQUENCY OF TAX

As required by Section 11-42.1-1 of the Illinois Municipal Code

The undersigned hereby and herewith certifies under oath that he/she/it is not delinquent in the payment of any tax administered by the Illinois Department of Revenue, or if delinquent, is currently contesting the liability or the amount of such tax in accordance with the procedures established by the appropriate Taxing Act.

A person is not considered delinquent in the payment of a tax for the purposes of this certification if such person has entered into an Agreement with the Illinois Department of Revenue for the payment of all taxes claimed delinquent, and is in compliance with that Agreement. If such is the case with the undersigned, the undersigned certifies that he/she/it has made such an Agreement and is in compliance therewith.

RE: Certificate of Compliance with the Substance Abuse Prevention on Public Works Projects

Act

"The Substance Abuse Prevention on Public Works Projects Act" (Pub. L. 95-0635, codified as 820 ILCS 265/1 *et seq.*) became effective in the State of Illinois on January 1, 2008.

Due to the above-stated law, all bids from contractors and subcontractors for work on a public works project of the City of Highland shall be accompanied by a Certification of Compliance indicating, *first*, whether the bidder has signed collective bargaining agreements that are in effect for all of its employees and that deal with the subject matter of the above-stated Act; and, if not, *second*, that the bidder's written substance abuse program is attached to the Certification of Compliance and that the bidder's written substance abuse program meets or exceeds the requirements of "The Substance Abuse Prevention on Public Works Projects Act" (Pub. L. 95-0635, codified as 820 ILCS 265/1 *et seq.*).

SPECIAL PROVISIONS

BROADWAY AND ZSCHOKKE STREET PARKING LOT HIGHLAND, ILLINOIS

The following Special Provisions supplement the Illinois Department of Transportation (IDOT) "Standard Specifications for Road and Bridge Construction", Adopted April 1, 2016 and the "Manual of Test Procedures of Materials" in effect on the date of the invitation for bids, and the Supplemental Specifications and Recurring Special Provisions indicated on the Check Sheet included herein which apply to and govern the construction of PW-06-21, Broadway and Zschokke Street Parking Lot; Highland, Illinois, and in case of conflict with any part, or parts, of said Specifications, the said Special Provisions shall take precedence and shall govern.

DESCRIPTION OF WORK

The proposed parking lot project is located at the northeast quadrant of the intersection of Broadway with Zschokke Street.

The work on this project consists of constructing a new concrete parking lot. This work also includes earth excavation concrete sidewalk, porous brick pavers, aggregate base course, paint pavement markings, curb, storm sewer, sod, and all incidental and collateral work necessary to complete the work in the above-described Section according to the plans, specifications and special provisions.

SAFETY AND HEALTH

The Contractor shall be responsible for enforcing all O.S.H.A. Safety and Health Standards pertaining to the construction industry as established by the United States Department of Labor, Occupational Safety and Health Administration.

SAFETY AND PROTECTION

- A. CONTRACTOR shall be responsible for initiating, maintaining and supervising all safety and precautions and programs in connection with the Work. CONTRACTOR shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury or loss to:
 - 1. All employees on the work and other persons and organizations who may be affected thereby;
 - 2. All the Work and materials and equipment to be incorporated therein, whether in storage on or off the site; and
 - 3. Other property at the site adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, utilities and underground facilities not designated for removal, relocation or replacement in the course of construction.

CONTRACTOR shall comply with all applicable laws and regulations of any public body having jurisdiction for the safety of persons and property or to protect them from damage, injury or loss; and shall erect and maintain all necessary safeguards for such safety and protection. CONTRACTOR shall notify owners of adjacent property and of underground facilities and utility owners when prosecution of the Work may affect them and shall cooperate with them in the protection, removal, relocation and replacement of their property. All damage, injury or loss to any property referred to in paragraph 2. or 3. caused, directly or indirectly, in whole or in part, by CONTRACTOR, any Subcontractor, Supplier or any other person or organization directly or indirectly employed by any of them to perform or furnish any of the Work or anyone for whose acts either of them may be liable, shall be remedied by CONTRACTOR (except damage or loss attributable to the fault of Drawings or Specifications or to the acts or omissions of OWNER or ENGINEER or anyone employed by either of them or anyone for acts either of them may be liable, and not attributable, directly or indirectly, in whole or in part, to the fault or negligence of CONTRACTOR). CONTRACTOR's duties and responsibilities for the safety and protection of the Work shall continue until all the Work is completed and ENGINEER has issued a notice to OWNER and CONTRACTOR that the Work is acceptable.

- B. CONTRACTOR shall designate a responsible representative at the site whose duty shall be the prevention of accidents. This person shall be CONTRACTOR's superintendent, unless otherwise designated in writing by CONTRACTOR to OWNER.
- C. In EMERGENCIES affecting the safety or protection of persons or the Work or property at the site or adjacent thereto, CONTRACTOR, without special instructions or authorization from ENGINEER or OWNER, is obligated to act to prevent threatened damage, injury or loss. CONTRACTOR shall give ENGINEER prompt, written notice if CONTRACTOR believes that any significant changes in the Work or variations from the Contract Documents have been caused thereby. If ENGINEER determines that a change in the Contract Documents is required because of the action taken in response to an emergency, a Work Directive Change or Change Order will be issued to document the consequences of the changes or variations.

CONSTRUCTION CONTRACTS

The successful bidder, as a condition of this contract, must submit evidence that he has conducted a pre-job conference with his Subcontractors and their employees, or the employees' duly recognized representatives and union officials, to determine employee jurisdiction, job assignment and work schedules. This requirement is to promote industrial harmony and to eliminate work stoppages and jurisdictional disputes. The pre-job conference shall be conducted at least 14 calendar days prior to the commencement of any construction.

MEASUREMENT AND PAYMENT

Delete all Articles regarding "Method of Measurement" and "Basis of Payment" in the "Standard Specifications for Road and Bridge Construction".

SHOP DRAWINGS

The Contractor shall submit shop drawings of the following items according to Articles 1042.03(b) and 105.04 of the "Standard Specifications for Road and Bridge Construction":

Porous Brick Pavers

Submit shop drawings for review and approval to:

Mr. Joe Gillespie, Director of Public Works City of Highland 1113 Broadway Highland, Illinois 62249

A maximum of two reviews by the Engineer will be provided for each shop drawing submittal. If any additional reviews are required, the Contractor shall pay the Engineer for all costs incurred at an hourly rate of \$175. Payment for additional reviews shall be made directly to the City.

CONSTRUCTION STAKING

This work shall consist of construction staking according to Article 105.09 of the "Standard Specifications for Road and Bridge Construction", except as modified herein.

The Local Agency will provide adequate reference points to the centerline of survey and bench marks as shown on the plans and listed herein. All additional control points set by the Local Agency will be identified in the field to the Contractor and all field notes will be kept in the office of the Resident Engineer.

The Contractor shall provide labor, equipment and material to set all additional stakes for this project, which are needed to establish offset stakes, reference points, and all other horizontal or vertical controls, including supplementary bench marks, necessary to secure a correct layout for the roadway portion of the work.

The Contractor shall be responsible for having the finished work conform to the lines, grades, elevations and dimensions called for on the plans. Inspection or checking of the Contractor's layout by the Engineer and the acceptance of all or any part of it shall not relieve the Contractor of his/her responsibility to secure the proper dimensions, grades and elevations of the several parts of the work. The Contractor shall exercise care in the preservation of stakes and benchmarks and shall have them reset at his/her expense when any are disturbed.

Responsibility of the Local Agency

- A bench mark will be established along the project outside of the construction limits lines.
- The existing property line will be staked at intervals not to exceed 50 feet.

- The edge of pavement, and back of curb stakes will be set at intervals not to exceed 50 feet, as well as essential grade breaks and radius points. Depth of cut and/or fill heights will be referenced to the finished pavement grade.
- The Local Agency will accept responsibility for the accuracy of the initial control points and stakes as provided herein. The Contractor shall assume full responsibility for all dimensions and measurements taken or derived by the Contractor from control points or stakes set by the Local Agency. It is not the responsibility of the Local Agency, except as provided herein, to check the correctness of the Contractor's stakes.
- The Local Agency will set all stakes that are the responsibility of the Local Agency one time only. If any additional staking or restaking is required, the Contractor shall pay the Local Agency for all costs incurred at an hourly rate of \$150. Payment for additional staking shall be made directly to the City.

Responsibility of the Contractor

- The Contractor shall provide written requests for all staking to be provided by the Local Agency. A minimum 48-hour advance notice will be required prior to the commencement of all requested staking activities.
- The Contractor shall establish from the given survey points and benchmarks, all additional control points necessary to construct the individual project elements. It is the Contractor's responsibility to tie in control points in order to preserve them during construction operations.
- The Contractor shall provide all additional staking required to assure completion of the work in substantial conformance with the plans.
- The Contractor shall be responsible for re-establishing all stakes removed or disturbed by construction operations.
- All work shall be according to normally accepted surveying practices. Field notes shall be kept in standard survey field notebooks and those books shall become the property of the Local Agency at the completion of the project. All notes shall be neat, orderly, and in accepted form.

This work will not be measured separately for payment. The cost incurred by the Contractor in complying with this requirement shall be considered as included in the contract unit prices bid for the various items of work.

GENERAL PREVAILING WAGE RATES

According to "An Act regulating wages of laborers, mechanics and other workmen employed in any public works by the State, County, City or any public body or any political subdivision, or by anyone under contract for public works," approved November 8, 1961, the Department of Labor has ascertained the general prevailing rate of per diem wages for various labor classifications. The general prevailing wage rates for these Labor classifications and the general prevailing rate for legal holiday and overtime work are on file in the office of the Department of Labor at Springfield, Illinois, and the main office of the Madison County Highway Department. Not less than these prevailing wage rates shall be paid for work performed under this contract.

The aforementioned Act of November 8, 1961, provides that any Contractor or Subcontractor who shall neglect to keep, or cause to be kept, an accurate record of names, occupations and actual wages paid to each laborer, workman and mechanic employed by him in connection with the contract, or who shall refuse to allow access to the record at any reasonable hour to any representative of the City, County, or to the Director of Labor and his deputies and agents, shall be guilty of misdemeanor and shall be punished by a fine not exceeding \$500.00 or by imprisonment not exceeding 6 months, or by both fine and imprisonment, in the discretion of the court.

No extra compensation will be allowed to the Contractor for any delays caused by any hearing on any objection to the prevailing wage rates hereinafter specified, as provided in the aforementioned Act of November 8, 1961, or by appeal to the Circuit or Superior Court or to the Supreme Court of any decision of the Department of Labor or the County, resulting from the hearings, nor for any delay caused by compliance with the other provisions of the Act.

Prospective bidders should familiarize themselves with all of the provisions of the Act and, in addition, should make an investigation of the existing labor conditions, and any negotiated labor agreements, which may exist or are contemplated at this time. Nothing in the Act shall be construed to prohibit the payment of more than the prevailing wage scale shown above. The bidder should take all of these facts into consideration in the preparation of his proposal.

SEQUENCE OF CONSTRUCTION OPERATIONS

The Contractor shall conduct his work within the approved Sequence of Construction Operations at all times. The work shall be done in a manner that will minimize the inconvenience to local traffic.

The Contractor shall conduct his operations to insure local access to all properties throughout the project limits according to Article 107.09 and Section 701 and 703 of the "Standard Specifications for Road and Bridge Construction".

Unless authorized by the Engineer, the Contractor shall complete the construction in the following suggested sequence:

- 1. Install required traffic control.
- 2. Complete all removals and earthwork
- 3. Construct all concrete gutter, PCC sidewalk, PCC pavement, and driveway pavement.
- 4. Final grade, and sod earth surfaces.

The Contractor may submit an alternate sequence of operations and traffic control plan that would expedite construction and still maintain traffic control. Any and all changes to these plans must be submitted in writing and approved in advance by the Engineer. No additional compensation will be allowed if alternate plans are approved.

TRAFFIC CONTROL PLAN

Traffic control shall be according to the applicable Sections of the "Standard Specifications for Road and Bridge Construction", the applicable guidelines contained in the "Illinois Manual on Uniform Traffic Control Devices for Streets and Highways", these special provisions, and all special details and Highway Standards contained herein and on the plans.

At the preconstruction meeting, the Contractor shall furnish the name of the individual in his/her direct employ who is responsible for the installation and maintenance of the traffic control for this project. If the actual installation and maintenance are to be accomplished by the Subcontractor, consent shall be requested of the Engineer at the time of the preconstruction meeting according to Article 108.01 of the "Standard Specifications for Road and Bridge Construction". This shall not relieve the Contractor of the foregoing requirement for a responsible individual in his direct employ. The City will provide the Contractor the name of its representative who will be responsible for the observation of the Traffic Control Plan.

The Contractor shall furnish, erect, maintain and remove all warning signs, flags, barricades and lights according to Article 107.14 and Sections 701 and 703 of the "Standard Specifications for Road and Bridge Construction", the latest edition of the "Manual of Uniform Traffic Control Devices for Construction and Maintenance Operations", the Special Provisions, and/or as directed by the Engineer.

Articles 107.09 and 107.14 and Sections 701 and 703 of the "Standard Specifications for Road and Bridge Construction" and the following Highway Standards relating to traffic control apply to this contract:

701006 701201 701301 701801 701901

All streets and alleys shall be kept open to traffic at all times. Short-term, daytime lane closures will be allowed on Zschokke Street when workers are present according to Highway Standard 701201.

In addition, the following special provision(s) will also govern traffic control for this project:

SEQUENCE OF CONSTRUCTION OPERATIONS
TRAFFIC CONTROL AND PROTECTION, (SPECIAL)
WORK ZONE TRAFFIC CONTROL
CONSTRUCTION AND MAINTENANCE SIGN SUPPORTS

TOPSOIL FURNISH AND PLACE, 4"

This work shall consist of furnishing and placing topsoil on all areas to be sodded according to Section 211 of the "Standard Specifications for Road and Bridge Construction".

Material shall meet the requirements of Article 1081.05 (a) of the "Standard Specifications for Road and Bridge Construction" except that topsoil shall have an organic content between three and ten percent as determined by the "loss on ignition" test method described in AASHTO T 267. The Contractor shall provide a certificate from an independent laboratory certifying compliance with all applicable material specifications.

The minimum thickness of topsoil shall be 4 in.

The cost for this work shall be included in the Lump Sum bid price.

SODDING

This work shall consist of preparing the ground surface, and furnishing, transporting and placing sod, fertilizer nutrients, and other materials required in the sodding operations according to Section 252 of the "Standard Specifications for Road and Bridge Construction".

Fertilizer nutrients are required but will not be measured separately for payment. Agricultural ground limestone will not be required.

Restoration of ground surfaces with sod is required immediately following the completion of construction on all areas disturbed by construction activities. The time period from completion of construction to the completion of the sodding shall not exceed 7 calendar days.

The cost for this work shall be included in the Lump Sum bid price.

TIE BARS & REINFORCEMENT BARS

This work shall consist of furnishing and placing tie bars and reinforcement bars in concrete pavement and concrete curb and gutter according to Sections 420 and 606 of the "Standard Specifications for Road and Bridge Construction", except as modified herein:

All tie bars and reinforcement bars used in Portland cement concrete pavement and concrete curb and gutter shall be epoxy coated.

The cost for this work shall be included in the Lump Sum bid price.

EXPANSION JOINTS

This work shall consist of constructing expansion joints in concrete driveway pavement and sidewalk according to Articles 423.07 and 424.07 of the "Standard Specifications for Road and Bridge Construction" and Highway Standard 424001 except as modified herein:

Expansion joints required under Article 423.07 and 424.07(b) shall be preformed fiber joint filler according to Article 1051.04 of the "Standard Specifications for Road and Bridge Construction" and shall have a perforated tear off wood or plastic strip to provide a uniform 1/2 in. reservoir/channel for the required sealant.

Expansion joints required under Article 424.07(a) shall consist of preformed flexible foam expansion joint filler according to Article 1051.09 of the "Standard Specifications for Road and Bridge Construction" and shall have a pre-scored removable strip to provide a uniform 1/2 in. reservoir/channel for the required sealant.

Expansion joint filler and backer rod materials shall be a non-impregnated type that will not bond with the sealant.

Expansion joints shall be sealed with self-leveling (pour grade), or nonsag (gun) grade urethane sealant. The color of the sealant shall be limestone, unless otherwise approved by the Engineer.

The cost for this work shall be included in the Lump Sum bid price.

PORTLAND CEMENT CONCRETE PAVEMENT, 6 ½ INCH

This work shall consist of constructing a Portland cement concrete pavement according to Section 420 of the "Standard Specifications for Road and Bridge Construction," except as modified herein.

The depth of the Portland cement concrete pavement shall be 6 ½ inches.

All references to Sections or Articles in this specification shall be understood to mean a specified Section or Article of the "Standard Specifications for Road and Bridge Construction".

Article 420.03(b). A formless paver will not be required.

Article 420.03(c). A mechanical concrete spreader will not be required.

Article 420.03(d). A finishing machine will not be required.

Article 420.03(e). A mechanical longitudinal float will not be required.

Article 420.03(f). A concrete finisher float will not be required.

Article 420.03(h). Power driven finishing machines, including vibratory screeds and truss-type vibratory screeds, which are specifically designed for finishing concrete pavement and meet the approval of the Engineer, will be allowed.

Hand held fogging equipment capable of spraying a uniform application of membrane curing compound and maintaining constant pressure meeting the approval of the Engineer, will be allowed.

Article 420.09(a) (1). Revise this Article as follows:

After the concrete has been struck off, it shall be given the required consolidation by the vibratory method or by other means which will obtain a uniform and satisfactory density throughout the pavement. If the vibratory method is used, the vibrating impulses shall be applied directly to the concrete through an apparatus especially designed for this purpose in a manner that the vibratory impulses are transmitted through the concrete mass with sufficient intensity to

consolidate it throughout its entire depth and width. Not more than one pass of the vibratory equipment shall be made through the pavement.

Article 420.09(a) (3). Revise the first sentence of this Article to read as follows:

Vibrating screed. An approved vibrating screed may be used to strike off, consolidate and finish pavement.

Article 420.09(b). Longitudinal Float Hand Method will be permitted if approved by the Engineer.

Article 420.09(e). A broomed final finish shall be used throughout the project unless directed otherwise by the Engineer.

Article 420.20. Revise the first paragraph of this Article to read as follows:

The cost for this work shall be included in the Lump Sum bid price.

CONSTRUCTION AND MAINTENANCE SIGN SUPPORTS

This work shall be done according to Section 1106 of the "Standard Specifications for Road and Bridge Construction" and Highway Standard 701901 except as modified herein.

All construction signs mounted on permanent support for use in temporary traffic control having an area of 10 square feet or more shall be mounted on two 4 in. x 4 in. or two 4 in. x 6 in. wood posts.

Type A metal posts (two for each sign) conforming to Article 1006.29 of the "Standard Specifications for Road and Bridge Construction" may be used in lieu of wood posts. Type A metal posts used for these signs may be unfinished.

The cost for this work shall be included in the Lump Sum bid price.

CONCRETE PAVER PAVEMENT

This work shall consist of furnishing and installing permeable interlocking concrete paver pavement in accordance with the applicable portions of the Standard Specifications, the details in the plans, as directed by the Engineer, and as specified herein.

Contractor and crew must have at least five years' experience in installing concrete pavers on projects of similar size. The Contractor shall submit descriptions and references for five successful concrete paver installation projects completed within the past five years. The submittals shall include project names, client names, and locations.

Concrete Pavers (Note 1)

Note 1. Concrete paver dimension, color, and pattern of pavers shall be as noted on plans. All pavers shall be suitable for use as permeable pavement.

Pigment in concrete pavers shall conform to ASTM C 979. ACI Report No. 212.3R provides guidance on the use of pigments.

Bedding material shall be in accordance with the specification for Bedding Stone.

Paver Joint Material shall be in accordance with all applicable portions of section 1004.05 except that the gradation shall be CA-20 and the material shall be washed with less than 2% passing the No. 200 Sieve. For joints narrower than ¼" aggregate meeting ASTM No. 89 or No. 9 gradations may be used upon approval of the Engineer. Submit minimum 1 pound bag of each proposed Paver Joint Material color for approval.

Obtain each type of concrete paver, joint material, and setting bed material from one source with resources to provide materials and products of consistent quality in appearance and physical properties.

Contractor must submit to the Engineer a minimum of 3 representative full-size samples of each concrete paver type, thickness, color and finish for approval. Submittal shall indicate the full range of concrete pavers in the specified color. Accepted samples become the standard for acceptance for the product produced. Manufacturer's catalog product data, installation instructions and material safety data sheets must also be submitted for approval.

Prior to the installation, a 1 sq. yd full-scale mockup using actual job specified edge restraint, materials, brick dimensions, colors, methods, and workmanship shall be provided by the Contractor. The actual vibrating equipment and vibrating rate to be used on the job shall be used on the mockup. The accepted mockup will be the standard by which the remaining work will be evaluated for technical and aesthetic merit.

If approved by the Engineer, the mockup area may remain or be reused as part of the installed work at the end of the project provided that it remains undisturbed, remains in good condition, and meets all of the conditions of the specifications.

Concrete Pavers shall be delivered in manufacturer's original, unopened, undamaged container packaging with identification tags intact on each paver bundle.

Materials shall be stored in a protected area such that they are kept free from damage, mud, dirt, and other foreign materials.

Equipment shall conform to the following Articles of Division 1100 – Equipment of the Standard Specifications.

- (a) Masonry Saw (Note 1)
- (b) Vibrator/Compactor (Note 2)

Note 1. The masonry saw shall be a wet or dry saw capable of clean and accurate cuts.

Note 2. The vibratory/compactor shall be either a place compactor with a high frequency, low amplitude plate or a rubber-roller mechanical vibrator.

Construction Requirements:

General:

- A. Pre-Installation Meeting: Conduct a pre-installation meeting prior to beginning any excavation or other work in the permeable concrete paver pavement area to verify all products, application procedures, site conditions, and warranty terms are approved and ready for installation. Meeting attendees shall include the Engineer, Owner, Contractor, any subcontractors performing work associated with the permeable concrete paver pavement system, and the concrete paver manufacturer.
- B. Excavation, installation of pipe underdrains, filter fabric (where required) reservoir stone, base stone, bedding stone, and concrete curb (required for edge restraint) shall be complete and approved by the Engineer prior to beginning concrete paver pavement installation
- C. All concrete pavers shall be installed per the respective manufacturer's recommendations.
- D. No concrete paver setting work shall be performed when the underlayment has free moisture, ice, or snow, or when the underlayment is frozen.
- E. Bedding material shall not be installed when the ambient temperature is below 40°F, at 40°F and falling, or at any time when the setting bed stiffens before concrete pavers are installed.

Paver Cutting:

- A. Cut concrete pavers shall be placed in areas shown on the details in the plans. "L" shaped concrete pavers shall be avoided where possible.
- B. Concrete pavers shall be cut radially when joints between concrete pavers on curves exceed 1/8".
- C. Radial cut concrete pavers shall be created by trimming both sides of concrete paver.
- D. Cut concrete pavers shall be no smaller than one third of a whole concrete paver.

Paver Installation:

A. Place concrete pavers by hand in straight courses with hand tight joints and uniform top surface. Good alignment shall be kept and patterns shall be as

- shown on plans and details. Whole concrete pavers shall be laid first, starting from an exact edge or from the centerline of the pavement, followed by cut concrete pavers.
- B. Protect the alignment and elevations of the newly laid concrete pavers with plywood sheeting at all times. Advance the plywood as work progresses and maintain plywood protection over all areas subject to movement of materials, workers, and equipment.
- C. Concrete pavers shall be cut only when necessary and used in courses as indicated on plans and details.
- D. Joints in the underlayment, if any, shall not reflect up through the setting bed and concrete paver system.
- E. Compact to set pavement into bedding course with one pass of the vibrator/compactor. Vibration/compaction shall stop within 6' ft. of any unrestrained edge
- F. When all concrete pavers are installed, apply joint material to paving and sweep into all joints until joints are completely filled. Sweep clean the entire surface and remove all excess material. Do not allow traffic on concrete pavers prior to joints being filled.
- G. Compact and seat the concrete pavers into the bedding material using the vibrator/compactor. Make at least two passes in the perpendicular directions with the vibrator/compactor.
- H. Additional joint material shall be applied to the opening and joints to fill them completely and remove any excess material by sweeping.
- I. Protect newly laid concrete pavers, slabs and curbs with plywood panels on which workers stand. Advance protective panels as work progresses but maintain protection in areas subject to continued movement of materials and equipment to avoid creating depressions or disrupting alignment of installed concrete pavers, slabs or curbs. All concrete pavers within 6' ft. of the lying face shall be left fully compacted and filled with joint material at the completion of each workday.
- J. Repeat the joint-filling process 30 days later or as directed by the Engineer.
- K. Replace cracked or chipped concrete pavers at no additional cost to the Department.
- L. The final surface tolerance of compacted concrete pavers shall not deviate more than ±3/8" in. under a 10' ft. straight edge.

- M. Lippage shall be no greater than 1/8" in. difference in high between adjacent concrete pavers.
- N. The surface elevation of concrete pavers shall be 1/8" in. above adjacent drainage inlets and adjacent concrete pavements.

Surface infiltration rate shall be verified using test method ASTM C1781 at four locations to be determined by the Engineer. Testing shall be included in the cost of this work, and no additional compensation will be provided.

The permeable concrete paver pavement system shall be kept clean and free of clogging debris, sediment, and soils from the Contractor's operations and all upstream and adjacent debris and sediment. Pavement contaminated by debris, sediment, or soil shall be cleaned to the satisfaction of the Engineer. If the pavement or underlying aggregate materials cannot be unclogged, it shall be removed and replaced to the satisfaction of the Engineer. No additional compensation will be provided for protecting, cleaning, or replacing the permeable concrete paver pavement system.

Six months after the completion of the work the Contractor shall provide the following as required: filling paver joints with joint material, replacing broken or cracked concrete pavers, and releveling settled concrete pavers to initial elevation.

The cost of this work shall be included in the Lump Sum bid price.

BASE STONE CA 7

This work shall consist of constructing open graded aggregate base for porous concrete paver pavement in accordance with the plans and applicable portions of section 351 of the Standard Specifications except as modified herein.

Modify (a) Coarse Aggregate to specify CA 7.

Coarse aggregate shall be washed with less than 2% passing the No. 200 Sieve. Delete 351.04

Modify the first sentence in the second paragraph of 351.05 to: Moisten, spread, and compact the aggregate base material on the prepared reservoir stone layer in one lift 4" in. thick when compacted.

Moisture requirements shall be in accordance with Type B.

Material shall be stockpiled such that material is free from standing water, uniformly graded, free from organic material, sediment, or debris.

Care shall be taken not to crush the aggregate during compaction.

The work shall be protected from sediment deposition and damage. Aggregate base materials contaminated with sediment shall be removed and replaced with clean material and compacted in a manner approved by the Engineer.

Surface tolerance of the compacted aggregate base shall not deviate by more than ±1" in. over a 10'-foot straight edge.

The cost of this work shall be included in the Lump Sum bid price.

RESERVOIR STONE CA 1

This work shall consist of constructing open graded reservoir stone layer for permeable concrete paver pavement in accordance with the plans and applicable portions of Section 351 of the Standard Specifications except as modified herein.

Modify (a) Coarse Aggregate to specify CA 1

Coarse aggregate shall be washed with less than 2% passing the No. 200 Sieve.

Delete 351.04

Subgrade excavation of the permeable concrete paver pavement area shall be performed from the sides and outside of the footprint of the infiltration area where possible. If it is necessary to work in the infiltration area excavation shall be accomplished using low-impact earth-moving equipment without rubber tires within 6" in. of final subgrade elevation to prevent compaction of the underlying soils.

Subgrade soils shall not be compacted unless determined by the Engineer to be weak soils or unsuitable soils. Soils determined to be unsuitable shall be prepared in accordance with Section 301 of the standard specifications or as directed by the Engineer.

Native subgrade soils along the bottom and sides of the permeable concrete paver pavement system excavation shall be scarified or tilled to a depth of 4" inches prior to the placement of filter fabric (where required) or aggregate layers.

Subgrade soils shall be graded level to $\pm 3/4$ " of the grades shown on the plans. The subgrade shall generally be flat with slopes not to exceed 0.5% except along the 1:1 slopes of the subgrade berms as shown on the plan.

Subgrade soil preparation shall be approved by the Engineer and free of standing water prior to placement of infiltration aggregate.

Modify the first sentence in the second paragraph of 351.05 to: Moisten, spread, and compact the aggregate base material on the soil subgrade in lifts to maximum of 8" in. thick when compacted.

Moisture requirements shall be in accordance with Type B.

Material shall be stockpiled such that material is free from standing water, uniformly graded, free from organic material, sediment, or debris.

Care shall be taken not to crush the aggregate during compaction.

Care shall be taken not to wrinkle or fold the filter fabric (where required) or damage pipe underdrains during placement and compaction of the aggregate material.

The work shall be protected from sediment deposition and damage. Reservoir stone materials contaminated with sediment shall be removed and replaced with clean material and compacted in a manger approved by the Engineer.

Surface tolerance of the compacted reservoir stone layer shall not deviate by more than +/- 2 inches over a 10-foot straightedge.

The cost of this work shall be included in the Lump Sum bid price.

BEDDING STONE

This work shall consist of constructing proposed open graded bedding for permeable concrete paver pavement in accordance with all applicable portions of the specifications and plans.

Bedding Stone shall be in accordance with all applicable portions of 1004 except as modified below:

1004.05 add to table: Bedding Stone – CA-20, Material shall be washed with less than 2% passing the No. 200 Sieve.

Material shall be stockpiled such that material is free from standing water, uniformly graded, free from organic material, sediment, or debris.

Bedding material shall not be installed in the rain or snow, and frozen bedding materials shall not be installed.

Moisten, spread, and screed the bedding material on the prepared aggregate base stone layer.

Fill voids left by removed screed rails with bedding material and smooth to conform to adjacent screeded bedding material.

Bedding materials contaminated with sediment shall be removed and replaced with clean material.

The surface tolerance of the screeded bedding layer shall be +/- 3/8 inch over a 10-foot straightedge.

Pedestrian and vehicular traffic shall not be allowed on the screeded bedding layer before paving unit installation begins.

The cost of this work shall be included in the Lump Sum bid price.

TRAFFIC CONTROL AND PROTECTION, (SPECIAL)

This work shall consist of furnishing, installing, maintaining and removing all traffic control devices for traffic control and protection as shown on Highway Standards 701006, 701201, 701301, 701801, and 701901 included in the plans, according to the TRAFFIC CONTROL PLAN, according to Section 701 of the "Standard Specifications for Road and Bridge Construction", as directed by the Engineer and as specified herein.

Prior to beginning work on the project, the Contractor shall furnish and install Type III barricades and advance warning signs as shown on the TRAFFIC CONTROL PLAN and as detailed in the applicable Highway Standards. Barricade placement and sign spacing may be adjusted by the Engineer to suit field conditions.

Throughout the construction period, all material piles, equipment, open excavations or other obstructions or hazards to motorists or pedestrians shall be enclosed by fences or protected by barricades and proper lighting. Excavations adjacent to the edge of pavement shall be protected with extended leg barricades with appropriate lights.

Traffic control and protection according to Highway Standard 701801 will be required for sidewalk closures on Main and Walnut Streets.

The cost for this work shall be included in the Lump Sum bid price.

STORM WATER CURB OPENING

This work shall consist of furnishing and installing cast iron frames in curbs according to Section 604 of the "Standard Specifications for Road and Bridge Construction."

Castings shall be Neenah R-3264-3 or approved equal. Locations shall be approved in the field by the Engineer.

This work will be paid for at the contract unit price per each for STORM WATER CURB OPENING. Pipe drains connecting to the curb openings will be measured and paid for separately as provided elsewhere in the contract.

WORKING DAYS

Working Days will be charged according to Article 108.04 of the "Standard Specifications for Road and Bridge Construction", except as modified herein:

A working day shall be defined as any calendar day between January 1 and December 31 inclusive, except Saturdays, Sundays, or legal holidays observed by the Contractor's entire work force in Illinois.

PORTLAND CEMENT CONCRETE PAVEMENT PLACEMENT (BDE)

Effective: July 1, 2020

Revise the fifth paragraph of Article 420.07 of the Standard Specifications to read:

"The concrete shall be deposited uniformly across the subgrade or subbase as close as possible to its final position. The time elapsing from when the concrete is unloaded until it is incorporated into the work shall not exceed 20 minutes. When required, hand spreading shall be accomplished with shovels."

RECLAIMED ASPHALT PAVEMENT AND RECLAIMED ASPHALT SHINGLES (BDE)

Effective: November 1, 2012 Revised: January 2, 2021

Revise Section 1031 of the Standard Specifications to read:

"SECTION 1031. RECLAIMED ASPHALT PAVEMENT AND RECLAIMED ASPHALT SHINGLES

1031.01 Description. Reclaimed asphalt pavement and reclaimed asphalt shingles shall be according to the following.

- (a) Reclaimed Asphalt Pavement (RAP). RAP is the material produced by cold milling or crushing an existing hot-mix asphalt (HMA) pavement. The Contractor shall supply written documentation that the RAP originated from routes or airfields under federal, state, or local agency jurisdiction.
- (b) Reclaimed Asphalt Shingles (RAS). RAS is the material produced from the processing and grinding of preconsumer or post-consumer shingles. RAS shall be a clean and uniform material with a maximum of 0.5 percent unacceptable material by weight of RAS, as defined in the Bureau of Materials Policy Memorandum, "Reclaimed Asphalt Shingle (RAS) Sources". RAS shall come from a facility source on the Department's "Qualified Producer List of Certified Sources for Reclaimed Asphalt Shingles" where it shall be ground and processed to 100 percent passing the 3/8 in. (9.5 mm) sieve and 93 percent passing the #4 (4.75 mm) sieve based on a dry shake gradation. RAS shall be uniform in gradation and asphalt binder content and shall meet the testing requirements specified herein. In addition, RAS shall meet the following Type 1 or Type 2 requirements.
 - (1) Type 1. Type 1 RAS shall be processed, preconsumer asphalt shingles salvaged from the manufacture of residential asphalt roofing shingles.
 - (2) Type 2. Type 2 RAS shall be processed post-consumer shingles only, salvaged from residential, or four unit or less dwellings not subject to the National Emission Standards for Hazardous Air Pollutants (NESHAP).

1031.02 Stockpiles. RAP and RAS stockpiles shall be according to the following.

(a) RAP Stockpiles. The Contractor shall construct individual RAP stockpiles meeting one of the following definitions. Stockpiles shall be sufficiently separated to prevent intermingling at the base. Stockpiles shall be identified by signs indicating the type as listed below (i.e. "Homogeneous Surface").

Prior to milling, the Contractor shall request the Department provide documentation on the quality of the RAP to clarify the appropriate stockpile.

- (1) Fractionated RAP (FRAP). FRAP shall consist of RAP from Class I, HMA (High and Low ESAL) mixtures. The coarse aggregate in FRAP shall be crushed aggregate and may represent more than one aggregate type and/or quality but shall be at least C quality. FRAP shall be fractionated prior to testing by screening into a minimum of two size fractions with the separation occurring on or between the No. 4 (4.75 mm) and 1/2 in. (12.5 mm) sieves. Agglomerations shall be minimized such that 100 percent of the RAP in the coarse fraction shall pass the maximum sieve size specified for the mixture composition of the mix design.
- (2) Homogeneous. Homogeneous RAP stockpiles shall consist of RAP from Class I, HMA (High and Low ESAL) mixtures and represent: 1) the same aggregate quality, but shall be at least C quality; 2) the same type of crushed aggregate (either crushed natural aggregate, ACBF slag, or steel slag); 3) similar gradation; and 4) similar asphalt binder content. If approved by the Engineer, combined single pass surface/binder millings may be considered "homogeneous" with a quality rating dictated by the lowest coarse aggregate quality present in the mixture.
- (3) Conglomerate. Conglomerate RAP stockpiles shall consist of RAP from Class I, HMA (High and Low ESAL) mixtures. The coarse aggregate in this RAP shall be crushed aggregate and may represent more than one aggregate type and/or quality but shall be at least C quality. This RAP may have an inconsistent gradation and/or asphalt binder content prior to processing. Conglomerate RAP shall be processed prior to testing by crushing to where all RAP shall pass the 5/8 in. (16 mm) or smaller screen. Conglomerate RAP stockpiles shall not contain steel slag.
- (4) Conglomerate "D" Quality (Conglomerate DQ). Conglomerate DQ RAP stockpiles shall be according to Articles 1031.02(a)(1)-1031.02(a)(3), except they may also consist of RAP from HMA shoulders, bituminous stabilized subbases, or HMA (High or Low ESAL) binder mixture. The coarse aggregate in this RAP may be crushed or round but shall be at least D quality. This RAP may have an inconsistent gradation and/or asphalt binder content.
- (5) Non-Quality. RAP stockpiles that do not meet the requirements of the stockpile categories listed above shall be classified as "Non-Quality".

RAP/FRAP containing contaminants, such as earth, brick, sand, concrete, sheet asphalt, non-bituminous surface treatment (i.e. high friction surface treatments), pavement fabric, joint sealants, plant cleanout, etc., will be unacceptable unless the contaminants are removed to the satisfaction of the Engineer. Sheet asphalt shall be stockpiled separately.

(b) RAS Stockpiles. Type 1 and Type 2 RAS shall be stockpiled separately and shall not be intermingled. Each stockpile shall be signed indicating what type of RAS is present.

Unless otherwise specified by the Engineer, mechanically blending manufactured sand (FM 20 or FM 22) or fine FRAP up to an equal weight of RAS with the processed RAS will be permitted to improve workability. The sand shall be B quality or better from an

approved Aggregate Gradation Control System source. The sand shall be accounted for in the mix design and during HMA production.

Records identifying the shingle processing facility supplying the RAS, RAS type, and lot number shall be maintained by project contract number and kept for a minimum of three years.

Additional processed RAP/FRAP/RAS shall be stockpiled in a separate working pile, as designated in the QC Plan, and only added to the original stockpile after the test results for the working pile are found to meet the requirements specified in Articles 1031.03 and 1031.04.

1031.03 Testing. RAP/FRAP and RAS testing shall be according to the following.

- (a) RAP/FRAP Testing. When used in HMA, the RAP/FRAP shall be sampled and tested either during or after stockpiling.
 - (1) During Stockpiling. For testing during stockpiling, washed extraction samples shall be run at the minimum frequency of one sample per 500 tons (450 metric tons) for the first 2,000 tons (1,800 metric tons) and one sample per 2,000 tons (1,800 metric tons) thereafter. A minimum of five tests shall be required for stockpiles less than 4,000 tons (3,600 metric tons).
 - (2) After Stockpiling. For testing after stockpiling, the Contractor shall submit a plan for approval to the Department proposing a satisfactory method of sampling and testing the RAP/FRAP pile either in-situ or by restockpiling. The sampling plan shall meet the minimum frequency required above and detail the procedure used to obtain representative samples throughout the pile for testing.

Each sample shall be split to obtain two equal samples of test sample size. One of the two test samples from the final split shall be labeled and stored for Department use. The Contractor shall perform a washed extraction on the other test sample according to Illinois Modified AASHTO T 164. The Engineer reserves the right to test any sample (split or Department-taken) to verify Contractor test results.

(b) RAS Testing. RAS or RAS blended with manufactured sand shall be sampled and tested during stockpiling according to the Bureau of Materials Policy Memorandum, "Reclaimed Asphalt Shingle (RAS) Source".

Samples shall be collected during stockpiling at the minimum frequency of one sample per 200 tons (180 metric tons) for the first 1,000 tons (900 metric tons) and one sample per 500 tons (450 metric tons) or a minimum of once per week, whichever is more frequent, thereafter. A minimum of five samples are required for stockpiles less than 1,000 tons (900 metric tons).

Before testing, each sample shall be split to obtain two test samples. One of the two test samples from the final split shall be labeled and stored for Department use. The

Contractor shall perform a washed extraction and test for unacceptable materials on the other test sample according to Illinois Modified AASHTO T 164. The Engineer reserves the right to test any sample (split or Department-taken) to verify Contractor test results.

The Contractor shall obtain and make available all of the test results from the start of the original stockpile.

1031.04 Evaluation of Tests. Evaluation of test results shall be according to the following.

(a) Limits of Precision. The limits of precision between the Contractor's and the Department's split sample test results shall be according to the following.

Test Parameter	Limits of Precision			
% Passing	RAP	RAS		
1/2 in. (12.5 mm)	6.0 %	5.0 %		
# 4 (4.75 mm)	6.0 %	5.0 %		
# 8 (2.36 mm)	4.0 %	3.0 %	4.0 %	
# 30 (600 µm)	3.0 %	2.0 %	4.0 %	
# 200 (75 μm)	2.5 %	2.2 %	4.0 %	
Asphalt Binder	0.4 %	0.3 %	3.0 %	
G _{mm}	0.035	0.030		

If the test results are outside the above limits of precision, the Department will immediately investigate.

(b) Evaluation of RAP/FRAP Test Results. All of the extraction results shall be compiled and averaged for asphalt binder content and gradation, and when applicable G_{mm}. Individual extraction test results, when compared to the averages, will be accepted if within the tolerances listed below.

Parameter	FRAP/Homogeneous/ Conglomerate
1 in. (25 mm)	
1/2 in. (12.5 mm)	± 8 %
# 4 (4.75 mm)	± 6 %
# 8 (2.36 mm)	± 5 %
# 16 (1.18 mm)	
# 30 (600 µm)	± 5 %
# 200 (75 µm)	± 2.0 %
Asphalt Binder	\pm 0.4 % $^{1/}$
G _{mm}	± 0.03 ^{2/}

1/ The tolerance for FRAP shall be \pm 0.3 percent.

2/ For stockpile with slag or steel slag present as determined in the current Manual of Test Procedures Appendix B 21, "Determination of Aggregate Bulk (Dry) Specific Gravity (Gsb) of Reclaimed Asphalt Pavement (RAP) and Reclaimed Asphalt Shingles (RAS)".

If more than 20 percent of the test results for an individual parameter (individual sieves, G_{mm} , and/or asphalt binder content) are out of the above tolerances, the RAP/FRAP shall not be used in HMA unless the RAP/FRAP representing the failing tests is removed from the stockpile. All test data and acceptance ranges shall be sent to the Department for evaluation.

With the approval of the Engineer, the ignition oven may be substituted for solvent extractions according to the document "Calibration of the Ignition Oven for the Purpose of Characterizing Reclaimed Asphalt Pavement (RAP)".

(c) Evaluation of RAS and RAS Blended with Manufactured Sand or Fine FRAP Test Results. All of the test results, with the exception of percent unacceptable materials, shall be compiled and averaged for asphalt binder content and gradation. Individual test results, when compared to the averages, will be accepted if within the tolerances listed below.

Parameter	RAS
# 8 (2.36 mm)	± 5 %
# 16 (1.18 mm)	± 5 %
# 30 (600 µm)	± 4 %
# 200 (75 μm)	± 2.5 %
Asphalt Binder Content	± 2.0 %

If more than 20 percent of the test results for an individual parameter (individual sieves and/or asphalt binder content) are out of the above tolerances, or if the unacceptable material exceeds 0.5 percent by weight of material retained on the No. 4 (4.75 mm) sieve, the RAS or RAS blend shall not be used in Department projects. All test data and acceptance ranges shall be sent to the Department for evaluation.

1031.05 Quality Designation of Aggregate in RAP/FRAP.

- (a) RAP. The aggregate quality of the RAP for homogeneous, conglomerate, and conglomerate DQ stockpiles shall be set by the lowest quality of coarse aggregate in the RAP stockpile and are designated as follows.
 - (1) RAP from Class I, HMA (High ESAL), or (Low ESAL) IL-9.5L surface mixtures are designated as containing Class B quality coarse aggregate.
 - (2) RAP from Class I binder, HMA (High ESAL) binder, or (Low ESAL) IL-19.0L binder mixtures are designated as containing Class C quality coarse aggregate.

- (3) RAP from BAM stabilized subbase and BAM shoulders are designated as containing Class D quality coarse aggregate.
- (b) FRAP. If the Engineer has documentation of the quality of the FRAP aggregate, the Contractor shall use the assigned quality provided by the Engineer.

If the quality is not known, the quality shall be determined as follows. Coarse and fine FRAP stockpiles containing plus No. 4 (4.75 mm) sieve coarse aggregate shall have a maximum tonnage of 5,000 tons (4,500 metric tons). The Contractor shall obtain a representative sample witnessed by the Engineer. The sample shall be a minimum of 50 lb (25 kg). The sample shall be extracted according to Illinois Modified AASHTO T 164 by a consultant laboratory prequalified by the Department for the specified testing. The consultant laboratory shall submit the test results along with the recovered aggregate sample to the District Office. Consultant laboratory services will be at no additional cost to the Department. The District will forward the sample to the Central Bureau of Materials Aggregate Lab for MicroDeval Testing, according to ITP 327. A maximum loss of 15.0 percent will be applied for all HMA applications.

1031.06 Use of RAP/FRAP and/or RAS in HMA. The use of RAP/FRAP and/or RAS shall be the Contractor's option when constructing HMA in all contracts.

- (a) RAP/FRAP. The use of RAP/FRAP in HMA shall be as follows.
 - (1) Coarse Aggregate Size. The coarse aggregate in all RAP shall be equal to or less than the nominal maximum size requirement for the HMA mixture to be produced.
 - (2) Steel Slag Stockpiles. Homogeneous RAP stockpiles containing steel slag will be approved for use in all HMA (High ESAL and Low ESAL) surface and binder mixture applications.
 - (3) Use in HMA Surface Mixtures (High and Low ESAL). RAP/FRAP stockpiles for use in HMA surface mixtures (High and Low ESAL) shall be FRAP or homogeneous in which the coarse aggregate is Class B quality or better. FRAP from conglomerate stockpiles shall be considered equivalent to limestone for frictional considerations. Known frictional contributions from plus No. 4 (4.75 mm) homogeneous FRAP stockpiles will be accounted for in meeting frictional requirements in the specified mixture.
 - (4) Use in HMA Binder Mixtures (High and Low ESAL), HMA Base Course, and HMA Base Course Widening. RAP/FRAP stockpiles for use in HMA binder mixtures (High and Low ESAL), HMA base course, and HMA base course widening shall be FRAP, homogeneous, or conglomerate, in which the coarse aggregate is Class C quality or better.
 - (5) Use in Shoulders and Subbase. RAP/FRAP stockpiles for use in HMA shoulders and stabilized subbase (HMA) shall be FRAP, homogeneous, or conglomerate.

- (6) When the Contractor chooses the RAP option, the percentage of RAP shall not exceed the amounts indicated in Article 1031.06(c)(1) below for a given Ndesign.
- (b) RAS. RAS meeting Type 1 or Type 2 requirements will be permitted in all HMA applications as specified herein.
- (c) RAP/FRAP and/or RAS Usage Limits. Type 1 or Type 2 RAS may be used alone or in conjunction with RAP or FRAP in HMA mixtures up to a maximum of 5.0 percent by weight of the total mix.
 - (1) RAP/RAS. When RAP is used alone or RAP is used in conjunction with RAS, the percentage of virgin asphalt binder replacement (ABR) shall not exceed the amounts listed in the following table.

HMA Mixtures - RAP/RAS Maximum ABR % 1/2/				
Ndesign Binder Surface Polymer Modifi Binder or Surface				
30	30	30	10	
50	25	15	10	
70	15	10	10	
90	10	10	10	

- 1/ For Low ESAL HMA shoulder and stabilized subbase, the RAP/RAS ABR shall not exceed 50 percent of the mixture.
- 2/ When RAP/RAS ABR exceeds 20 percent, the high and low virgin asphalt binder grades shall each be reduced by one grade (i.e. 25 percent ABR would require a virgin asphalt binder grade of PG 64-22 to be reduced to a PG 58-28).
- (2) FRAP/RAS. When FRAP is used alone or FRAP is used in conjunction with RAS, the percentage of virgin asphalt binder replacement shall not exceed the amounts listed in the following table.

HMA Mixtures - FRAP/RAS Maximum ABR % 1/ 2/					
Ndesign Binder Surface Polymer Modific Binder or Surface

70	45	35	15		
90	45	35	15		
SMA 25					

IL-4.75		35
---------	--	----

- 1/ For Low ESAL HMA shoulder and stabilized subbase, the FRAP/RAS ABR shall not exceed 50 percent of the mixture.
- 2/ When FRAP/RAS ABR exceeds 20 percent for all mixes, the high and low virgin asphalt binder grades shall each be reduced by one grade (i.e. 25 percent ABR would require a virgin asphalt binder grade of PG 64-22 to be reduced to a PG 58-28).

1031.07 HMA Mix Designs. At the Contractor's option, HMA mixtures may be constructed utilizing RAP/FRAP and/or RAS material meeting the detailed requirements specified herein.

- (a) RAP/FRAP and/or RAS. RAP/FRAP and/or RAS mix designs shall be submitted for verification. If additional RAP/FRAP and/or RAS stockpiles are tested and found that no more than 20 percent of the individual parameter test results, as defined in Article 1031.04, are outside of the control tolerances set for the original RAP/FRAP and/or RAS stockpile and HMA mix design, and meets all of the requirements herein, the additional RAP/FRAP and/or RAS stockpiles may be used in the original mix design at the percent previously verified.
- (b) RAS. Type 1 and Type 2 RAS are not interchangeable in a mix design.

The RAP, FRAP, and RAS stone bulk specific gravities (G_{sb}) shall be according to the "Determination of Aggregate Bulk (Dry) Specific Gravity (G_{sb}) of Reclaimed Asphalt Pavement (RAP) and Reclaimed Asphalt Shingles (RAS)" procedure in the Department's Manual of Test Procedures for Materials.

1031.08 HMA Production. HMA production utilizing RAP/FRAP and/or RAS shall be as follows.

To remove or reduce agglomerated material, a scalping screen, gator, crushing unit, or comparable sizing device approved by the Engineer shall be used in the RAP/FRAP and/or RAS feed system to remove or reduce oversized material.

If the RAP/FRAP and/or RAS control tolerances or QC/QA test results require corrective action, the Contractor shall cease production of the mixture containing RAP/FRAP and/or RAS and either switch to the virgin aggregate design or submit a new mix design.

- (a) RAP/FRAP. The coarse aggregate in all RAP/FRAP used shall be equal to or less than the nominal maximum size requirement for the HMA mixture being produced.
- (b) RAS. RAS shall be incorporated into the HMA mixture either by a separate weight depletion system or by using the RAP weigh belt. Either feed system shall be interlocked with the aggregate feed or weigh system to maintain correct proportions for all rates of production and batch sizes. The portion of RAS shall be controlled accurately to within

- ± 0.5 percent of the amount of RAS utilized. When using the weight depletion system, flow indicators or sensing devices shall be provided and interlocked with the plant controls such that the mixture production is halted when RAS flow is interrupted.
- (c) RAP/FRAP and/or RAS. HMA plants utilizing RAP/FRAP and/or RAS shall be capable of automatically recording and printing the following information.
 - (1) Dryer Drum Plants.
 - a. Date, month, year, and time to the nearest minute for each print.
 - b. HMA mix number assigned by the Department.
 - c. Accumulated weight of dry aggregate (combined or individual) in tons (metric tons) to the nearest 0.1 ton (0.1 metric ton).
 - d. Accumulated dry weight of RAP/FRAP/RAS in tons (metric tons) to the nearest 0.1 ton (0.1 metric ton).
 - e. Accumulated mineral filler in revolutions, tons (metric tons), etc. to the nearest 0.1 unit.
 - f. Accumulated asphalt binder in gallons (liters), tons (metric tons), etc. to the nearest 0.1 unit.
 - g. Residual asphalt binder in the RAP/FRAP/RAS material as a percent of the total mix to the nearest 0.1 percent.
 - h. Aggregate and RAP/FRAP/RAS moisture compensators in percent as set on the control panel. (Required when accumulated or individual aggregate and RAP/FRAP/RAS are recorded in a wet condition.)
 - i. A positive dust control system shall be utilized when the combined contribution of reclaimed material passing the No. 200 sieve exceeds 1.5 percent.

(2) Batch Plants.

- a. Date, month, year, and time to the nearest minute for each print.
- b. HMA mix number assigned by the Department.
- c. Individual virgin aggregate hot bin batch weights to the nearest pound (kilogram).
- d. Mineral filler weight to the nearest pound (kilogram).
- e. RAP/FRAP/RAS weight to the nearest pound (kilogram).

- f. Virgin asphalt binder weight to the nearest pound (kilogram).
- g. Residual asphalt binder in the RAP/FRAP/RAS material as a percent of the total mix to the nearest 0.1 percent.

The printouts shall be maintained in a file at the plant for a minimum of one year or as directed by the Engineer and shall be made available upon request. The printing system will be inspected by the Engineer prior to production and verified at the beginning of each construction season thereafter.

1031.09 RAP in Aggregate Applications. RAP in aggregate applications shall be according to the Bureau of Materials Policy Memorandum, "Reclaimed Asphalt Pavement (RAP) for Aggregate Applications" and the following.

- (a) RAP in Aggregate Surface Course and Aggregate Wedge Shoulders, Type B. The use of RAP in aggregate surface course (temporary access entrances only) and aggregate wedge shoulders, Type B shall be as follows.
 - (1) Stockpiles and Testing. RAP stockpiles may be any of those listed in Article 1031.02, except "Non-Quality" and "FRAP". The testing requirements of Article 1031.03 shall not apply.
 - (2) Gradation. One hundred percent of the RAP material shall pass the 1 1/2 in. (37.5 mm) sieve. The RAP material shall be reasonably well graded from coarse to fine. RAP material that is gap-graded or single sized will not be accepted.
- (b) RAP in Aggregate Subgrade Improvement (ASI). RAP in ASI shall be according to Article 1031.06, except "Conglomerate DQ" and "Non-Quality" may be used."

SILT FENCE, INLET FILTERS, GROUND STABILIZATION AND RIPRAP FILTER FABRIC (BDE)

Effective: November 1, 2019

Revised: July 1, 2021

Revise Article 280.02(m) and add Article 280.02(n) so the Standard Specifications read:

"(m) Above Grade Inlet Filter (Fitted).		1081.15(j)
(n) Above Grade Inlet Filter (Non-Fit	ted)	1081.15(k)"

Revise the last sentence of the first paragraph in Article 280.04(c) of the Standard Specifications to read:

"The protection shall be constructed with hay or straw bales, silt filter fence, above grade inlet filters (fitted and non-fitted), or inlet filters.

Revise the first sentence of the second paragraph in Article 280.04(c) of the Standard Specifications to read:

"When above grade inlet filters (fitted and non-fitted) are specified, they shall be of sufficient size to completely span and enclose the inlet structure."

Revise Article 1080.02 of the Standard Specifications to read:

"1080.02 Geotextile Fabric. The fabric for silt filter fence shall consist of woven fabric meeting the requirements of AASHTO M 288 for unsupported silt fence.

The fabric for ground stabilization shall consist of woven yarns or nonwoven filaments of polyolefins or polyesters. Woven fabrics shall be Class 2 and nonwoven fabrics shall be Class 1 according to AASHTO M 288.

The physical properties for silt fence and ground stabilization fabrics shall be according to the following.

Revise Article 1080.03 of the Standard Specifications to read:

"1080.03 Filter Fabric. The filter fabric shall consist of woven yarns or nonwoven filaments of polyolefins or polyesters. Woven fabrics shall be Class 3 for riprap gradations RR 4 and RR 5, and Class 2 for RR 6 and RR 7 according to AASHTO M 288. Woven slit film geotextiles (i.e. geotextiles made from yarns of a flat, tape-like character) shall not be permitted. Nonwoven fabrics shall be Class 2 for riprap gradations RR 4 and RR 5, and Class 1 for RR 6 and RR 7 according to AASHTO M 288. After forming, the fabric shall be processed so that the yarns or filaments retain their relative positions with respect to each other. The fabric shall be new and undamaged.

The filter fabric shall be manufactured in widths of not less than 6 ft (2 m). Sheets of fabric may be sewn together with thread of a material meeting the chemical requirements given for the yarns or filaments to form fabric widths as required. The sheets of filter fabric shall be sewn together at the point of manufacture or another approved location.

Woven filter fabric shall be Class 3 and nonwoven filter fabric shall be Class 2 according to AASHTO M 288. The filter shall be fabricated to provide a direct fit to the frame. The top of the filter shall integrate a coarse screen with a minimum apparent opening size

of 1/2 in. (13 mm) to allow large volumes of water to pass through in the event of heavy flows. The filter shall have integrated anti-buoyancy pockets capable of holding a minimum of 3.0 cu ft (0.08 cu m) of stabilization material. Each filter shall have a label with the following information sewn to or otherwise permanently adhered to the outside: manufacturer's name, product name, and lot, model, or serial number. The fitted geotextile filter fabric shall be according to the table in Article 1081.15(h)(3)a above."

Add Article 1081.15(k) to the Standard Specifications to read:

- "(k) Above Grade Inlet Filters (Non-Fitted). Above grade inlet filters (non-fitted) shall consist of a geotextile fabric surrounding a metal frame. The frame shall consist of either a) a circular cage formed of welded wire mesh, or b) a collapsible aluminum frame, as described below.
 - (1) Frame Construction.
 - a) Welded Wire Mesh Frame. The frame shall consist of 6 in. x 6 in. (150 mm x 150 mm) welded wire mesh formed of #10 gauge (3.42 mm) steel conforming to ASTM A 185. The mesh shall be 30 in. (750 mm) tall and formed into a 42 in. (1.05 m) minimum diameter cylinder.
 - b) Collapsible Aluminum Frame. The collapsible aluminum frame shall consist of grade 6036 aluminum. The frame shall have anchor lugs that attach it to the inlet grate, which shall resist movement from water and debris. The collapsible joints of the frame shall have a locking device to secure the vertical members in place, which shall prevent the frame from collapsing while under load from water and debris.
 - (2) Geotextile Fabric. The geotextile fabric shall consist of woven yarns or nonwoven filaments made of polyolefins or polyesters. The woven filter fabric shall be a Class 3 and the nonwoven filter fabric shall be a Class 2 according to AASHTO M 288. The geotextile fabric shall be according to the table in Article 1081.15(h)(3)a above.
 - (3) Geotechnical Fabric Attachment to the Frame.
 - a) Welded Wire Mesh Frame. The woven or nonwoven geotextile fabric shall be wrapped 3 in. (75 mm) over the top member of a 6 in. x 6 in. (150 mm x 150 mm) welded wire mesh frame and secured with fastening rings constructed of wire conforming to ASTM A 641, A 809, A 370, and A 938 at 6 in. (150 mm) on center. The fastening rings shall penetrate both layers of geotextile and securely close around the steel mesh. The geotextile shall be secured to the sides of the welded wire mesh with fastening rings at a spacing of 1 per sq ft (11 per sq m) and securely close around a steel member.

- b) Collapsible Aluminum Frame. The woven or nonwoven fabric shall be secured to the aluminum frame along the top and bottom of the frame perimeter with strips of aluminum secured to the perimeter member, such that the anchoring system provides a uniformly distributed stress throughout the geotechnical fabric.
- (4) Certification. The manufacturer shall furnish a certificate with each shipment of above grade inlet filter assemblies stating the amount of product furnished and that the material complies with these requirements."

TRAFFIC CONTROL DEVICES - CONES (BDE)

Effective: January 1, 2019

Revise Article 701.15(a) of the Standard Specifications to read:

"(a) Cones. Cones are used to channelize traffic. Cones used to channelize traffic at night shall be reflectorized; however, cones shall not be used in nighttime lane closure tapers or nighttime lane shifts."

Revise Article 1106.02(b) of the Standard Specifications to read:

"(b) Cones. Cones shall be predominantly orange. Cones used at night that are 28 to 36 in. (700 to 900 mm) in height shall have two white circumferential stripes. If non-reflective spaces are left between the stripes, the spaces shall be no more than 2 in. (50mm) in width. Cones used at night that are taller than 36 in. (900 mm) shall have a minimum of two white and two fluorescent orange alternating, circumferential stripes with the top stripe being fluorescent orange. If non-reflective spaces are left between the stripes, the spaces shall be no more than 3 in. (75 mm) in width.

The minimum weights for the various cone heights shall be 4 lb for 18 in. (2 kg for 450 mm), 7 lb for 28 in. (3 kg for 700 mm), and 10 lb for 36 in. (5 kg for 900 mm) with a minimum of 60 percent of the total weight in the base. Cones taller than 36 in. shall be weighted per the manufacturer's specifications such that they are not moved by wind or passing traffic."

VEHICLE AND EQUIPMENT WARNING LIGHTS (BDE)

Effective: November 1, 2021

Add the following paragraph after the first paragraph of Article 701.08 of the Standard Specifications:

"The Contractor shall equip all vehicles and equipment with high-intensity oscillating, rotating, or flashing, amber or amber-and-white, warning lights which are visible from all directions. The lights shall be in operation while the vehicle or equipment is engaged in construction operations."

WORK ZONE TRAFFIC CONTROL DEVICES (BDE)

Effective: March 2, 2020

Add the following to Article 701.03 of the Standard Specifications:

"(q) Temporary Sign Supports1106.02"

Revise the third paragraph of Article 701.14 of the Standard Specifications to read:

"For temporary sign supports, the Contractor shall provide a FHWA eligibility letter for each device used on the contract. The letter shall provide information for the set-up and use of the device as well as a detailed drawing of the device. The signs shall be supported within 20 degrees of vertical. Weights used to stabilize signs shall be attached to the sign support per the manufacturer's specifications."

Revise the first paragraph of Article 701.15 of the Standard Specifications to read:

"701.15 Traffic Control Devices. For devices that must meet crashworthiness standards, the Contractor shall provide a manufacturer's self-certification or a FHWA eligibility letter for each Category 1 device and a FHWA eligibility letter for each Category 2 and Category 3 device used on the contract. The self-certification or letter shall provide information for the set-up and use of the device as well as a detailed drawing of the device."

Revise the first six paragraphs of Article 1106.02 of the Standard Specifications to read:

"1106.02 Devices. Work zone traffic control devices and combinations of devices shall meet crashworthiness standards for their respective categories. The categories are as follows.

Category 1 includes small, lightweight, channelizing and delineating devices that have been in common use for many years and are known to be crashworthy by crash testing of similar devices or years of demonstrable safe performance. These include cones, tubular markers, plastic drums, and delineators, with no attachments (e.g. lights). Category 1 devices manufactured after December 31, 2019 shall be MASH-16 compliant. Category 1 devices manufactured on or before December 31, 2019, and compliant with NCHRP 350 or MASH 2009, may be used on contracts let before December 31, 2024.

Category 2 includes devices that are not expected to produce significant vehicular velocity change but may otherwise be hazardous. These include vertical panels with lights, barricades, temporary sign supports, and Category 1 devices with attachments (e.g. drums with lights). Category 2 devices manufactured after December 31, 2019 shall be MASH-16 compliant. Category 2 devices manufactured on or before December 31, 2019, and compliant with NCHRP 350 or MASH 2009, may be used on contracts let before December 31, 2024.

Category 3 includes devices that are expected to cause significant velocity changes or other potentially harmful reactions to impacting vehicles. These include crash cushions (impact

attenuators), truck mounted attenuators, and other devices not meeting the definitions of Category 1 or 2. Category 3 devices manufactured after December 31, 2019 shall be MASH-16 compliant. Category 3 devices manufactured on or before December 31, 2019, and compliant with NCHRP 350 or MASH 2009, may be used on contracts let before December 31, 2029. Category 3 devices shall be crash tested for Test Level 3 or the test level specified.

Category 4 includes portable or trailer-mounted devices such as arrow boards, changeable message signs, temporary traffic signals, and area lighting supports. It is preferable for Category 4 devices manufactured after December 31, 2019 to be MASH-16 compliant; however, there are currently no crash tested devices in this category, so it remains exempt from the NCHRP 350 or MASH compliance requirement.

For each type of device, when no more than one MASH-16 compliant is available, an NCHRP 350 or MASH-2009 compliant device may be used, even if manufactured after December 31, 2019."

Revise Articles 1106.02(g), 1106.02(k), and 1106.02(l) to read:

- "(g) Truck Mounted/Trailer Mounted Attenuators. The attenuator shall be approved for use at Test Level 3. Test Level 2 may be used for normal posted speeds less than or equal to 45 mph.
- (k) Temporary Water Filled Barrier. The water filled barrier shall be a lightweight plastic shell designed to accept water ballast and be on the Department's qualified product list.
 - Shop drawings shall be furnished by the manufacturer and shall indicate the deflection of the barrier as determined by acceptance testing; the configuration of the barrier in that test; and the vehicle weight, velocity, and angle of impact of the deflection test. The Engineer shall be provided one copy of the shop drawings.
- (I) Movable Traffic Barrier. The movable traffic barrier shall be on the Department's qualified product list.

Shop drawings shall be furnished by the manufacturer and shall indicate the deflection of the barrier as determined by acceptance testing; the configuration of the barrier in that test; and the vehicle weight, velocity, and angle of impact of the deflection test. The Engineer shall be provided one copy of the shop drawings. The barrier shall be capable of being moved on and off the roadway on a daily basis."

SUBJECT:

Silver Lake Spillway Retaining Wall Replacement, PW-07-21

Notice of Municipal Letting

RECOMMENDATION

I recommend that you request council approval to advertise for the above referenced NOML. The estimated construction cost of this project is \$250,000. The proposed bidding documents are attached.

DISCUSSION

The Silver Lake Spillway is inspected by a professional engineer every 3 years. During the last inspection it was noted there is movement in a section of retaining wall on the east side near the outlet end of the spillway. The movement is enough to warrant removing and replacing the wall. We replaced a similar section of retaining north of the bridge in 2010.

FISCAL IMPACT

The project is budgeted in the water fund.

REAL ESTATE OPTION AGREEMENT Additional Real Estate for Southern Peripheral Route

Route 160 to Arkansas Road

Condition Subsequent: Owner and Optionee intend to execute this Agreement prior to Optionee obtaining the approval necessary to give force and effect to this "Real Estate Option Agreement" (hereinafter "Agreement"). Optionee represents that this Agreement must be passed by Ordinance and by the affirmative vote of 2/3 of the corporate authorities of the City of Highland, Illinois, then holding office. Owner and Optionee shall have no obligation under this Agreement until Optionee has obtained legal approval of the foregoing ordinance approving of this Agreement. If Optionee has not received the foregoing legal approval prior to August 31, 2021, this Agreement shall have no force or effect. Owner and Optionee may extend the approval deadline by mutual written consent.

Consideration and Grant of Option

1. In consideration of the payment of \$31,571.10 to the Owner and to the delivery from the Optionee to the Owner of the ordinance approving of this Agreement, all to be received on or before August 31, 2021, the Owner hereby grants to the Optionee the sole and exclusive right and option to purchase the premises, hereinafter referred to as the "Premises," described in Exhibit "A" and mapped in Exhibit "B" attached hereto and made a part hereof, together with all improvements, easements, and appurtenances thereto for the price and within the time specified herein. In the event that the option granted herein is exercised, the above-recited consideration shall be applied against and be considered part of the purchase price.

Exercise of Option

2. This option may be exercised by the Optionee at any time on or before 6:00 p.m. on August 1. 2023. by depositing written notice to such effect in the United States mail on or before 6:00 p.m. on the aforesaid date or delivering written notice of the exercise of this option to the Owner at the address hereinafter set forth on or before 6:00 p.m. on the aforesaid date. The giving of such notice shall result in the agreement becoming a binding contract of purchase and sale between the parties hereto. If the Optionee fails to exercise this option before its expiration, the consideration paid herewith shall be retained by the Owner.

Purchase Price

3. The purchase price for that portion of the Premises generally described as "Additional Real Estate for the Southern Peripheral Route from Illinois Route 160 to Arkansas Road" (191,340 square feet, more or less) shall be \$315,711.00, which shall be paid in accordance with the Sales Contract, attached hereto as Exhibit "C" and made a part hereof.

For clarification, should Optionee perform according to this Agreement, and exercise the Option, the purchase price on or before August 1, 2023, for the Premises generally described as Additional Real Estate for the Southern Peripheral Route from Illinois Route 160 to Arkansas Road shall be \$284,139.90 (\$315,711.00 - \$31,571.10 = \$284,139.90).

Conveyance

4. The Premises shall be conveyed to the Optionee by general warranty deed with full release of dower, free and clear of all liens and encumbrances whatsoever, except for real estate taxes and general and special assessments not then due and payable, zoning ordinances, and such easements, reservations, limitations, and restrictions as the Optionee shall approve in its sole discretion.

Title

5. Upon receipt of notice of exercise of the option, the Owner shall forthwith have a search of the title made and the customary report of title and a title insurance commitment prepared and cause the same to be provided to each party. The Optionee shall, within 30 days, notify the Owner of any objections to title. Such title will be acceptable when it is capable of being transferred into the name of the Optionee, subject only to taxes and assessments not then due and payable, and zoning ordinances and such easements, restrictions, reservations, limitations, and covenants and conditions of record.

Costs Paid by Owner

- 6. Upon the exercise of the option and the closing of the transaction, the Owner shall he responsible for the following costs and expenses:
 - a. Any transfer taxes.
 - Costs of title search.
 - c. Discharge of any liens.
 - d. One half of any other closing expenses other than those to be born wholly by the Optionee.
 - e. All debits to be made by reason of the proration of taxes which shall be prorated on the basis of the latest tax statement available on the record date of transfer of title to the Optionee; provided, however, that if the tax statement then available overstates such charges, any excess funds shall be repaid to the Owner upon a final determination of the actual amount due.

Costs Paid by Optionee

7. Upon the exercise of the option and the closing of the transaction, the Optionee shall be responsible for the following costs and expenses:

- Cost of recording the deed.
- One half of any other closing expenses other than those to be born wholly b. by the Owner.

Possession of Premises

Possession of the Premises shall be delivered to the Optionee upon the record date of 8. transfer of title.

Entry for Inspection

The Optionee is authorized to enter upon the Premises and make such inspections, 9. surveys, and soil tests of the subject Premises as it shall deem appropriate.

Delivery of Notice

- All notices provided for herein, if not delivered in person, shall be sent by United 10. States certified mail, return receipt requested, to:
 - a. Optionee City of Highland, Attn: City Manager, PO Box 218, 1115 Broadway, Highland, Illinois 62249.
 - b. Owner Dr. William Drake, on behalf of Grandview Farm LP, 10205 State Route 143, Marine, IL 62601

Either party shall have the right to designate a new address for the receipt of said notices by written notice given as aforesaid.

Representations
11. Owner and Optionee hereby warrant and represent to each other that no real estate broke has participated in or pursued this transaction.
EXECUTED on the date and year first written.
By: Dr. William Drake, on behalf of Grandview Farm LLP.
By: City Manager Christopher Conrad, on behalf of The City of Highland, Illinois.

Benchmark Title, Edwardsville, Illinois,	or at such other title c	company and time a	is may be
mutually agreed in writing.		1	

Possession of said property is to be delivered to Buyer on the closing date.

4. REAL ESTATE TAXES

Real estate taxes shall be prorated to the date of closing and either paid by Seller or credited towards Buyer's purchase price due.

5. CONVEYANCE

At closing Seller shall convey and transfer the property to Buyer by Warranty Deed, which instrument shall be subject to standard exceptions. At the same time the balance of the purchase price then due shall be paid and all documents relative to the transaction shall be signed and delivered.

6. ENVIRONMENTAL

Seller represents, to the best of Seller's knowledge, that during the period of Seller's ownership or control over the premises. Seller has no knowledge of, nor reason to suspect, that there has been any underground storage (or other) tank or any presence, disposal, release, or threatened release of hazardous substances or hazardous wastes on, from or under the premises, by or through Seller, or any other party whatsoever. Seller similarly represents that to the best of Seller's knowledge there was no underground storage (or other) tank, nor any presence, disposal, release or threatened release of hazardous substances or hazardous waste on. from or under the premises prior to Seller's acquisition or ownership or control of the premises, Seller similarly represents that to the best of Seller's knowledge the premises (including underlying soil and ground water conditions) is not in violation of any state, local, federal, municipal or other law, statute, regulation, code, ordinance, decree or order relating to hygienic or environmental conditions, and during Seller's ownership of the premises, no party has stored or disposed of any flammable explosives, radioactive materials, hazardous waste, toxic substances, or other released materials on. under or about the premises.

7. TITLE EVIDENCE

Seller shall within a reasonable period furnish at Seller's expense a commitment and Owners Title Guaranty Policy for the amount of the purchase price, subject only to the following: (a) all taxes and special assessments now a lien, levied, or confirmed after the date hereof, (b) building, use and occupancy or restrictions, if any, which do not unreasonably interfere with Buyer's intended use of the property, (c) zoning laws and ordinances. AN ORDINANCE AMENDING CHAPTER 6, OF THE CODE OF ORDINANCES, CITY OF HIGHLAND, ALCOHOLIC LIQUOR, TO INCREASE THE NUMBER OF D1 LIQUOR LICENSES TO EIGHT

WHEREAS, the City of Highland, Madison County, Illinois (hereinafter "City"), is a non-home rule municipality duly established, existing and operating in accordance with the provisions of the Illinois Municipal Code (Section 5/1-1-1 et seq. of Chapter 65 of the Illinois Compiled Statutes); and

WHEREAS, City has determined it necessary to provide flexibility and additional authority to the Liquor Commissioner to issue and enforce City liquor licenses; and

WHEREAS, City has authority to define, regulate, issue, and collect fees associated with liquor licenses; and

WHEREAS, City has authority to determine the number, kind, and classification of [liquor] licenses to be issued 235 ILCS 5/4-1; and

WHEREAS, City has the authority to establish [liquor] license fees for the various kinds of licenses to be issued. 235 ILCS 5/4-1; and

WHEREAS, Chapter 6 of the City Code of Ordinances, Alcoholic Liquor, currently defines "Restaurant" as follows:

Restaurant means any public place kept, used, maintained, advertised, and held out to the public as a place where meals are served, and where meals actually are served and regularly served, such space being provided with adequate and sanitary kitchen and dining room equipment and capacity and having employed therein a sufficient number and kind of employees to prepare, cook and serve suitable food for its guests. (See 235 ILCS Sec.5/1-3.23)

and;

WHEREAS, Chapter 6 of the City Code of Ordinances, Alcoholic Liquor, currently defines Class "D1" liquor licenses as follows:

6-2-6 <u>CLASSIFICATION - FEE – LIMITATION.</u>

Every person engaged in the retail sale of alcoholic liquor in the city shall pay an annual license fee. Such licenses shall be divided into the following classes:

(4) Class "D1" and class "D2" licenses: Restaurants. Class "D1" and class "D2" licenses shall authorize the sale of alcoholic liquor of all varieties at retail for consumption on the premises in conjunction with the operation of a restaurant, as

well as retail sale of alcoholic liquor in the original package off premises. In addition:

a. Class "D1" license will not permit the licensee to operate video gaming terminals upon the premises. The annual fee for such license shall be \$500.00.

and

WHEREAS, Chapter 6 of the City Code of Ordinances, Alcoholic Liquor, currently limits the number of City Liquor licenses issued as follows:

6-2-6 CLASSIFICATION - FEE – LIMITATION.

(9) <u>Limitation on Number of Licenses Issued.</u>

- a. By separate ordinance, the City Council may set a limitation upon the number of licenses to sell alcoholic liquor at retail to be issued for each above classification of license.
- b. As licenses are revoked, expire without renewal, or for any reason cease to exist, the total number of licenses for each classification shall automatically be reduced until the total number of licenses issued for each class shall not exceed the number authorized by the City Council.
- c. If any establishment selling alcoholic liquor is annexed to and becomes a part of the City, the various alcoholic liquor licenses as enumerated in this Section shall be increased in number only in the class which the annexed establishment qualifies provided the annexed establishment holds a current valid liquor license from the governmental entity from which the establishment was annexed and from the State of Illinois.
- d. The following limits are established on the number of licenses to sell alcoholic beverages and/or permit video gaming in the City:

Class A1	5
Class A2	6

Class C	5 (Unlimited)
Class D1	7
Class D2	8
Class E	2 (Unlimited)
Class F	2 (Unlimited)
Class G	2
Class H1	0 (Unlimited)
Class H2	1

WHEREAS, City has determined it to be in the best interests of public health, safety, general welfare and economic welfare to increase the number of D1 liquor licenses from seven (7) to eight (8) licenses; and

WHEREAS, City has determined the additional D1 liquor license will be issued to a qualified applicant by way of separate resolution.

NOW, THEREFORE, BE IT ORDAINED, by the City Council of the City of Highland as follows:

Section 1. The foregoing recitals are incorporated herein as findings of the City Council of the City of Highland, Illinois.

Section 2. Chapter 6, of the Code of Ordinances, City of Highland, shall now read:

6-2-6 <u>CLASSIFICATION - FEE – LIMITATION.</u>

(9) <u>Limitation on Number of Licenses Issued.</u>

- a. By separate ordinance, the City Council may set a limitation upon the number of licenses to sell alcoholic liquor at retail to be issued for each above classification of license.
- b. As licenses are revoked, expire without renewal, or for any reason cease to exist, the total number of licenses for each classification shall automatically be reduced until the total number of licenses issued for each class shall not exceed the number authorized by the City Council.
- c. If any establishment selling alcoholic liquor is annexed to and becomes a part of the City, the various alcoholic liquor licenses as enumerated in this Section shall be increased in number only in the class which the annexed establishment qualifies provided the annexed establishment holds a current valid liquor license from the governmental entity from which the establishment was annexed and from the State of Illinois.
- d. The following limits are established on the number of licenses to sell alcoholic beverages and/or permit video gaming in the City:

MEMORANDUM OF LEASE

This is a memorandum of lease dated as of April 30, 2021 between TJO Holdings, LLC, a Missouri limited liability company ("Landlord"), having a mailing address of 875 Albert Ave., St. Louis, MO 63122-3116, Attn: Jeffrey Wynne, and The Saint Louis Brewery, LLC, a Missouri limited liability company ("Tenant"), having a mailing address of 2100 Locust Street, St. Louis, MO 63103, Attn: Chief Executive Officer. On the terms and subject to the conditions contained in the lease between Landlord and Tenant dated April 30, 2021 ("the Lease"), the terms and conditions of which are incorporated into this memorandum by reference, Landlord has leased to Tenant certain premises located at 907 and 911 Main Street, Highland, Illinois 62249, comprising all of the real property as more fully described as Parcel 1 on Exhibit A attached to this memorandum and a portion of the real property as more fully escribed as Parcel 2 on such Exhibit A, as more particularly described in the Lease (the "Premises").

The Lease is for a term of five (5) years commencing on the date that is ten (10) days after the date that is the later to occur of (i) the date upon which Landlord delivers possession of the Premises to Tenant in the condition required by, and otherwise in accordance with, the Lease, and (ii) the date upon which Tenant shall have obtained all licenses and permits required for Tenant's operation of its business at the Premises.

The Lease provides for two (2) options to extend the term of the Lease for five (5) years each and a third (3rd) option to extend the term for four (4) years commencing upon the expiration of the second (2nd) five (5) year extension, if exercised.

A RESOLUTION WAIVING COMPETITIVE BIDDING REQUIREMENT AND AUTHORIZING THE PURCHASE OF A 2021 CHEVROLET SILVERADO REGULAR CAB WORK TRUCK FOR THE PARKS AND RECREATION DEPARTMENT

WHEREAS, the City of Highland, Madison County, Illinois (hereinafter "City"), is a non-home rule municipality duly established, existing and operating in accordance with the provisions of the Illinois Municipal Code (Section 5/1-1-1 et seq. of Chapter 65 of the Illinois Compiled Statutes); and

WHEREAS, the Director of Parks and Recreation has informed the City Council that the Parks and Recreation Department has a need for a new truck for use by the Parks and Recreation Department for day-to-day operations; and

WHEREAS, the Director of Parks and Recreation has informed the City Council that the truck currently being used by Parks and Recreation has become a maintenance burden; and

WHEREAS, the Director of Parks and Recreation has informed the City Council there has been \$28,000.00 allocated for the purchase of a new truck for the 2021 fiscal year; and

WHEREAS, the Director of Parks and Recreation has informed the City Council that the truck currently being used by the City Parks and Recreation Department for day-to-day operations will eventually be declared surplus and sold; and

WHEREAS, the Director of Parks and Recreation solicited bids for new trucks as follows:

- 1. 2021 Chevrolet Silverado Regular Cab W/T 4WD \$29,825.00
- 2. 2020 Chevrolet Silverado Regular Cab W/T 4x2 \$30,886.00

Waiver - Pick-up Truck

Recommendation

I am seeking City Council support to waive usual and customary bidding procedures to purchase a new Pick-up Truck.

Discussion

Although I had recommended to reject all bids for a new pick-up truck at the June 6, 2021 city council meeting, I have since been approached by Steve Schmitt, Inc. with a recently added truck to their inventory.

As you recall, the bids were rejected due to not meeting the specifications and it was \$10,000 over my budgeted amount. Additionally, the other bid could not guarantee when a truck would arrive, and another was not able to provide a truck according to my specifications.

We are currently reaching a dire situation with our trucks as they are unsafe for staff to drive and the cost of repairs exceeds the value of the trucks. I have included quotes from others as well.

Fiscal Impact

Although this price is slightly higher than the \$28,000 budgeted, with the proposed selling of two (2) trucks in our fleet (1995 & 1996), I feel as though we will be able to cover much of the additional costs.

A RESOLUTION APPROVING AFFILIATION AGREEMENT FOR CITY OF HIGHLAND D/B/A HIGHLAND COMMUNICATION SERVICES, BETWEEN VIVICAST MEDIA, LLC AND SMITHSONIAN NETWORK TELEVISION SERVICE

WHEREAS, the City of Highland, Madison County, Illinois (hereinafter "City"), is a non-home rule municipality duly established, existing and operating in accordance with the provisions of the Illinois Municipal Code (Section 5/1-1-1 et seq. of Chapter 65 of the Illinois Compiled Statutes); and

WHEREAS, the City of Highland d/b/a Highland Communication Services (hereinafter "HCS") is a Member of the National Telco Television Consortium LLC (hereinafter "NTTC") by way of the City Council's resolution adopted and approved on February 6, 2012, approving the *National Telco Television Consortium Membership Agreement*; and

WHEREAS, the NTTC is now known as Vivicast Media, LLC as successor-in-interest to National Telco Television Consortium, LLC (hereinafter "Vivicast"); and

WHEREAS, City Council desires to obtain for HCS, as a member of Vivicast, the right to participate in the Affiliation Agreement between Vivicast and Smithsonian Network Television Service ("Smithsonian"), for the purpose of obtaining a non-exclusive license and right to distribute certain program services; and

WHEREAS, the Telecommunications Advisory Board, in the exercise of the plenary authority concerning editorial control, conferred on it by Ordinance No. 2399, adopted on January 18, 2010, and by Section 613(e)(2) of the Cable Franchise Policy Act of 1984 (47 U.S.C. §533(a)(2), has determined that HCS' acquisition and distribution of the programming would be appropriate; and

WHEREAS, Vivicast and Smithsonian have provided to HCS, "Vivicast Media LLC, Binding Participating Member Letter of Agreement and Commitment for the Renewal of the Smithsonian Network Television Service" (hereinafter "Agreement") (**Exhibit A** to be attached if passed); and

Subject: Smithsonian Renewal

Recommendation:

I recommend renewing the contract with Vivicast to carry Smithsonian.

Discussion:

NHL provides content expected to be provided by cable operators.

Financial Impact:

Current price is .48 per subscriber. The new rate is .58 through 12/31/21. The increase in TV in April 2021 will account for some increases in content costs.

The Flugel Fest is a unique theme for the area. We hope to draw attention from surrounding communities and St. Louis by bringing in local and regional restaurant vendors and musicians. This is an all-day event that the City intends to grow year after year. Overnight stays will be encouraged for those traveling from neighboring cities. 21) Additional Information: Provide any additional information which will assist the City in evaluating your project and its benefit to the City of Highland (attachments are welcomed). The Square is host to many events and occasions each year that support our community and service organizations, and allow our residents to celebrate special moments. The Parks and Recreation Department budgets carefully each year to be able to maintain and improve the park and fountain. However, some yearly maintenance and repairs could be reduced by implementing improvement projects that are currently beyond the budget. For example a new PA system for the stage could allow for the City to host more events in the Square. 22) Event / Project Budget Please list all revenues and expenses, on a separate sheet (similar format) if necessary. Complete project expense information must be provided on this document. Quoted estimates must be provided when possible and when not possible, describe in an attachment how the expense was estimated.

RESOLUTION NO.

A RESOLUTION WAIVING COMPETITIVE BIDDING REQUIREMENT AND AUTHORIZING THE PURCHASE OF A 2021 FORD INTERCEPTOR SUV FOR THE POLICE DEPARTMENT

WHEREAS, the City of Highland, Madison County, Illinois (hereinafter "City"), is a non-home rule municipality duly established, existing and operating in accordance with the provisions of the Illinois Municipal Code (Section 5/1-1-1 et seq. of Chapter 65 of the Illinois Compiled Statutes); and

WHEREAS, the Police Chief has informed the City Council that the Police Department has a need for Police SUV for use by the Police Department for day-to-day operations; and

WHEREAS, on July 6, 2021, the City Council approved purchasing two new Ford Police Interceptor SUVs ("Police SUVs") from Tri Ford for a total purchase price of \$68,952.00; and

WHEREAS, The Police Chief has informed the City Council that the Police Department was later informed by Tri Ford that the Police SUVs were no longer available, and Tri-Ford could not guarantee the price that was bid due to the model year changing; and

WHEREAS, the Police Chief has informed the City Council that one of the Police SUV's currently being used by Police Department has become a maintenance burden, it has approximately 103,000 miles on the odometer, and currently needs a new transmission estimated to cost more than \$5,000.00; and

WHEREAS, the Police Chief has informed the City Council that due to Police SUV having more than 103,000 miles on the odometer and the \$5,000.00 estimate for the transmission repair, the Police Department does not recommend going forward with the repair, and requests the immediate purchase of a new Police SUV; and

WHEREAS, because one of the Police SUVs has a \$5,000.00 transmission issue, and because the bids from Tri Ford cannot be honored due to model year change, the Police Chief is requesting emergency authorization to purchase a Police SUV from Morrow Brothers Ford for price of \$36,780.00 (*See* Exhibit A) ("Police SUV Quote"); and

WHEREAS, Morrow Brothers Ford currently holds the state contract for police vehicles and they only have one 2021 Police SUV in stock; and

WHEREAS, the Police Chief has informed the City Council there has been money allocated in the budget for the purchase of a new Police SUV for the 2021 fiscal year; and

WHEREAS, the Police Chief has informed the City Council that the Police SUV currently being used by the City for day-to-day operations will eventually be declared surplus and sold; and

WHEREAS, the City Council finds that the Police SUV Quote (**Exhibit A**) for the purchase of the Police SUV for the amount of \$36,780.00 is fair and reasonable and, so, should be approved; and

WHEREAS, the City Council deems it to be in the best interests of City to waive the competitive-bidding requirement that would otherwise apply and to purchase the Police SUV from Morrow Brothers, pursuant to the Police SUV Quote (**Exhibit A**); and

WHEREAS, the City Council also finds that the City Manager and/or Mayor should be authorized and directed, on behalf of the City of Highland, to execute whatever documents are necessary to make the purchase pursuant to the Police SUV Quote (**Exhibit A**).

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Highland, Illinois, as follows:

Section 1. The foregoing recitals are incorporated herein as findings of the City Council of the City of Highland, Illinois. Section 2. The purchase of the Police SUV, for the amount of \$36,780.00, from Morrow Brothers, as set forth in the Police SUV Quote (Exhibit A), is approved. Section 3. The City Manager and/or Mayor is directed and authorized, on behalf of the City of Highland, to execute whatever documents are necessary to make the purchase. Section 4. Waiver - Pick-up Truck

Recommendation

I am seeking City Council support to waive usual and customary bidding procedures to purchase a new Pick-up Truck.

Discussion

Although I had recommended to reject all bids for a new pick-up truck at the June 6, 2021 city council meeting, I have since been approached by Steve Schmitt, Inc. with a recently added truck to their inventory.

As you recall, the bids were rejected due to not meeting the specifications and it was \$10,000 over my budgeted amount. Additionally, the other bid could not guarantee when a truck would arrive, and another was not able to provide a truck according to my specifications.

We are currently reaching a dire situation with our trucks as they are unsafe for staff to drive and the cost of repairs exceeds the value of the trucks. I have included quotes from others as well.

Fiscal Impact

Although this price is slightly higher than the \$28,000 budgeted, with the proposed selling of two (2) trucks in our fleet (1995 & 1996), I feel as though we will be able to cover much of the additional costs.

RESOLUTION NO.

A RESOLUTION APPROVING AMENDED INTERGOVERNMENTAL AGREEMENT BETWEEN CITY OF HIGHLAND AND THE ILLINOIS DEPARTMENT OF TRANSPORTATION FOR 2021 TRAFFIC SIGNAL MASTER AGREEMENT

WHEREAS, the City of Highland, Madison County, Illinois (hereinafter "City"), is a non-home rule municipality duly established, existing and operating in accordance with the provisions of the Illinois Municipal Code (Section 5/1-1-1 et seq. of Chapter 65 of the Illinois Compiled Statutes); and

WHEREAS, City has determined it to be in the best interests of public health, safety, general welfare and economic welfare to enter an intergovernmental agreement, specifically the 2021 Traffic Signal Master Agreement, with the Illinois Department of Transportation ("IDOT") ("Agreement") (See Agreement attached hereto as **Exhibit A**); and

WHEREAS, by previous Resolution, City approved an earlier version of the Agreement; and

WHEREAS, IDOT has revised the Agreement to contain new terms and conditions related to indemnity and contact information; and

WHEREAS, City has determined City's funding responsibility for maintenance of the traffic signals throughout City shall be determined pursuant to the Agreement (Exhibit A); and

WHEREAS, City finds that the terms of Agreement (**Exhibit A**) are fair and reasonable, and that the proposed Agreement (**Exhibit A**) should be approved; and

WHEREAS, City finds that the Mayor and/or City Manager should be authorized and directed, on behalf of City, to execute and date all documents associated with the proposed Agreement (Exhibit A).

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Highland as follows:

INTERGOVERNMENTAL AGREEMENT

This Interagency Agreement is entered into between the <u>City of Highland</u> ("GOVERNMENTAL BODY") and the Department of Transportation ("DEPARTMENT") pursuant to the "Intergovernmental Cooperation Act" (5 ILCS 220) and in accordance with The DEPARTMENT's rules at 92 III. Adm. Code 544.

- Governmental Body and the DEPARTMENT have a mutual interest in and the maintenance and apportionment of energy costs for traffic control devices located on State highways within or near the Governmental Body as shown on the attached Exhibit A, which is hereby made a part of this agreement.
- 2. In furtherance of said interests of, the entities agree:
 - a. **Cost.** The DEPARTMENT and the GOVERNMENTAL BODY agree to the maintenance responsibility and to the division of energy costs, for the traffic signals and other traffic control devices listed on the attached Exhibit A.
 - Maintenance. Modernization of traffic control devices is not covered under this
 agreement. It is agreed that the actual maintenance will be performed by the
 DEPARTMENT indicated on Exhibit A, either with its own forces or through contractual
 agreements
 - c. Maintenance Level. It is agreed that the signals and devices shall be maintained to at least the level of maintenance specified in the attached Exhibit B, which is hereby made a part of this agreement. It is understood this will meet the minimum requirements of the Illinois Manual on Uniform Traffic Control Devices for Streets and Highways. Additional provisions regarding maintenance may be incorporated in this document (Exhibit B) upon agreement by both parties.
 - d. Interconnect & Timing. The DEPARTMENT agrees to maintain all signal equipment and interconnects associated with interconnected signal systems or Advanced Traffic Management System and interconnects with at-grade railroad crossings, at DEPARTMENT maintained locations. The DEPARTMENT shall determine the signal timing to coordinate and regulate the flow of traffic. No signal timing shall be changed at any state system intersection without prior DEPARTMENT approval. The GOVERNMENTAL BODY shall submit to the DEPARTMENT any changes proposed in signal timings.
 - e. Interconnections: Installation & Damage. The DEPARTMENT is not responsible for the cost of installing or maintaining traffic signals not on (but interconnected to traffic signals on) U.S. or State routes. Any damage done to State traffic signals in the attempt to connect local traffic signals shall be repaired to the DEPARTMENT's satisfaction and shall be the responsibility of the GOVERNMENTAL BODY.
 - f. **Master Monitoring Costs.** Master controllers installed on State intersections for the coordination of traffic signals are primarily used for the traffic signals located on U.S. or

State routes. The GOVERNMENTAL BODY may connect traffic signals to a State-owned master controller or Advanced Traffic Management System for the coordination or operation of non-State-owned traffic signals, for the purpose of synchronizing time or gaining remote access. If the GOVERNMENTAL BODY desires a communications link to their office for monitoring purposes, the GOVERNMENTAL BODY shall pay the entire cost of installing and maintaining such monitoring system.

- g. **Payment for Energy Costs.** The DEPARTMENT will reimburse the GOVERNMENTAL BODY for the DEPARTMENT'S proportionate share of the energy charges.
- h. Indemnification. Unless prohibited by State law, the GOVERNMENTAL BODY agrees to hold harmless and indemnify the DEPARTMENT, and its officials, employees, and agents, from any and all losses, expenses, damages (including loss of use), suits, demands and claims, and shall defend any suit or action, whether at law or in equity, based on an alleged injury or damage of any type arising from the actions or inactions of the GOVERNMENTAL BODY and/or the GOVERNMENTAL BODY's employees, officials, agents, contractors and subcontractors, and shall pay all damages, judgments, costs, expenses, and fees, including attorney's fees, incurred by the DEPARTMENT and its officials, employees and agents in connection therewith.

GOVERNMENTAL BODY shall defend, indemnify and hold the DEPARTMENT harmless against a third-party action, suit or proceeding ("Claim") against the DEPARTMENT to the extent such Claim is based upon an allegation that a Product, as of its delivery date under this Agreement, infringes a valid United States patent or copyright or misappropriates a third party's trade secret.

- i. Emergency Vehicle Preemption Devices. The costs of installation, timing, phasing, and maintenance of emergency vehicle preemption systems shall be the sole responsibility of the GOVERNMENTAL BODY. Any Governmental Body must notify the DEPARTMENT of any change in the emergency vehicle preemption system. However, the DEPARTMENT reserves the right to approve or reject, at any time, the placement of such systems on its traffic signal equipment.
- j. Previous Agreements. All traffic signal and traffic control device maintenance and electrical energy provisions contained in presently existing agreements or understandings between the DEPARTMENT and the GOVERNMENTAL BODY for traffic signals and/or other traffic control devices covered by this Master Agreement shall upon execution of this Master Agreement by the DEPARTMENT be superseded and be of no force or effect.

All parking ordinances and provisions bearing on items other than traffic signal and traffic control device maintenance and energy charges contained in presently existing agreements or letters of understanding between the DEPARTMENT and the GOVERNMENTAL BODY shall remain in full force and effect.

- k. Modification. Exhibit A can be modified to add or delete signals or devices, but only by written revision signed by the Regional Engineer, the Engineer of Operations and the authorized representative for the GOVERNMENTAL BODY. The modification shall be effective when fully executed and filed with the Department and the Clerk or Secretary of the GOVERNMENTAL BODY. This provision applies only to modification of Exhibit A.
- Plan Review. All traffic signal plans prepared by others for installation on State highways within municipal corporate limits, which are to be added to this agreement, must be reviewed and approved by the DEPARTMENT and the GOVERNMENTAL BODY.
- m. Cost Sharing. As indicated in Exhibit A, the cost of energy and maintenance of traffic signals, and/or other traffic control devices generally are shared in proportion to the number of approaches maintained by each unit of government, however, other DEPARTMENT policies and practices require cost sharing of energy and maintenance to be based on other criteria besides the number of approaches maintained. The maintenance costs of the interconnect system and related equipment as well as engineering costs for any approved coordination and timing studies shall be shared within the interconnect system, unless otherwise agreed to in a permit or by other agreement.
- n. **Jurisdictionally Transferred.** The GOVERNMENTAL BODY will be responsible for the maintenance costs of all traffic signal and/or other traffic control devices related to a roadway or roadways that has or have been jurisdictionally transferred by the DEPARTMENT to the GOVERNMENTAL BODY in a prior agreement(s).
- o. **Billing.** Bills shall be submitted by the DEPARTMENT on a <u>three (3) month</u> basis. The amount billed shall be the costs incurred less any proceeds from third party damage claims received during the billing period for repair of signals or devices that are the responsibility of the GOVERNMENTAL BODY.
 - i. Any proposed single expenditure in excess of \$10,000 for repair or damage to an installation must be approved by the GOVERNMENTAL BODY before the expenditure is made.
 - ii. The hours, or parts thereof, billed for each maintenance item will be at the actual time directly related to the work task.
 - iii. THE DEPARTMENT costs are composed of labor, equipment, materials and the quantity of each. The cost for labor will be determined by the actual hourly rate for the employee plus a multiplier to include direct and indirect labor related costs, retirement, social security, health, hospitalization and life insurance, holidays, vacation, sick leave and workers compensation. Equipment costs will be as listed in the Schedule of Average Annual Equipment Ownership Expense. Materials will be at cost.

EXHIBIT B SHORT FORM TRAFFIC SIGNAL MAINTENANCE PROVISIONS

A. GENERAL PROVISIONS

CABINET PACK

Wiring diagrams, phase diagrams, and manuals that are required to be in each traffic signal controller cabinet at the time of construction completion shall remain in the cabinet. Written documentation of all traffic signal timing changes shall be provided in the cabinet. All entries shall be written in a clear and concise manner. The agent of the maintaining agency making any entries shall provide his/ her signature and date of entry. These shall be kept in the cabinet to assist the DEPARTMENT on emergency call outs.

2. HARDWARE SPECIFICATIONS

All equipment and material used shall comply with the requirements of the DEPARTMENT's Standard Specifications for Road and Bridge Construction and the district special provisions.

Any costs incurred as a result of exceeding the DEPARTMENT's specifications for installing new equipment or painting new or used equipment; for example, installing decorative-style poles, posts, or mast arm assemblies, will be the sole responsibility of the GOVERNMENTAL BODY.

3. HIGHWAY LIGHTING

For maintenance involving combination traffic signal and lighting unit mast arm assemblies and poles, the foundation, traffic signal mast arm assembly, pole lighting arm, luminaire and lighting cable and all signal cable shall be considered part of the traffic signal system and are the responsibility of the DEPARTMENT.

The highway lighting system components of each combination mast arm assembly and pole shall be tested for proper operation and physical condition during the intersection cabinet inspection. All costs of repairing or replacing damaged or missing non-standard IDOT highway lighting system equipment is the responsibility of the GOVERNMENTAL BODY.

4. EMERGENCY VEHICLE PREEMPTION SYSTEM

Test Emergency Vehicle Preemption System (EVPS) equipment for proper operation and physical condition during the intersection cabinet inspection. All program settings and each sequence of operation must be verified to be correct during each inspection. All cost of inspection and maintaining the EVPS equipment, including the light detectors, light detector amplifiers, radio transmitters and receivers, antennas, confirmation lights, and cables and related components, is the responsibility of the GOVERNMENTAL BODY. In addition to regular inspection and maintenance, all cost of repairing or replacing damaged or missing EVPS equipment is the responsibility of the GOVERNMENTAL BODY.

5. RAILROAD PREEMPTION

At all locations with railroad/traffic signal interconnects, respond to any and all emergency and all red flash alarms in a timely manner and notify the Illinois Commerce Commission and the GOVERNMENTAL BODY of the malfunction.

None of the traffic signal railroad preempt parameters including but not limited to the phase timings, phase sequences and pedestrian and vehicular clearance intervals can be modified without prior approval from the Illinois Commerce Commission.

Maintain unique spare controller data modules or sets of data chips containing the final railroad preemption parameters for each location.

Cooperate in any inspection as deemed necessary by the DEPARTMENT or the Illinois Commerce Commission.

The DEPARTMENT shall provide contact personnel available at all times to who railroad preemption malfunctions must be reported.

6. DAMAGE REPAIRS

Repair or replace any and all standard DEPARTMENT equipment damaged by any cause whatsoever. Equipment owned by a third party, such as EVP, lighted street name signs, TSP, and the like are the responsibility of others.

7. ACCIDENT DAMAGE

Be responsible to make recovery for damage to any part of the installation or system from the party causing the damage.

Whenever third-party claims cannot be recovered, the GOVERNMENTAL BODY shall share in the loss.

8. TEMPORARY TRAFFIC CONTROL

Provide temporary traffic control during a period of equipment failure or for when the controller must be disconnected. This may be accomplished through the installation of a spare controller, placing the intersection on flash, manually operating the controller, manually directing traffic through the use of proper authorities, or installing temporary stop signs which will be removed once the signal is in working condition. Temporary traffic control will not be placed at intersections due to power failures.

9. EMERGENCY PERSONNEL

Provide skilled maintenance personnel who will be available to respond without delay to emergency calls. This may be provided by agency forces, contract, or maintenance agreement. Controller failure, lights out, knockdowns, or two (2) red lights out at intersection are considered emergencies.

B. AS REPORTED OR OBSERVED

1. LAMP REPLACEMENT

Replace burned out lamps for all red signal indications within twenty-four (24) hours of notification of burnout or on the next business day following the notification. However, if two or more red indications for an approach are burned out, these lamps must be replaced as soon as possible, and under no circumstances longer than twenty-four (24) hours after notification. Replace all other burned out lamps within forty-eight (48) hours or next business day of notification of burnout. Lamp changes shall always include a lens cleaning.

2. SIGNAL ALIGNMENT

Keep signal heads properly adjusted, including plumb, and tightly mounted. All controller cabinets, signal posts and controller pedestals should be tight on their foundations and in alignment.

3. CONTROLLER PROBLEMS

Check the controllers, relays, and detectors after receiving complaints or calls to ascertain that they are functioning properly and make all necessary repairs and replacement.

4. L.E.D. SIGNAL HEAD AND L.E.D. MODULE REPLACEMENT

An L.E.D. module shall be considered failed and shall be replaced if the indication is dark or if the module fails to meet ITE specification on minimum maintained luminous intensity.

Replace failed modules for all red signal indications within twenty-four (24) hours of notification of failure or on the next business day following the notification. However, if two or more red indications for an approach are failed, these modules must be replaced as soon as possible, and under no circumstances longer than twenty-four (24) hours after notification. Replace all other failed modules within forty-eight (48) hours or next business day of notification of failure.

C. WEEKLY

1. MASTER CONTROLLER or ADVANCE TRAFFIC MANAGEMENT SYSTEMS At locations that are a part of a closed loop signal or advance traffic management systems maintained by the GOVERNMENTAL BODY, repair any and all malfunctions in a timely manner so that the signals remain under the control of the master at all times.

As needed assist in the implementation of the signal system timing plans.

Maintain the central signal system software on a PC so that the signal system is monitored weekly. Check weekly by phone or location visit for any malfunction. Verify software accuracy to central office software.

D. SEMI-ANNUALLY (Every 6 months)

1. CABINET INSPECTION

Check the controllers, relays, and detectors to ascertain that they are functioning properly and make all necessary repairs and replacement.

Keep interior of controller cabinet in a clean and neat condition at all times. Replace filters per manufacturer's recommendations.

2. OBSERVE SIGNALS

Observe the signals at the time of the semi-annual cabinet inspection. This involves stopping and watching for correct detection and timing operation.

3. DETECTION TESTING

Test and inspect vehicle detection inductance loops, loop detectors, and pedestrian detection during cabinet visit semi-annually.

4. VIDEO DETECTION TESTING

Inspect, maintain, and clean all video detection and surveillance systems semi-annually or as needed, to achieve clean lenses, and adjust for proper alignment and proper focus. This shall include system camera, lenses, camera housings and hood/shield, pan tilt, and zoom mechanisms and motors, mounting brackets and hardware, poles, microprocessors,

controller, cables and communication equipment, and other related components. Maintenance shall include modifications to programmable detection zones.

5. CONTROLLER CHECK

When controllers malfunction, they shall be removed, repaired, and bench checked. The controllers shall not be removed for annual maintenance inspections.

This semi-annual check should verify software with central office software and reprint cabinet pack timings sheet. Controller check shall occur during the semi-annual cabinet inspection.

6. FUSE AND BREAKER CHECKS

Fuse and breaker checks should occur during the semi-annual cabinet inspection. Replace burned out fuses or deteriorated breakers as needed.

7. CLEARANCE TRIMMING

Remove any obstruction blocking the line of sight of the traffic signal face to the motorist including trimming trees, bushes or any other form of vegetation blocking said lines of sight.

E. GENERAL

1. ANNUAL HARDWARE INSPECTION

Inspect all mast arm assemblies, mast arm poles, brackets (or other types of hardware) supporting traffic heads or pedestrian signal heads on an annual basis.

2. CONFLICT MONITOR AND MMU TEST

Test all conflict monitors and MMUs once every two years in accordance with manufacturer recommendations..

4. PAVEMENT MARKINGS

In District 1, the GOVERNMENTAL BODY shall inspect stop bars, symbols, special pavement treatments and crosswalks and replace as necessary to insure proper motorist and pedestrian guidance;

Whereas, in District 2 through District 9, the cost of pavement markings is shared between the DEPARTMENT and the GOVERNMENTAL BODY according to Exhibit A.

MEMO TO: Christopher Conrad, City Manager

FROM:

Joe Gillespie, Director of Public Works

DATE:

August 11, 2021

SUBJECT:

2021 Traffic Signal Master Agreement-Amendment

Recommendation for Approval

RECOMMENDATION

I recommend that you request council approval to approve an amendment to the traffic signal master agreement with the state of Illinois as attached.

DISCUSSION

The intergovernmental agreement outlines responsibilities for maintenance and apportionment of energy costs associated with the numerous traffic signals on state routes in the city and is renewed every 10 years. The agreement was approved at the June 21, 2021 council meeting. The State has revised some language and is requesting additional information be included. The changes are (1) Section 2h regarding indemnification, and (2) Section 3 filling in the information for our city clerk.

FISCAL IMPACT

The work is routinely budgeted through the Street and Alley accounts.
