This section of the City of Highland's annual financial report presents discussion and analysis from City management regarding the City's financial performance during the fiscal year that ended on April 30, 2018 with comparative information for the fiscal year ended April 30, 2017.

#### FINANCIAL HIGHLIGHTS

- Total assets exceeded liabilities at the close of the fiscal year by approximately \$70.8 million (net position). Of this amount, the unrestricted amount of \$8.3 million may be used to meet the City's ongoing obligations to citizens and creditors.
- City-wide net position increased .8% during the fiscal year. Governmental activities increased .1% consistent while a 1.6% increase occurred within enterprise activities.
- The City of Highland is compliant with the GASB 34 reporting model, which requires accounting for depreciation of fixed assets within governmental activities. Shown within the Statement of Net Position, the fixed assets year-end balance for fiscal year 2018 is \$82.4 million (net of depreciation). This is comprised of \$41.7 million for governmental activities plus \$40.7 million for business-type activities.
- Receipts of the traditional sales tax, shown within the "Intergovernmental" revenue line item, increased .2% during FY 2018. According to City estimates, the number of retailers in Highland has not changed dramatically but sales remain consistent.
- FY 2018 was the tenth full year of receipts from the 2006 Non-Home Rule Sales Tax Referendum. This 1% NHR sales tax was estimated to bring in an additional \$1.3 \$1.5 million annually to the City for street projects. Receipts for the year equaled \$1.4 million.
- Building permit activity has begun to rebound. The growth rate of the City's equalized assessed value (EAV), which is an important component in property tax calculations, has also begun to improve as developments begin and improvements are made to existing properties.

#### USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements.

- The Statement of Net Position and the Statement of Activities provide information about the activities of the City as a whole and present a longer-term view of the City's finances.
- For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City's most financially significant funds.
- The Enterprise fund statements display the results of the utility funds for each fiscal year.
- The remaining statements provide financial information about activities for which the City acts solely as a trustee or agent for the benefit of those outside of the government.

#### Reporting the City as a Whole – The Statement of Net Position and the Statement of Activities

One of the most important questions asked about the City's finances is "Is the City as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the City as a whole and about its activities in a way that helps answer this question. These statements include *all* assets and liabilities using the *accrual basis of accounting*, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

### Reporting the City's Most Significant Funds - Fund Financial Statements

Some funds are required to be established by State law and bond covenants. However, the City Council establishes many other funds to help it control and manage money for particular purposes (such as the bonds for Infrastructure Improvements) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money.

The City's three types of funds use different accounting approaches:

• Governmental Funds – Most of the City's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow into and out of these funds and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in the reconciliations within exhibits #4 and #6 of the "Basic Financial Statements" section.

- Enterprise Funds Services for which the City charges customers for the full cost of the services it provides are generally reported in enterprise funds. These business-type activities, like the government-wide statements, provide both long- and short-term financial information. Business-type activities are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities.
- Fiduciary Funds The City has fiduciary responsibility for other assets that because of trust arrangements can be used only for the trust beneficiaries. The City is responsible for ensuring the assets reported in these funds are used for their intended purposes. All of the City's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the City's government-wide financial statements because the City cannot use these assets to finance its operations.

In the supplemental information section, the City has provided detailed schedules of revenues, expenditures, and changes in fund balances for four funds. The City has also included information on its various pension plans in accordance with GASB statutes. In addition, detailed historical data can be found regarding tax levies, building permits, and property values. Information regarding principal taxpayers, overlapping debt, and miscellaneous statistics about the City of Highland are also included. The reports are intended to provide the user with information beyond the realm of the traditional auditing requirements.

#### FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

The following table provides a comparison between the activities for FY '18 and the activities for FY '17 under the GASB Statement No. 34 model. The city-wide total for revenues increased \$1.1 million and expenditures increased \$.8 million compared to the previous fiscal year. Governmental and business type revenues exceeded expenditures for the current and prior fiscal year. The surplus is utilized by the City of Highland to meet the City's fiscal policy in relation to reserves for operations, maintenance, and capital projects and any deficits are covered by surplus created in prior years.

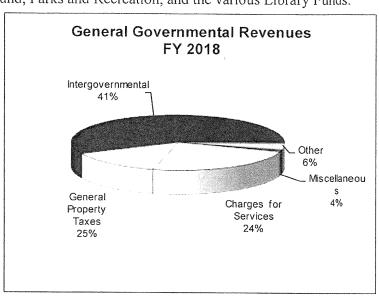

### Changes in the City of Highland's Activities (in millions of dollars)

#### **Governmental Activities**

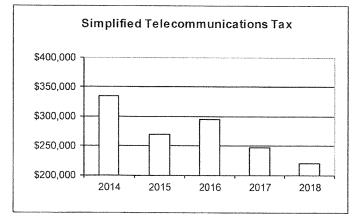

Governmental Activities include all funds except Business-Type Activities and the Police Pension Fiduciary Fund. Examples include the following: General Fund (which includes the Police Dept, Fire Dept, Building and Zoning, General Administration, and PW Admin / Street Dept. among others), Ambulance Fund, Parks and Recreation, and the various Library Funds.

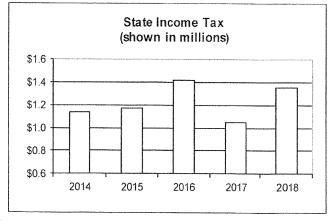

Intergovernmental revenues include revenues due to the City of Highland that pass through the State of Illinois. These include, but are not limited to, sales tax. income tax, and the simplified telecommunications Corporate replacement tax as well fines and forfeitures are included within the "other" category. The "miscellaneous" category includes interest income. "Charges for Services" includes billings from the City's Ambulance service and user fees from Parks & Recreation.

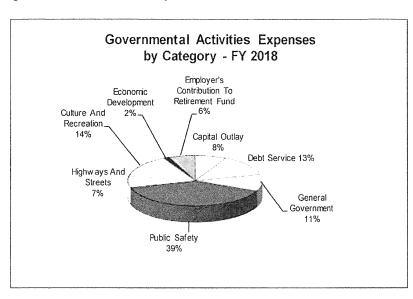

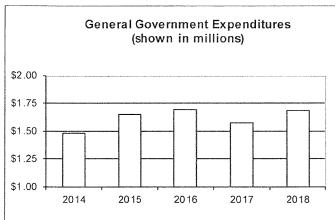

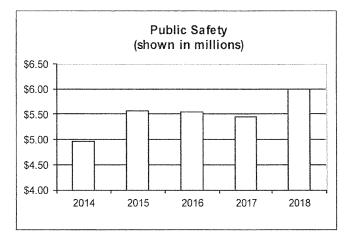

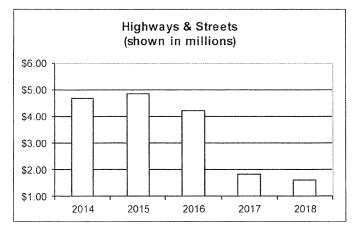

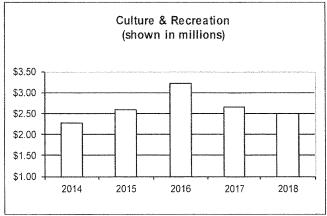

Expenditures of Governmental Activities are spread among a wide variety of functions. Among these are public safety functions of police, fire, and EMS. Also included are the activities highways and streets as well as culture and recreation (parks & recreation / library). These areas funded with are the aforementioned revenues such as property taxes and intergovernmental revenues. The charts included on this page depict governmental activities the expense amounts for the various functions.

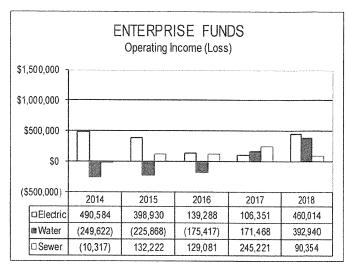

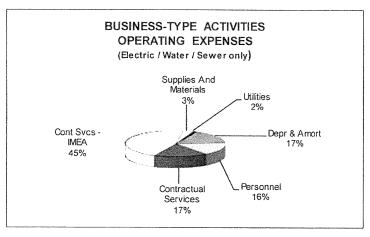

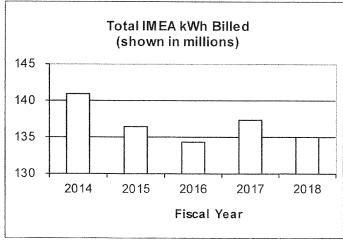

#### **Business-Type Activities**

Business-type activities include revenues and expenditures related to the Electric, Water, Sewer, and Solid Waste funds. Business-type activities do not receive property or intergovernmental taxes. Each enterprise fund operates as an independent entity, relying solely on user fees for operations. The water and sewer funds implemented rate increases in prior years along with an electrical rate increase in January 2017 which allowed the funds to have a positive The electric fund also includes expenditures for installation of the new fiber infrastructure and operations.

No major changes were noted among operating expenses of the Electric, Water or Sewer fund. The operating expenses for the three funds listed increased in total by 2%. City staff works hard to maintain expenses at a level that can be maintained by current revenues.

For the Electric Fund, total operating revenues increased by 3.18% during FY '18 due to a full year of rate increases and additional fiber customers. Total operating expenditures increased by 1% due to additional costs for fiber operations included that will be recovered as revenues continue to grow for this endeavor and modest cost increases in items necessary to provide services.

#### STATUS OF CITY RESERVES

The governmental funds reported a *combined* fund balance of \$12.1 million. The City implemented GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, in a prior fiscal year. This created five new classifications for fund balance reporting including non-spendable, restricted, committed, assigned and unassigned. The classifications are important in determining the order of use for fund balances remaining at year end.

#### CAPITAL ASSET AND DEBT ADMINISTRATION

#### **Capital Assets**

At the end of FY 2018, the City had \$82.4 million (net of depreciation) invested in a range of capital assets that include equipment, building and structures, and infrastructure. Infrastructure is valued based on the composite cost. The straight-line depreciation method is used, with a salvage value always being zero. More detailed information about the City's capital assets can be found in Note 5 of the Notes to the Financial Statements.

The City of Highland transfers amounts between funds for the main purpose of saving for future capital expenditures. Each fund transfers excess funds at year-end to the City Property Replacement Fund where it remains, until needed, to be transferred back for eligible capital purchases. Transfers also exist among funds in order to allocate the general administrative expenses among the appropriate fund. For more information on these interfund transfers see Note 8 in the Notes to the Financial Statements.

#### **Debt Administration**

The City of Highland has no general obligation debt counting against its legal debt limit because the City does not require the use of property taxes for repayment of debt. Debt repayment is accomplished primarily with sales tax revenue and utility sales. The passage of the 2006 Non-Home Rule Sales Tax Referendum is a major reason for this accomplishment. The City of Highland's legal debt limit of \$15.9 million is now fully available upon approval of voter referendum approval. Total City debt per capita is approximately \$2,250. More detailed information about the City's debt can be located in Note 6 of the Notes to Financial Statements.

#### **CURRENT EVENTS AND NEXT YEAR'S BUDGET**

The City of Highland has taken an aggressive approach towards managing the growth of the community. The following is a brief description of some of the actions taken in FY '18, with a brief look ahead into FY '19.

The Fiber-to-the-Premise (FTTP) project continues to gain customers in the available service areas and new serviceable areas are continuing to be constructed. This exciting project continues to grow as customers are added and more citizens realize how valuable these community provided services can be. We look forward to watching this project continue to grow. The Public Works Department has been working towards funding for water main improvements and upgrades to the Water Reclamation Facility. Planning continues for the new public safety facility that has been needed for many years.

Steps have been taken to improve daily operations and help the City become more efficient. The City uses aspects of various performance management tools for budgeting and trend analysis. Under the direction of the City Manager, various committees have been established to review policies and procedures and to take an active role in assisting the City with its management. For example, a Growth Management Committee, comprised of key city staff members, created a growth plan that accounts for the short and long-term needs for each department to ensure that adequate infrastructure and services are available concurrently with new development.

As of April 2018, the City's Equalized Assessed Value increased 2.0% to a total of \$184.0 million. The EAV is used in conjunction with the 2017 Property Tax Levy for the collection of property taxes during FY 2018-2019. The City of Highland's property tax rate for 2017 represents 24% of the total property tax rate in Helvetia Township (Saline Township is nearly identical). The City's portion of the total property tax rate for Highland residents has remained

relatively the same for the past few years. The City strives to maintain its property tax rate at the lowest amount possible while providing the highest quality of service.

#### CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Director of Finance, City of Highland, PO Box 218, Highland, IL 62249.

General information relating to the City of Highland may be found at www.highlandil.gov.

#### INDEPENDENT AUDITOR'S REPORT

To the City Council City of Highland Highland, IL 62249

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Highland, Illinois, as of and for the year ended April 30, 2018, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Highland, Illinois, as of April 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as referred to in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Prior Period Partial Comparative Information

The prior year partial comparative information has been derived from the City of Highland's 2017 financial statements, and in our report dated September 22, 2017, we expressed an unqualified opinion on the respective financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Highland, Illinois' basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Highland, IL October 4, 2018

# CITY OF HIGHLAND, ILLINOIS RECONCILIATIONS OF THE GOVERNMENTAL FUNDS BALANCE SHEETS TO THE STATEMENTS OF NET POSITION APRIL 30, 2018

#### WITH COMPARATIVE AMOUNTS FOR APRIL 30, 2017

|   |   | 201   | 8                        |    | 2017   |                          |
|---|---|---|--------------------------|----|--|--------------------------|
| Total fund balances for governmental funds  | *************************************** | \$  | 12,094,004               |    | \$   | 11,467,443               |
| Total net position reported for governmental activities in the statements of net position is different because:   |   |   |                          |    |  |                          |
| Capital and intangible assets used in governmental activities are not financial resources and therefore are not reported in the funds. Those assets consist of:  Land  Construction in progress  Infrastructure, net of accumulated depreciation  Buildings and improvements, net of accumulated depreciation  Other improvements, net of accumulated depreciation  Equipment, net of accumulated depreciation  | \$                                      | 7,757,958<br>667,265<br>24,357,369<br>4,430,104<br>3,320,521<br>1,152,559       | 41,685,776               | \$ | 7,757,958<br>774,269<br>25,580,841<br>4,653,693<br>2,929,231<br>1,368,963      | 43,064,955               |
| Certain premiums paid on investments are not financial resources and therefore are not reported in the funds. Those premiums consist of:  Bond premiums paid on certificates of deposit   |   |   | 163                      |    |  | 353                      |
| Deferred outflows and inflows of resources related to defined benefit pensions are applicable to future periods and, therefore, are not reported in the funds.  Deferred outflows of resources related to pensions  Deferred inflows of resources related to pensions   |   |   | 3,220,708<br>(3,176,109) |    |  | 3,950,875<br>(1,180,372) |
| Certain liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. All liabilities (both current and long-term) are reported in the statement of net position. Those liabilities consist of:  Accrued interest  Bonds and notes payable  Bond premium, net of accumulated amortization  Net pension liability  Other post employment benefits  Compensated absences | \$                                      | (1,120,349)<br>(8,584,731)<br>(23,096)<br>(6,603,429)<br>(407,187)<br>(736,629) | (17,475,421)             | \$ | (983,240)<br>(10,397,103)<br>(35,873)<br>(8,514,771)<br>(340,314)<br>(724,307) | (20,995,608)             |

# CITY OF HIGHLAND, ILLINOIS RECONCILIATIONS OF THE STATEMENTS OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENTS OF ACTIVITIES FOR THE YEAR ENDED APRIL 30, 2018 WITH COMPARATIVE AMOUNTS FOR APRIL 30, 2017

| Net change in fund balances - total governmental funds  | 2018<br>\$ 626,561 | 2017<br>\$ 589,233 |
|---|--------------------|--------------------|
| Amounts reported for governmental activities in the statements of activities are different because:   |                    |                    |
| Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets. This is the amount by which depreciation expense exceeded capital outlay in the current period. | (1,379,179)        | (976,545)          |
| In the governmental funds, bond and CD premiums are amortized over the life of the bonds and this amortization reduces the amount of interest expense recorded on the bonds. This amount represents the net effect of the amortization of bond and CD premiums.                 | 12,587             | 12,587             |
| Proceeds from new notes payable are recorded as revenues in the governmental funds but increase liabilities in the statement of net position.   | 0                  | (221,000)          |
| Some expenses, including accrued interest and compensated absences, reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.   | (149,431)          | (151,966)          |
| Governmental funds report defined benefit pension contributions as expenditures. However in the Statement of Activities, the cost of defined benefit pension benefits earned net of employee contributions is reported as pension expense.                                      | (814,562)          | (887,418)          |
| Other post employment benefits is a liability held by the City that is not due and payable in the current period and accordingly, is not reported as a liability in governmental funds.   | (66,873)           | (65,071)           |
| Repayment of principal is an expenditure in the governmental funds but reduces the liability in the statement of net position.  | 1,812,372          | 1,743,264          |
| Change in net position of governmental activities   | \$ 41,475          | \$ 43,084          |

#### CITY OF HIGHLAND, ILLINOIS NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED APRIL 30, 2018

#### NOTE 1. SIGNIFICANT ACCOUNTING POLICIES

The City of Highland, Illinois, was incorporated April 4, 1884. The City is a non-home rule unit and operates under a managerial council form of government. Under this form of government the City council is legislative, except that it is empowered to approve all expenses and liabilities, and the manager is the administrative and executive head of government.

The accounting policies of the City of Highland conform to generally accepted accounting principles as applicable to governments. The following is a summary of the significant policies:

#### (A) PRINCIPLES USED TO DETERMINE SCOPE OF ENTITY

The City's reporting entity includes the City's governing board and all related organizations for which the City exercises significant influence.

The City has developed criteria to determine whether outside agencies with activities which benefit the citizens of the City should be included within its financial reporting entity. The criteria includes, but is not limited to, whether the City exercises significant influence (which includes financial benefit or burden, appoints a voting majority, ability to significantly impose its will, and fiscal independence).

The City has determined that a component unit exists as of April 30, 2013. The Industrial Development Commission (IDC) was established by the City Council pursuant to the authority conferred by Section 11-74-4(8) of the Industrial Project Revenue Act (65 ILCS 5/11-74-4(8)) by Ordinance #2365 adopted and approved on July 6, 2009. The IDC meets monthly and makes recommendations about economic development decisions to the City Council. The IDC is a discretely presented component unit.

#### (B) BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION

The accounting policies of the City of Highland, Illinois, conform to accounting policies generally accepted in the United States of America as applicable to governmental units. The accepted standard setting body for establishing governmental accounting and financial reporting principles is the Governmental Accounting Standards Board (GASB).

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which is segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

The City's funds are grouped into three broad fund categories and six generic fund types for financial statement presentation purposes. Governmental funds include the general, special revenue, debt service and capital projects funds. Proprietary funds include enterprise funds. The City also has one fiduciary agency fund.

#### CITY OF HIGHLAND, ILLINOIS NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED APRIL 30, 2018

#### NOTE 1. <u>SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)</u>

#### (i) GOVERNMENT-WIDE FINANCIAL STATEMENTS

The statement of net position and the statement of activities display information about the City and the primary government, as a whole, excluding fiduciary activities such as employee pension plans. These statements distinguish between activities that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting generally including the reclassification or elimination of internal activity (between or within funds). This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Therefore, governmental fund financial statements include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the governmental fund statements.

The government-wide statement of activities presents a comparison between expenses, both direct and indirect, and program revenues for each segment of the business-type activities of the City and for each governmental program. Direct expenses are those that are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the City.

Net position should be reported as restricted when constraints placed on the net position's use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws and regulations of other governments, imposed by law through constitutional provisions or enabling legislation. The net position restricted for other purposes results from special revenue funds and the restrictions on its net position use.

#### (ii) FUND FINANCIAL STATEMENTS

Fund financial statements report detailed information about the City. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

The City reports the following major governmental funds:

General Fund - The government's primary operating fund. This fund is used to account for and report all financial resources not accounted for or reported in another fund.

<u>Special Revenue</u> - <u>Ambulance</u> - The fund that accounts for proceeds of specific revenue sources (other than those for major capital projects) that are restricted or committed to expenditure for the specified purposes of providing ambulance services.

#### CITY OF HIGHLAND, ILLINOIS NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED APRIL 30, 2018

#### NOTE 1. <u>SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)</u>

<u>Capital Projects</u> - <u>City Property Replacement</u> - This fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlay, including the acquisition or construction of capital facilities (other than those financed by proprietary funds and trust funds).

<u>Capital Projects</u> - <u>Street Improvement</u> - This fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlay, including the acquisition or construction of major street and infrastructure improvements.

The City reports the following major proprietary funds:

<u>Light and Power Fund</u> - This fund operates the electrical distribution system and includes the fiber-optic system that provides high-speed internet, television, and telephone services to customers in Highland.

Water Fund - This fund operates the water distribution system.

<u>Sewer Fund</u> - This fund operates the sewer treatment plant, sewage pumping stations, and collection systems.

Solid Waste Fund - This fund operates the collection of solid waste pickup.

#### (iii) GOVERNMENTAL FUNDS

All governmental funds are accounted for using the modified accrual basis of accounting and the current financial resources measurement focus. Under this basis revenues are recognized in the accounting period in which they become measurable and available. The length of time to define available is 60 days or less. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable.

#### (a) REVENUE RECOGNITION

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available. This concept includes investment earnings, fines and forfeitures, and state-levied locally shared taxes (including motor vehicle fees).

Property taxes and special assessments (in the debt service funds), though measurable, are not available soon enough in the subsequent year to finance current period obligations. Therefore, property tax and special assessment receivables are recorded and offset with a deferred inflow of resources until they become available.

Other revenues, including licenses and permits, certain charges for services, and miscellaneous revenues, are recorded as revenue when received in cash because they are generally not measurable until actually received.

#### NOTE 1. <u>SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)</u>

#### (b) EXPENDITURE RECOGNITION

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Most expenditures are measurable and are recorded when the related fund liability is incurred. However, principal and interest on general long-term debt, which has not matured, is recognized when paid. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds.

#### (iv) PROPRIETARY FUNDS

All proprietary funds are accounted for using the accrual basis of accounting. These funds account for operations that are primarily financed by user charges. They report charges for services and connection fees as operating revenues, and items such as interest income, grants, and other miscellaneous items as non-operating revenues. The economic resource focus determines costs as a means of maintaining capital investment and management control. Their revenues are recognized when they are earned and their expenses are recognized when they are incurred. Allocations of costs, such as depreciation, are recorded in proprietary funds, and unbilled utility receivables are recorded at each year end.

#### (v) FIDUCIARY FUNDS

The City currently has one fiduciary fund. The Policemen's Pension Trust Fund is used to account for pension assets held by the City in a trustee capacity. This fund is accounted for and reported in a manner similar to proprietary funds since capital maintenance is critical.

#### (C) <u>VACATION AND SICK LEAVE</u>

Vacation leave is accrued for full-time employees, temporary employees, and supervisors of the City at the rate of one average work week per year upon completion of the first year of continuous service. These employees are granted two average work weeks per year following completion of the second year of continuous service through the sixth year. For the seventh through the eleventh year, three average work weeks are earned per year. From the twelfth through the twentieth year, four average work weeks are earned per year and five average work weeks per year are earned following the twentieth year and thereafter. Sick leave is accrued for full-time City employees at the rate of 13 days a year. These employees can accumulate 30 days of vested sick pay and an additional 60 days of non-vested sick pay. Terminated employees are compensated for sick leave up to 30 days. The City does not accrue the additional 60 days of sick pay, representing \$698,947 of benefits, which are non-vesting. However, for the accrued vacation and vested sick pay days, the City is liable in the approximate amount of \$736,629 for payments to qualified employees of the governmental activities and \$345,208 for payments to qualified employees of the business-type activities.

#### NOTE 1. <u>SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)</u>

#### (D) CASH AND INVESTMENTS

The City maintains an investment pool that is available for use by all funds, except those of certain special revenue and agency funds. The City maintains a separate accounting of each fund's balance in the pool. Additionally, the City participates in the Illinois Fund. Investment income earned on pooled investments is distributed to the appropriate funds based on the average daily balance of the investments in each fund.

Investments are stated at fair value. Fair value for investments is determined by closing market prices at year-end as reported by the investment custodian.

All cash and investments of the proprietary funds are considered highly liquid, as these funds participate in the City's investment pool. Consequently, these are considered to be cash and cash equivalents for cash flow purposes.

Restricted cash on the financial statements represents cash for customer deposits, street bonds, fiber bonds, electric bonds, and TIF bonds.

#### (E) GOVERNMENTAL RECEIVABLES

Long-term receivables due to governmental funds are reported on the balance sheets, in spite of their spending measurement focus. However, special reporting treatments are used to indicate that they should not be considered "available spendable resources", since they do not represent net current assets. Recognition of governmental fund type revenues represented by noncurrent receivables is deferred until they become current receivables. The City has determined that an allowance for uncollectible receivables is not needed based on prior years' collections.

#### (F) ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

#### (G) DEBT PREMIUMS, DISCOUNTS, AND ISSUANCE COSTS

On the government-wide statement of net position and the proprietary fund statement of net position, debt premiums and discounts are shown separately from debt payable, and debt issuance costs are recognized as an outflow of resources in the period incurred. In addition, unamortized debt premiums and discounts are deferred and amortized over the life of the debt using the straight-line method.

At the government fund reporting level, debt premiums and discounts are reported as inflows or outflows of resources in the period incurred.

#### NOTE 1. <u>SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)</u>

#### (H) NET POSITION

Net position is calculated by taking assets plus deferred outflows of resources less liabilities and deferred inflows of resources. The portion of net position that is titled "Invested in Capital Assets, Net of Related Debt" is capital assets less accumulated depreciation and outstanding debt related to the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are legal limitations imposed on its use by City legislation or external restrictions by other governments, creditors, or grantors. The City's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

#### (I) <u>DEFERRED OUTFLOWS/INFLOWS OF RESOURCES</u>

In addition to assets, the statement of financial position and balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period, and therefore, will not be recognized as an outflow of resources until that time. The government-wide statements report deferred outflows of resources related to the pension plans. This deferred outflow represents the combination of changes in assumptions and the difference between projected and actual earnings on pension plan investments to be recognized in a future period.

In addition to liabilities, the statement of financial position and balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period, and therefore, will not be recognized as an inflow of resources (revenue) until that time. The government-wide statements report unavailable revenues from property taxes and amounts related to pension plans. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

#### (J) CAPITAL ASSETS AND DEPRECIATION

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. General capital assets are long-lived assets of the City as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized in government-wide statements. Infrastructure such as streets, traffic signals and signs are capitalized in the government-wide statements. The valuation basis for general capital assets is historical cost, or where historical cost is not available, estimated historical cost based on replacement cost. Donated fixed assets are reported at their fair value as of the date received. The City maintains a capitalization threshold of \$15,000.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation basis for proprietary fund capital assets is the same as those used for the general capital assets.

Depreciation of capital assets is computed and recorded by the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows: buildings - 20 to 50 years; improvements/infrastructure - 5 to 50 years; equipment - 3 to 25 years.

#### NOTE 1. <u>SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)</u>

#### (K) GOVERNMENTAL FUND BALANCES

The City elected to implement GASB No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, in the fiscal year ended April 30, 2012. In the fund financial statements, governmental funds report the following classifications of fund balance:

Nonspendable – Amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

<u>Restricted</u> – Amounts with constraints placed on the use of resources by creditors, grantors, contributors, or laws or regulations of other governments; or through constitutional provisions or enabling legislation.

<u>Committed</u> – Amounts that can only be used for specific purposes pursuant to constraints imposed by the City Council through an ordinance or resolution. The City had no committed fund balances on April 30, 2018 and 2017.

<u>Assigned</u> – Amounts that are constrained by an intent to be used for specific purposes but are neither restricted nor committed. The City Council has designated the City Manager and Finance Director the authority to make assignments.

<u>Unassigned</u> – All amounts not included in other spendable classifications.

For the classification of fund balance, the City requires restricted amounts to be spent first when both restricted and unrestricted fund balances are available unless there are legal documents or contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the City would first use committed fund balances, followed by assigned fund balances and then unassigned fund balances when more than one classification for unrestricted fund balances are available.

#### (L) COMPARATIVE DATA

Comparative data for the prior year has been presented in the accompanying financial statements in order to provide an understanding of changes in the City's financial position and operations. However, comparative notes to the financial statements have not been presented since their inclusion would make the notes to the financial statements unduly complex and difficult to read.

#### (M) <u>RECLASSIFICATIONS</u>

Certain accounts related to the prior year have been restated to conform to current year's presentation. The reclassifications have no effect on net position.

#### NOTE 2. CASH AND INVESTMENTS

Cash and investments as of April 30, 2018, including fiduciary funds, are classified in the accompanying financial statements as follows:

|                   |     | Primary    | Co | mponent |
|-------------------|-----|------------|----|---------|
|                   | _ G | lovernment |    | Unit    |
| Total Cash        | \$  | 9,156,485  | \$ | 42,957  |
| Illinois Funds    |     | 299,416    |    |         |
| Total Investments |     | 20,489,374 |    |         |
| Total             | \$  | 29,945,275 | \$ | 42,957  |

Cash includes \$850 of cash on-hand and \$9,155,635 of deposits with financial institutions for the primary government and \$42,957 deposited in a financial institution for the component unit.

The City may invest in any type of security allowed by Illinois Law (Public Funds Investment Act of the State of Illinois: 30 ILCS 235/1 et. Seq. as amended). The summary of the allowable instruments are: Passbook Savings Account, NOW, Super NOW, and Money Market Accounts; Commercial Paper - issuer must be a U.S. corporation with more than \$500,000,000 in assets, rating must be within 3 highest qualifications by 2 standard rating services, must mature within 180 days of purchase, and such purchase cannot exceed 10% of the corporation's outstanding obligations, State treasurer's investment pool; Money Market Mutual Funds - registered under the Investment Company Act of 1940, provided the portfolio is limited to bonds, notes, certificates, treasury bills, or other securities which are guaranteed by the federal government as to principal or interest; Repurchase Agreement - collateralized by full faith in credit U.S. Treasury securities; Certificates of deposit and time deposits, constituting direct obligations of any bank as defined by the Illinois Banking Act and only those insured by the FDIC, legally issuable by savings and loan associates incorporated under the laws of the State of Illinois or any other state or under the laws of the United States and only in those savings and loan associations insured by SAIF, bonds, notes, certificates of indebtedness, treasury bills or other securities which are guaranteed by the full faith and credit of the United States of America as to principal and interest, obligations of United States government agencies which are guaranteed by the full faith and credit of the United States government, short-term discount obligations of the Federal National Mortgage Association, insured account of credit unions whose principal office is in Illinois, various tax-exempt securities, and Illinois liquid assets.

The City's Police Pension Fund is regulated by the Illinois Department of Insurance — Public Pension Division. The Police Pension Fund may invest assets in treasury bills, treasury notes and bonds, bank loan deposits, the state investment pool, zero coupon bonds, guaranteed investment contracts, mutual funds containing stocks, bonds, money market instruments and real estate, mortgage pass-through securities, State of Illinois bonds, tax anticipation warrants, and credit union investments.

When permitted by law, the City will pool cash from several different funds that are accounted for in the City's annual financial report to maximize investment earnings. Investment income will be allocated to the various funds based on their respective participation and in accordance with generally accepted accounting principles.

#### NOTE 2. CASH AND INVESTMENTS (CONTINUED)

The primary objectives, in priority order, of investment activity shall be safety, liquidity, and yield. Investments shall be made with judgment and care, under circumstances then prevailing, with persons of prudence, discretion, and intelligence who exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived.

Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with the proper execution of the investment program, or which could impair their ability to make impartial investment decisions. City officials and employees shall disclose to the City any material financial interest in financial institutions that conduct business with the City, and they shall further disclose any large personal financial or investment positions that could be related to the performance of the City's portfolio. The City Treasurer, financial officers and others employed in a similar capacity shall refrain from undertaking personal investment transactions with the same individual with whom business is conducted on behalf of their entity.

Authority to manage the investment program is granted to the Director of Finance and derived from the following: 65 ILCS 5/3.1-35-50 and the City of Highland Code by Resolution No. 99-12-1304.

Third party safekeeping is required for all collateral and for all securities. Safekeeping will be documented by an approved written agreement. This may be in the form of a safekeeping agreement, trust agreement, escrow agreement, or custody agreement.

Any financial institution selected by the City shall provide normal banking services, including, but not limited to: checking accounts, wire transfers, purchase and sale of United States Treasury securities, and safekeeping services.

The City will not maintain funds in any financial institution that is not a member of the FDIC or SAIF system. In addition, the City will not maintain funds in any institution not willing to or capable of posting required collateral for funds in excess of FDIC or SAIF insurable limits.

Fees for banking services shall be mutually agreed to by an authorized representative of the depository bank and the Director of Finance in consultation with the City Manager and shall not be agreed to for any period exceeding three (3) years. Fees for services shall be substantiated by a monthly account analysis and shall be reimbursed by means of compensating balances.

All financial institutions acting as a depository for the City must enter into a "Depository Agreement". All financial institutions and brokers/dealers who desire to become qualified bidders for investment transactions must supply the following upon request by the Director of Finance or an agent of the Director of Finance: audited financial statements, proof of National Association of Securities Dealers (NASD) certification, proof of state registration, completed broker/dealer questionnaire, and certification of having read the City's investment policy.

Investments are measured at fair value on a recurring basis. Recurring fair value measurements are those that GASB Statements require or permit in the statement of net position at the end of each reporting period. Fair value measurements are categorized based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

#### NOTE 2. <u>CASH AND INVESTMENTS (CONTINUED)</u>

The following table presents the fair value hierarchy for the balances of the investments of the City's Governmental Funds measured at fair value on a recurring basis as of April 30, 2018:

| Investment Type                      | Level 1         | L  | evel 2 | Le | vel 3 | Total           |
|--------------------------------------|-----------------|----|--------|----|-------|-----------------|
| Certificates of Deposit - Negotiable | \$<br>3,995,481 |    |        |    |       | \$<br>3,995,481 |
| Mutual Funds                         | 7,032           |    |        |    |       | <br>7,032       |
|                                      | \$<br>4,002,513 | \$ | 0      | \$ | 0     | \$<br>4,002,513 |

The following table presents the fair value hierarchy for the balances of the investments of the City's Police Pension Fund measured at fair value on a recurring basis as of April 30, 2018:

| Investment Type      | Level 1       | Level 2 | Level 3 | Total         |
|----------------------|---------------|---------|---------|---------------|
| Corporate & US Bonds | \$ 3,485,376  |         |         | \$ 3,485,376  |
| Mutual Funds         | 6,929,134     |         |         | 6,929,134     |
|                      | \$ 10,414,510 | \$ 0    | \$ 0    | \$ 10,414,510 |
|                      |               |         |         |               |

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The assets measured at fair value for both the Governmental Funds and the Police Pension Fund are valued at the closing price reported on the active market on which the individual securities are traded.

#### (A) INTEREST RATE RISK

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, an investment with a longer maturity date will have a greater sensitivity of its fair value to changes in market interest rates. One of the ways the City manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flow from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the City's investments to market rate fluctuations is provided in the following table. As of April 30, 2018 the City had the following investments and maturities:

|  |    |            | 1                 | 2 Months  | 13-36           | 37-60        |    | > 60      |
|--|----|------------|-------------------|-----------|-----------------|--------------|----|-----------|
| Investment Type                          | 1  | Fair Value |                   | or Less   | <br>Months      | Months       |    | Months    |
| Certificates of Deposit - Negotiable     | \$ | 3,995,481  | \$                | 1,071,403 | \$<br>1,820,448 | \$ 1,103,630 |    |           |
| Certificates of Deposit - Non-Negotiable |    | 6,072,351  |                   | 1,641,159 | 2,092,000       | 2,230,392    | \$ | 108,800   |
| Corporate & US Bonds                     |    | 3,485,376  |                   |           | 887,765         | 780,581      |    | 1,817,030 |
| Mutual Funds                             |    | 6,936,166  | U-Marian American | 6,936,166 | <br>            | <u> </u>     | -  |           |
| Total                                    | \$ | 20,489,374 | \$                | 9,648,728 | \$<br>4,800,213 | \$ 4,114,603 | \$ | 1,925,830 |

#### NOTE 2. CASH AND INVESTMENTS (CONTINUED)

#### (B) <u>CREDIT RISK</u>

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The City's state investment pool has earned Standard and Poor's highest rating (AAAm). The Policemen's Pension Trust Fund can also invest in stocks, bonds, and mutual funds. The mutual funds held by the Policemen's Pension Trust Fund are not rated for credit risk. The City's bond holdings of the Policemen's Pension Trust Fund have earned at least Standard and Poor's "BBB" rating.

#### (C) <u>CUSTODIAL CREDIT RISK</u>

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. All deposits are carried at cost plus accrued interest.

The City's balance in the state investment pool is fully collateralized. The City maintains a separate investment account representing a proportionate share of the pool assets and respective collateral; therefore no collateral is identified with each individual participant's account. As of April 30, 2018, the balance in the City's state investment pool was \$299,416.

The City's cash deposits, including the fiduciary fund, at April 30, 2018 consisted of the following:

| Depository Account            | Primary<br>Sovernment<br>ank Balance | mponent<br>Unit<br>k Balance |
|-------------------------------|--------------------------------------|------------------------------|
| Insured                       | \$<br>10,147,280                     | \$<br>42,957                 |
| Collateralized:               |                                      |                              |
| Held by pledging bank's trust |                                      |                              |
| department in the City's name | 9,407,047                            |                              |
| Total Deposits                | \$<br>19,554,327                     | \$<br>42,957                 |

#### (D) CONCENTRATIONS OF CREDIT RISK

The City's investment policy limits the amount of funds deposited and/or invested in a financial institution. Deposits/investments shall not exceed 65% of a capital stock and surplus of such institution unless collateral security has been pledged, in which case the amount of such deposits and/or investments shall not exceed 75%.

Investments in any one issuer that represent 5% or more of the total City investments are as follows:

|                   | Investment              | ]  | Reported  |
|-------------------|-------------------------|----|-----------|
| Issuer            | Туре                    |    | Amount    |
| FCB Highland Bank | Certificates of Deposit | \$ | 1,279,447 |

#### NOTE 3. RISK MANAGEMENT

The City of Highland is exposed to risks of loss from normal items typically applicable to all municipalities. These include liability, worker's injury, property damage, and other risks that are too numerous to mention. To reduce the City's risk of loss from damages and claims, the City has purchased commercial insurance from the Illinois Municipal League, which provides insurance coverage for property and liability claims for over 600 Illinois municipalities. Settlement claims have not exceeded insurance coverage for each of the past three fiscal years.

#### NOTE 4. PROPERTY TAXES

The City's property tax is levied each year on all taxable real property located in the City on or before the last Tuesday in December. The 2017 levy was passed by the Council on December 18, 2017. Property taxes attach as an enforceable lien on property as of January 1, and are payable in four installments for 2018: July 5, September 5, October 5, and December 5. The County has not mailed tax bills as of April 30, 2018. The City receives significant distributions of tax receipts approximately one month after the bills are mailed by the County. In conjunction with NCGA Interpretation #3, revenue is accrued in the year of the levy to the extent that it is due to be paid by the taxpayer by April 30, 2018 and is expected to be collected soon enough after April 30, 2018 to be used to pay liabilities by June 30, 2018 (60 days or less) and has been budgeted for the current year.

#### NOTE 4. PROPERTY TAXES (CONTINUED)

The following are the tax rates applicable to the various levies per \$100 of assessed valuation:

|                        | MAXIMUM |        |        |        |        |        |        |        |

The City has established two tax increment financing (TIF) districts to encourage development within the redevelopment project areas and to enhance the value of those properties. In connection with the agreements of the redevelopment project areas, the real estate taxes, which relate to the incremental increase in property values within the redevelopment project areas, are paid directly to the TIF districts for investing in redevelopment projects within the TIF districts.

#### NOTE 5. <u>CAPITAL ASSETS</u>

Revenue bonds and notes payable at April 30, 2018 were comprised of the following individual issuances:

#### Revenue Bonds

Governmental Activities: The Korte Recreation Facility bonds were refinanced on August 4, 2014. The total bond principal amount is \$2,595,000. The bonds are being repaid in semi-annual installments representing interest at variable rates of .45% to 2.10% and annual principal installments beginning April 2015. The maturity dates of these refinanced bonds is October 1, 2020. Total interest due on remaining balance is \$36,505. 1,265,000 The 2007 Street alternate bonds were refinanced on August 4, 2014. The total bond principal amount is \$4,620,000. The bonds are being repaid in semi-annual installments representing interest at variable rates of .40% to 2.00% and annual principal payments beginning January 1, 2015. Total interest due on remaining balance is \$11,760. 735,000 2010 street alternate bonds are due in annual installments ranging from \$211,156 to \$381,787 beginning January 2020 through January 2030. Beginning in fiscal year 2011, the bond starts compounding interest at 3.70% to 4.95%. Revenue bonds were issued for future improvements to the City's streets. Total interest due on remaining balance is \$2,690,633. 3,199,367 Revenue bonds due in annual installments of \$175,000 to \$280,000 through January 2032 with average interest rate of 3.2%. The City issued bonds in 2012 to fund infrastructure improvements and reimburse certain redevelopment costs for the new hospital built in the City's TIF District #2. Total interest remaining \$854,774. 3,210,000 Total Revenue Bonds - Governmental Activities 8,409,367

There are a number of limitations and restrictions contained in the various bond indentures.

The City was in compliance with all significant limitations and restrictions.

#### NOTE 7. RETIREMENT FUND COMMITMENTS

#### (A) ILLINOIS MUNICIPAL RETIREMENT FUND - REGULAR AND SLEP EMPLOYEES

#### (i) PLAN DESCRIPTION

The City of Highland's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The City of Highland's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this note. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. This report is available for download at <a href="https://www.imrf.org">www.imrf.org</a>.

#### (ii) BENEFITS PROVIDED

IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

#### NOTE 7. RETIREMENT FUND COMMITMENTS (CONTINUED)

All three IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

#### (iii) EMPLOYEES COVERED BY BENEFIT TERMS

As of December 31, 2017, the following employees were covered by the benefit terms:

|  | REGULAR | SLEP |
|--|---------|------|
|  | PLAN    | PLAN |
| Retirees and Beneficiaries currently receiving benefits          | 79      | 0    |
| Inactive Plan Members entitled to but not yet receiving benefits | 50      | 1    |
| Active Plan Members  | 111     | 0    |
| Total  | 240     | 1    |

#### (iv) CONTRIBUTIONS

#### (a) REGULAR PLAN

As set by statute, the City's Regular plan members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The City's annual required contribution rate for calendar year 2017 was 10.98%. For the fiscal year ended April 30, 2018, the City contributed \$721,300 to the plan. The City also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

#### NOTE 7. RETIREMENT FUND COMMITMENTS (CONTINUED)

#### (b) <u>SLEP PLAN</u>

As set by statute, the City's Regular plan members are required to contribute 7.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The City's annual required contribution rate for calendar year 2017 was 13.36%. For the fiscal year ended April 30, 2018, the City contributed \$0 to the plan. The City also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

#### (v) NET PENSION LIABILITY

The City of Highland's net pension liability was measured as of December 31, 2017. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

#### (vi) <u>ACTUARIAL ASSUMPTIONS</u>

The following are the methods and assumptions used to determine total pension liability at December 31, 2017.

Actuarial Cost Method

Entry Age Normal

Asset Valuation Method

Market Value of Assets

Price Inflation

2.50%

Salary Increases

3.39% to 14.25% including inflation

Investment Rate of Return:

Regular 7.50%

SLEP

7.50%

Retirement Age

Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2017 valuation pursuant to an experience study of

the period 2014-2016.

Mortality

For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

Other Information:

Notes

There were no benefit changes during the year.

A detailed description of the actuarial assumptions and methods can be found in the December 31, 2017 Illinois Municipal Retirement Fund annual actuarial valuation report.

#### NOTE 7. RETIREMENT FUND COMMITMENTS (CONTINUED)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2017:

|                         |            | Long-Term  |
|-------------------------|------------|------------|
|                         | Portfolio  | Expected   |
|                         | Target     | Real Rate  |
| Asset Class             | Percentage | of Return  |
| Domestic Equity         | 37%        | 6.85%      |
| International Equity    | 18%        | 6.75%      |
| Fixed Income            | 28%        | 3.00%      |
| Real Estate             | 9%         | 5.75%      |
| Alternative Investments | 7%         | 2.65-7.35% |

|                         |            |            |

#### (vii) SINGLE DISCOUNT RATE

A Single Discount Rate of 7.50% for both the regular plan and the SLEP plan was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- 2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on pension plan investments is 7.50%, the municipal bond rate is 3.31%, and the resulting single discount rate is 7.50%.

| Total        | \$                                | (1,811,526)  | \$ | (21,419)     |  |          |

#### (B) POLICE PENSION

#### (i) PLAN ADMINISTRATION

Police sworn personnel are covered by the Police Pension Plan which is a defined benefit single employer pension plan. Although this is a single employer pension plan, the defined benefits and employee and employer contributions level are governed by Illinois Compiled Statutes (Chapter 40 ILCS 5/3) and may be amended only by the Illinois Legislature. The City accounts for the plan as a pension trust fund.

The plan is governed by a five member Board of Trustees. Two members of the board are appointed by the City, two are active members of the police department elected by the membership, and one is a retired member of the police department elected by the membership.

At April 30, 2017, the Police Pension Plan membership consisted of:

| Inactive Plan Members of Beneficiaries Currently Receiving Benefits | 12 |
|---|----|
| Inactive Plan Members Entitled to but Not Yet Receiving Benefits    | 2  |
| Active Plan Members   | 20 |
| Total   | 34 |

#### (ii) BENEFITS PROVIDED

The Plan provides retirement, disability, death, and termination benefits. The Police Pension Plan has two tiers. Police officers hired prior to January 1, 2011 are eligible for Tier 1. Police officers hired on or after January 1, 2011 are eligible for Tier 2.

Under Tier 1, a police officer age 50 or more with 20 or more years of creditable service shall receive a pension of one-half of the salary attached to the rank held by the officer at the date of retirement. The pension shall be increased by 2.5% of such salary for each additional year of service over 20 years of service through 30 years of service, to a maximum of 75% of such salary. The minimum monthly benefit is \$1,000 per month. The monthly benefit shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3% of the original pension, and 3% compounded annually thereafter. Those that retire prior to age 55 receive an increase of 1/12 of 3% for each full month from benefit commencement until age 55 is reached.

#### NOTE 7. RETIREMENT FUND COMMITMENTS (CONTINUED)

Under Tier 2, a police officer age 55 or more with 10 or more years of creditable service shall receive a pension of 2.5% per year of service times the average salary for the eight consecutive years prior to retirement times the number of years of service. The maximum benefit is 75% of average salary. An annual cost-of-living adjustment is calculated each January 1<sup>st</sup>. The increase is equal to 3% per year or one-half of the annual unadjusted percentage increase in the consumer price index-u for the 12 months ending with the September preceding each November 1<sup>st</sup>, whichever is less, of the original pension after the attainment of age 60 or first anniversary of pension state date, whichever is later.

Officers totally and permanently disabled as determined by the Board of Trustees are eligible to receive a disability benefit. Officers disabled in the performance of an act of duty are entitled to 65% of the salary attached to the rank held on the date of service and the monthly retirement pension that the member is entitled to receive if he or she retired immediately. If the disability occurs while the officer is not in performance of an act of duty, the officer is entitled to a disability benefit of 50% of the salary attached to the rank on the last day of service.

If an officer dies in the line of service, the named beneficiary is entitled to a death benefit equal to 100% of the officer's salary attached to the rank held by the officer on the last day of service. For a non-service death, the beneficiary would receive a maximum of 50% of the salary attached to the rank held by the officer on the last day of service, and the monthly retirement pension earned by the deceased officer at the time of death, regardless of whether death occurs before or after age 50. For non-service deaths with less than 10 years of service, a refund of member contributions is provided.

After termination of service, an officer with less than 10 years of service will receive a refund of their contributions. If the officer has 10 or more years of service, the officer will receive either a refund of their contributions, or the termination benefit, payable upon reaching age 60 provided contributions are not withdrawn. The termination benefit is 2.50% of the annual salary held in the year prior to termination times years of creditable service.

#### (iii) CONTRIBUTIONS

Plan members are required to contribute 9.91% of their base salary to the Police Pension Plan. The City is required to contribute the remaining amounts necessary to finance the plan as actuarially determined by an enrolled actuary.

#### (iv) <u>INVESTMENT POLICY</u>

The fund's Board of Trustees is required to adopt an investment policy which can be amended by a majority vote of the Board of Trustees. The plan complies with the investment guidelines set forth at 40 ILCS 5/1-113. The investment policy was modified on April 19, 2018.

Fixed-income securities are reported at cost subject to adjustment for market declines judged to be other than temporary (lower of cost or market). Investment income is recognized as earned. Gains and losses on sales and exchanges of fixed-income securities are recognized on the transaction date. Equity securities are reported at fair value. The plan did not hold investments in any one organization that represent 5% or more of the Pension Plan's Fiduciary Net Position.

#### NOTE 7. RETIREMENT FUND COMMITMENTS (CONTINUED)

For the year ended April 30, 2017, the annual money-weighted rate of return on plan investments, net of pension plan investment expense, was 7.05%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The following was the Board's adopted asset allocation policy and best estimate of arithmetic real rates of return as of April 30, 2017:

|                         |                   | Long Term Expected  |
|-------------------------|-------------------|---------------------|
| Asset Class             | Target Allocation | Real Rate of Return |
| Certificates of Deposit | 20%               | 1.20%               |
| Municipal Obligations   | 30%               | 2.40%               |
| Mutual Funds            | 45%               | 6.60%               |
| Cash                    | 5%                | 0.00%               |
| Total                   | 100%              |                     |
|                         |                   |                     |

#### NOTE 7. RETIREMENT FUND COMMITMENTS (CONTINUED)

#### (vi) ACTUARIAL ASSUMPTIONS

The total pension liability above was determined by an actuarial valuation performed as of April 30, 2017 using the following actuarial assumptions.

Inflation 2.50%

Salary Increase Service-related table with rates grading from

10.5% to 3.0% at 30 years of service

Discount Rate 6.50% Investment Rate Of Return 6.50%

Mortality rates were based on the RP-2000 Combined Healthy Mortality with a blue collar adjustment, projected to the valuation date using Scale BB. Disabled mortality rates were based on the RP-2000 Combined Disabled Mortality with a blue collar adjustment, projected to the valuation date using Scale BB. The date of the most recent experience study for which significant assumptions are based upon is not available.

#### (vii) DISCOUNT RATE

The discount rate used to measure the total pension liability was 6.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that sponsor contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Pension Plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

For purpose of this valuation, the expected rate of return on pension plan investments is 6.50%; the municipal bond rate is 2.67% (based on the weekly rate closest to but not later than the measurement date of the Bond Buyer 20-Bond Index as published by the Federal Reserve); and the resulting single discount rate is 6.50%.

## (viii) <u>SENSITIVITY OF THE NET PENSION LIABILITY TO CHANGES IN THE DISCOUNT RATE</u>

The following presents the plan's net pension liability, calculated using a Single Discount Rate of 6.50%, as well as what the plan's net pension liability would be if it were calculated using a Single Discount Rate that is 1% lower or 1% higher:

|                       | Current      |               |              |  |  |  |  |
|-----------------------|--------------|---------------|--------------|--|--|--|--|
|                       | 1% Decrease  | Discount Rate | 1% Increase  |  |  |  |  |
|                       | 5.50%        | 6.50%         | 7.50%        |  |  |  |  |
| Net Pension Liability | \$ 8,969,632 | \$ 6,309,009  | \$ 4,164,192 |  |  |  |  |

#### NOTE 7. RETIREMENT FUND COMMITMENTS (CONTINUED)

### (ix) <u>DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS</u>

At April 30, 2018, the City of Highland recognized deferred outflows and inflows of resources related to pensions from the following sources:

|  | Deferred     | Deferred     |
|--|--------------|--------------|
|  | Ouflows      | Inflows      |
|  | of Resources | of Resources |
| Differences Between Expected and Actual Experience   | \$ 89,427    | \$ (730,884) |
| Changes of Assumptions                               | 1,454,698    |              |
| Net Difference Between Projected and Actual Earnings |              |              |
| on Pension Plan Investments                          | 469,573      | (43,299)     |
| Total Deferred Amounts Related to Pensions           | \$ 2,013,698 | \$ (774,183) |

Amounts realized as deferred outflows of resources related to pensions will be realized in pension expense in future periods as follows:

|             | N  | et Deferred |
|-------------|----|-------------|
| Year Ending | C  | Ouflows of  |
| April 30,   | I  | Resources   |
| 2018        | \$ | 306,290     |
| 2019        |    | 306,288     |
| 2020        |    | 285,143     |
| 2021        |    | 142,718     |
| 2022        |    | 145,338     |
| Thereafter  |    | 53,738      |
| Total       | \$ | 1,239,515   |

#### NOTE 8. <u>INTERFUND ACTIVITY</u>

Interfund balances exist on the governmental and proprietary fund financial statements and represents amounts loaned among the funds that are expected to be repaid within the next year. Interfund balances between governmental funds and interfund balances between proprietary funds have been eliminated in the government-wide statement of net position. Interfund balances at April 30, 2018, consisted of the following:

| Due To                         | Due From                 | <br>Amount   |
|--------------------------------|--------------------------|--------------|
| City Property Replacement Fund | General Corporate Fund   | \$<br>70,000 |
| City Property Replacement Fund | Street Improvement Fund  | 405,000      |
| City Property Replacement Fund | Other Governmental Funds | 52,500       |

#### NOTE 8. <u>INTERFUND ACTIVITY (CONTINUED)</u>

Interfund transfers exist due to the allocation of general administrative expenses among the funds and to provide funding for the economic development fund. The transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Interfund transfers for the year ended April 30, 2018, consisted of the following:

|          |                           |                      |                               | Tra | ansfer From:                |    |                   | <br>FRANK Milwydyddia mwyn haif, man y gyn Milwyd Afr |
|----------|---------------------------|----------------------|-------------------------------|-----|-----------------------------|----|-------------------|---|
|          |                           | General<br>Corporate | City<br>Property<br>placement | Gov | Other<br>ernmental<br>Funds | A  | Light<br>nd Power | <br>Total   |

|          | Ambulance                 |                      | 150,000                       |     |                             |    |                   | 150,000   |
| Transfer | City Property Replacement | \$<br>280,000        |                               |     |                             | \$ | 150,000           | 430,000   |
| Ţ        | Total                     | \$<br>280,000        | \$<br>225,000                 | \$  | 19,808                      | \$ | 150,000           | \$<br>674,808   |

#### NOTE 9. NOTES RECEIVABLE

The following is a summary of long-term receivable transactions of the City for the year ended April 30, 2018:

|                           | C  | OMPONENT |
|---------------------------|----|----------|
|                           |    | UNIT     |
| Balance on April 30, 2017 | \$ | 40,751   |
| Additions                 |    |          |
| Reductions                |    | (6,380)  |
| Balance on April 30, 2018 | \$ | 34,371   |

#### McLaughlin's Entertainment, LLC

In August 2012, the component unit entered into a \$65,000, 5% note receivable with McLaughlin's Entertainment, LLC. Monthly principal and interest payments of \$689 are due at the end of each month until maturity in December 2022. \$34,371

#### NOTE 10. OTHER POST EMPLOYMENT BENEFITS

The City allows for retired employees to purchase medical, pharmacy, and dental insurance through the City's single employer, group plans. This constitutes an other post employment benefit (OPEB) provided to the employees. These benefits are governed by the City Council and can be amended through the City's personnel manual and union contracts. The OPEB plan does not issue a standalone financial report and is not included in the report of another entity. The City has adopted GASB 45 requirements related to OPEB disclosures.

#### NOTE 10. OTHER POST EMPLOYMENT BENEFITS (CONTINUED)

#### (A) BENEFITS PROVIDED

Retirees and their spouses or surviving spouses are eligible to purchase medical, pharmacy and dental benefits at the City's group rates. Although retirees pay 100% of the cost of the group premiums the City in effect subsidizes a portion of their insurance costs by allowing them on the group plan. Eligible employees must be at least 55 years of age with 20 years of service or 60 years of age with 8 years of service for all departments other than the police. Police department retirees must be 50 years of age with 20 years of service or 60 years of age with 8 years of service. Retirees and their spouses may only receive these benefits until reaching the age of 65. The 2016 Actuarial Valuation reported 114 active employees and 11 retirees for OPEB calculations for fiscal year April 30, 2018.

#### (B) ANNUAL OPEB COSTS AND NET OPEB OBLIGATION

The City had an actuarial valuation performed as of May 1, 2016 to determine the funded status of the plan as of that date as well as the employer's annual required contribution (ARC) for the fiscal year ending April 30, 2018. The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the year ending May 1, 2016 are shown below. 2010 was the first year for which a valuation was performed. These figures were updated for April 30, 2018 based on the 2016 valuation and are included below.

| Fiscal Year    | Anr | ual OPEB | Percentage of Annual OPEB | N  | et OPEB   |
|----------------|-----|----------|---------------------------|----|-----------|
| Ending         | E   | Expense  | Cost Contributed          | O  | bligation |
| April 30, 2016 | \$  | 99,724   | 37.1%                     | \$ | 407,503   |
| April 30, 2017 |     | 134,915  | 32.3%                     |    | 498,871   |
| April 30, 2018 |     | 133,146  | 39.7%                     |    | 579,110   |

The net OPEB obligation as of April 30, 2018 was as follows:

| Annual Required Contribution               | \$ | 142,809  |
|--|----|----------|
| Interest on Net OPEB Obligation            |    | 17,460   |
| Adjustment to Annual Required Contribution | -  | (27,123) |
| Annual OPEB Expense                        |    | 133,146  |
| Contributions Made (Implicit)              |    | (52,907) |
| Estimated Implicit Benefit Payments        |    | 0        |
| Estimated Annual Employer Contribution     |    | 0        |
| Change in Net OPEB Obligation              |    | 80,239   |
| Net OPEB Obligation as of 4/30/17          |    | 498,871  |
| Net OPEB Obligation as of 4/30/18          | \$ | 579,110  |

#### (C) FUNDED STATUS AND FUNDING PROGRESS

As of April 30, 2016, the date of the most recent actuarial valuation, the actuarial accrued liability for benefits was \$1,297,127. The annual covered payroll was approximately \$7,673,416, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 16.90%.

#### NOTE 10. OTHER POST EMPLOYMENT BENEFITS (CONTINUED)

#### (D) ACTUARIAL METHODS AND ASSUMPTIONS

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the ARCs of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. Other key actuarial assumptions include:

| Discount Rate     | 3.5%                         |
|-------------------|------------------------------|
| Trend - Immediate | 9.0%                         |
| Trend - Ultimate  | 5.0%                         |
| Funding Method    | Projected Unit Credit        |
| Amortization      | 30 - Year Open, Level Dollar |

GASB 45 stipulates that the discount rate should reflect the long-term rate of return expected to be earned on the assets backing the liability. As the City does not expect to fund the liability through a retiree health care trust, the discount rate reflects the long-term rate of investment return expected to be earned on assets in its general fund.

#### NOTE 11. TAX ABATEMENTS

The City enters into property tax abatement agreements with local businesses under the Illinois Tax Increment Allocation Redevelopment Act. Under this act, localities may grant property tax abatements for the purpose of rehabilitation of blighted or conservation areas. The abatements may be granted to any business located within the TIF District boundaries which incur qualified redevelopment costs. A typical agreement will reimburse a developer's qualified costs up to 50% of the annual property tax increment. For the fiscal year ended April 30, 2018, the City abated property taxes totaling \$48,570 under this program.

The City entered into sales tax rebate agreements with multiple businesses within the City's business district as an incentive for the businesses to complete improvements to their businesses. These businesses receive sales tax rebates of up to 100% of the 1% city sales tax increment, to be paid annually. For the fiscal year ended April 30, 2018, the City abated sales taxes totaling \$35,489 under these agreements.

The City entered into property tax abatement agreements with multiple businesses within the City's business district as an incentive for the businesses to complete improvements to the buildings within the district. These agreements reimburse the businesses up to 100% of the City's portion of the ad valorem tax increment generated on the increase in equalized assessed value for the improved property. For the fiscal year ended April 30, 2018, the City abated property taxes totaling \$7,880 under these agreements.

The City entered into a property tax abatement agreement to secure two easements. This agreement abates the City's portion of real estate tax. For the fiscal year ended April 30, 2018, the City abated property taxes totaling \$141 under this agreement.

#### NOTE 12. <u>LEGAL DEBT MARGIN</u>

The legal debt margin for the City of Highland was \$15,871,813 for general obligation debts. The computation was as follows:

| Assessed Valuation as of April 30, 2018                  | \$                  | 184,021,018 |
|--|---------------------|-------------|
| Statutory Debt Limitation (8.625% of Assessed Valuation) | \$                  | 15,871,813  |
| Less: General Obligation Debt                            | termenter remaining | 0           |
| Legal Debt Margin  | _\$                 | 15,871,813  |

The total general obligation debt for the City of Highland at April 30, 2018 was \$0.

#### NOTE 13. GOVERNMENTAL FUND BALANCES

As of April 30, 2018, governmental fund balances are classified as follows:

|                             | Co   | General<br>Orporate<br>Fund | Repl  | Property<br>acement<br>Fund |    | nbulance<br>Fund | Im <sub>1</sub>                         | Street<br>provement<br>Fund | Go               | Other<br>vernmental<br>Funds | 65p73pm3 | Totals     |
|-----------------------------|------|-----------------------------|-------|-----------------------------|----|------------------|---|-----------------------------|------------------|------------------------------|----------|------------|

#### CITY OF HIGHLAND, ILLINOIS NOTES TO SCHEDULE "1" APRIL 30, 2018

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. During the first quarter of the calendar year, the City Manager submits to the City Council a proposed budget for the year commencing May 1 of that year. Expenditures, interest, payroll, claims, and compensated absences are budgeted to the extent anticipated to be paid in cash.
- 2. Public hearings are conducted to obtain taxpayer comments.
- 3. On April 17, 2017 the budget ordinance was legally enacted. The budget ordinance was legally amended on December 18, 2017 and April 16, 2018.
- 4. The operating budget for the major governmental and special revenue funds is reflected in the financial statements.
- The formal budget is adopted and used as a management control device during the year for the general fund, special revenue funds, capital project funds, debt service funds, enterprise funds and pension and nonexpendable trust funds. Budgetary control is at the total individual fund level and is alternatively achieved through bond indenture provisions for the debt service funds. This allows the City Manager and the finance department to transfer budgeted amounts within departments; however, any revisions that alter the total expenditures/expenses of any individual fund, by more than 10% must be approved by the City Council.
- 6. The City files with the county an annual budget ordinance which is the legally required document that levies a tax on the owners of property located in the City. The City budgets for expenditures to the extent anticipated to be paid in cash. All appropriations lapse at year end. The budget is the legal document that limits the spending capacity by fund of the City for its services and operations.

As of April 30, 2018, the City's expenses exceeded appropriations in the following funds:

| Ambulance Fund            | \$<br>136,986 |
|---------------------------|---------------|
| Municipal Retirement Fund | 10,104        |
| Police Pension            | 30,463        |

### NOTES TO SCHEDULE OF PENSION CONTRIBUTIONS SUMMARY OF ACTUARIAL METHODS AND ASSUMPTIONS USED IN THE CALCULATION OF THE 2017 CONTRIBUTION RATE\*

#### VALUATION DATE

Notes:

Actuarially determined contribution rates are calculated as of December 31 each year, which is 12 months

prior to the beginning of the fiscal year in which contributions are reported.

#### METHODS AND ASSUMPTIONS USED TO DETERMINE 2017 CONTRIBUTION RATES:

Actuarial Cost Method:

Amortization Method:

Aggregate Entry Age Normal Level Percentage of Payroll, Closed

Remaining Amortization

Period:

Non-Taxing bodies: 10-year rolling period.

Taxing bodies (Regular, SLEP and ECO groups): 26-year closed period

Early Retirement Incentive Plan liabilities: a period up to 10 years selected by the Employer upon adoption

of ERI.

SLEP supplemental liabilities attributable to Public Act 94-712 were financed over 21 years for most

employers (two employers were financed over 30 years). 5-Year smoothed market; 20% corridor

Asset Valuation Method:

3.50%

Wage Growth: Price Inflation:

2.75% - approximate; No explicit price inflation assumption is used in this valuation.

Salary Increases:

3.75% to 14.50% including inflation

Investment Rate of Return:

n: 7.50%

Retirement Age:

Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the

2014 valuation pursuant to an experience study of the period 2011-2013.

Mortality:

For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

#### OTHER INFORMATION

Notes:

There were no benefit changes during the year.

<sup>\*</sup>Based on Valuation Assumptions used in the December 31, 2015 actuarial valuation

## NOTES TO SCHEDULE OF PENSION CONTRIBUTIONS SUMMARY OF ACTUARIAL METHODS AND ASSUMPTIONS USED IN THE CALCULATION OF THE 2017 CONTRIBUTION RATE\*

#### VALUATION DATE

Notes:

Actuarially determined contribution rates are calculated as of May 1 of each year prior to the

beginning of the year in which contributions are reported.

#### METHODS AND ASSUMPTIONS USED TO DETERMINE 2017 CONTRIBUTION RATES

Actuarial Cost Method:

Entry Age Normal Cost Method

Amortization Method:

Closed level percentage of payroll amortization of 100% of the Unfunded Actuarial Accrued

Liability using a 3.0% payroll growth assumption over the period ending on April 30, 2040  $\,$ 

(23-year amortization in 2017)

Asset Method:

Market Value of Assets

Salary Increases:

Service-related table with rates grading from 10.5% to 3.0% at 30 years of service.

Cost-of-living Increases:

3.0% (1.25% for those hired after 1/1/2011)

Rate of

Investment Rate of Return:

6.5%, net of investment expenses

Retirement Rates:

|       | *******    |
|-------|------------|
| Age   | Retirement |
| 50-54 | 20%        |
| 55-59 | 25%        |
| 60-62 | 33%        |
| 63-69 | 50%        |
| 70+   | 100%       |

Mortality:

Active Lives

RP-2000 Mortality Table with bule collar adjustment, projected to 2017 using Scale BB.

Disabled Lives

RP-2000 Disabled Mortality Table, projected to 2017 using Scale BB.

5% of deaths are assumed to be service related.

#### OTHER INFORMATION

Notes:

There were no benefit changes during the year.
